care must be exercised. Keep them as nearly in the same condition as when they were harvested as possible.—Congregationalist. RAILROAD TRANSPORTA-TION.

The subject of paramount importis that of the transportation of farm products. In this connection, the following letter, written by Josiah Quincy, of Mass., to the President of the Illinois Farmer's Association, in regard to government control of railroads, will be read with inter-

est:
"I have just received your favor of the 19th inst. I am much oblig-ed to you for the information you give me concerning the anti-monopoly movement at the West. You do me the honor to ask my views of what had best be done for the common interest. The first step is to diffuse information, and to draw attention to the subject. The next is to have a national organization of those who are interested in reducing those who are interested in reducing the cost of transportation. The railroads resemble a regular army, with skillful officers and a full commissariat. The people are like a disorganized mob, that has no concentration of action. Until they have that they are powerless. My own opinion is that ultimately there will be great freight railroads connecting the distant West and the interior with the Atlantic; that the rostyphills, or Syphitral Allantic; that the upon it under strict regulations as to speed, which should not exceed eight miles an hour, paying such a toll as would give six per cent. on the actual cost, and keep the roadbed and stations in repair. As there would be no necessity to go upon be no nece ty to go upon sidings to make way for express trains, the transportation would be about as rapid, and far more certain, than at present. On such a road prices would be reduced by compe-tition, and the amount of capacity for carriage would be enormous, amounting to millions of tons annually. Such is my individual opinion as to what will ultimately take place. As before stated, the first step is for thinking men to decide what had best be done, so as to do justice to the capital fairly invested in railroads, and yet protect the interest of the people."

In many affections peculiar to ladies, the Bx Trace Buchu is unequaled by any other remedy—As in Ohlorosis or Retention, Irregularity, Pain-lunes or Suppression of Euctionary Evacuations, Ulicerated or Schirrus state of the Terras, Longorphe of the State of the State of the Terras, Longorphe or Whites, Sterility, and for all complaints incident to the sex. It is prescribed extensively by the most eniment Physicians and Midwives for enfeebled and delienteeonstitutions of both sexes and all ages.

REMEDY FOR CORNS.

When a young man, says a corres-ondent of the Country Gentleman, I used to be very much annoyed by those painful excrescences called "corns," on the toes and feet, until I was told of a very simple but effectu-al remedy for them by some person. was told of a very simple but effectual remedy for them by some person. It was to bathe the feet in tepid water to soften them; then pare them off very closely with a sharp knife; then rub in well green peach-tree leaves; when, after continuing the rubbing once or twice a day, the corns will entirely disappear, and not return, without the cause which first occa-sioned them. I have often tried the remedy, and never yet found it to fail. It seems to be the prussic acid in the peach-tree leaves that takes them away.

EXCELSIOR.

Dr. Wengerts Family Medicines are considered superior to all others before the American public for the speedy and certain cure of the diseases for which they are recommended. Invalids, try them, and be convinced of the truth of what we assert. It is but ten months since they were first offered to the public, and to-day they are sold by first-class Druggists and Merchants in Pennsylvania, Maryland, New Jersey, New York, the Virginias, Ohio, Indiana, and the District of Columbia. Surely they are not humbugs or they would'nt be so highly commended by the intelligence of the most powerful states in all this fair land. They are classified so as to meet the most difficult diseases for which they are offered, not one medicine for all the diseases humanity is heir to.

In their treatment, a purgative, exerting a power
ind inducence upon these various organs, is easentially necessary. There is no cathartic for the
purpose equal to Dr. J. Walker's Vinegar Bitters,
as they will speedily remove the dark-colored
viseid matter with which the bowels are loaded, at
the same time stimulating the secretions of the
liver, and generally restoring the healthy functions of the digestive organs.
