The Two Best Potatoes.

In reply to our correspondent, H. Biddle, which two patatoes we recommend as the most profitable for market, we reply, that with some fruits and vegetables the two best, and the two best for market, are not always synonymous terms; but in the case of two potatoes, we think they are Early Rose for best early, and White Peach blow for best late. These, in our opinion, are not only the best, but also sell the best. Much was expected from the Peerless, but in this section, within our observation, it has not come up to expectation. Very productive, but of poor quality, and in many patches we visited last fall, it seemed to have been especially attacked by the potato bug, and almost rendered unsalable by its partially eaten surface. As a table potato it is quite sodden and watery. It will not command the highest price.

The Early Rose is a really good potato, both for summer and winter, is very productive and very early. It can be readily got off and marketed, leaving the ground vacant for a good crop of winter cabbage or other crop.

The White Peach Blow is our finest late potato, and brings the best price for family use. In boiling it should first have a paring taken of around its circumference. It is especially dry and mealy, and if there is such a thing, it has a real potato flavor. We have heard connoisseurs in good things speak of a roasted Peach Blow Potato as the finest kind of eating.

It has one drawback, of continuous growing till late in the fall, (thus preventing putting in another crop). It also makes an enormous growth of top. It is, however, quite productive, and always in demand in Philadelphia for storing away for family use till potatoes come again.—*Practical Farmer.*

Preserving Shingles.

There is a good deal better and cheaper way of preserving shingle roofs, than to paint them. We have seen shingle roofs kept till fifty years old, by only the application of lime. Here is a very effective recipe for preserving shingles: Take a potash kettle or large tub, and put into it one barrel of wood-ashes lye, five pounds of white vitriol, five pounds of alum, and as much salt as will dissolve in the mixture. Make the liquor quite warm, and put as many shingles in it as can be conveniently wetted at once. Stir them up with a fork, and when well soaked, take them out and put in more, renewing the liquor as necessary. Then lay the shingles in the usual manner. After they are laid, take the liquor that is left, put lime to make it into whitewash, and apply to the roof with a brush or old broom. This wash may be renewed from time to time. Salt and lye are excellent preservatives of wood.—*Ohio Farmer.*

Plant Often.

One of the best rules the farmers or gardeners can follow to insure success in getting a good stand or tender crops is to plant often. Take, for example, melons, squashes, cucumbers, lima beans, and such other products as may be desirable to start early, and which often fail when planted early, and apply the rule at the head of this article, and success would be certain. Fit your ground early; make broad, rich, flat hills, slightly crowning, to insure dryness and gain warmth. Then plant early in the season, and one week later put down a few more seeds in the hills with the thumb and fingers; a week later repeat the planting, and if the season be particularly cold and backward, and the first planting do not appear, a fourth may be necessary. By this method success is rendered certain; but little time is lost, for the later plantings will grow so fast as to overtake the first.—*Rural Home.*

Apple Tree Borers.

Prevention of course is the best thing, and this consists in keeping the ground about the roots of the trees from weeds and other "trash," that seems to shelter the insect when laying its eggs; and in application of soap and soft water or soft soap, boiling hot, to the tree in May or June. If the borers are already in the trees, which you can determine by the saw-dust-like borings on the bark and ground about the roots, you can destroy them by the knife, a wire or peeled twig thrust up the hole made by the insect. In using the knife the blade hold verticle so as not to cut across the bark any more than is absolutely necessary.

So far as we have seen, borers are not apt to attack thirifty trees that have clean cultivation, and it was much easier to prevent their attacks than to destroy them.—*Prairie Farmer.*

Clean the Churn.

Much of the bad flavor of butter proceeds from the neglect to properly cleanse the churn, pans or other utensils used from the sour milk. I have known churns to become so saturated with it, that sweet butter could not be made in them. A churn should frequently be filled with lime water or lye to sweeten it, and eradicate the bad odors that have become absorbed into it, or left in some crack of the churn or dash. All pans that have creases at the bottom joint should be discarded or the crease filled up with solder, that the foul stuff may not be secreted there to taint the new milk. Stone pans are excellent, and also the pressed tin without seams. We have frequently found butter to taste as dish water smells—imperfect washing of pans may be the cause.

Short-Legged Stock.

Do farmers know that short-legged stock are the best—short-legged cattle, horses, sheep, and hogs? Do they know that all short-legged animals have greater depth of rib and body, more strength and vitality, and better constitution than long-legged animals? Short-legged bulls, stallions, boars, and bucks are always best, other things being equal. A good judge of animals will always pay more for them. Eschew long-legged stock. Breed to the best always. Like will beget like.

IRON

BAR.

A FEW REASONS

WHY THE

ARION PIANO

IS SUPERIOR TO ALL OTHERS:

The ARION PIANO-FORTE has greater power than any other Piano-Forte manufactured.

It will Stand in Tune Longer,

and in its mechanical construction it is more perfect, and, therefore, more durable, than any instrument constructed in the usual modern style.

The arrangement of the Agraffe, the manner of stringing, the peculiar form and arrangement of the Iron Frame

SUPERCEDES ALL OTHERS

The use of a bar (which is a part of the Iron Frame on a line with the heavy steel stringing,) gives

GREAT STRENGTH

where most needed, and in this respect all other pianos fail.

The construction of the WREST PLANK, into which the tuning Pins are inserted, is such that it is impossible for the pins to come loosened, or the Wrest Plank itself to split, as is too often the case in other Piano-Fortes.

The Extraordinary Evenness

throughout the scale, the excellent Singing Quality, the

LENGTH AND PURITY OF VIBRATION,

all go to prove what we claim, viz: that the

ARION PIANO-FORTE

Is the Best Instrument Manufactured.

ALSO

ESTEYS COTTAGE ORGANS,

WITH THE

VOX JUBILANT

AND

VOX HUMANA.

THE NE PLUS ULTRA OF

REED ORGANS,

universally acknowledged to be the BEST Organ made for Sunday Schools, Churches, Parlors and Lodges.

Having more power, with a sweeter tone, than any other Organ in the market notwithstanding the representations of agents interested in the sale of other Organs, *we do fully warrant every Organ for the period of five years, (at our own expense.)* We have no agent in Huntingdon at present, therefore all who may want one of the best Organs extant may receive, by corresponding with us, a price and descriptive list from which a selection may be made, to which we will give our personal attention, and guarantee satisfaction,

PLAIN HOME TALK

Is plain talk about the body and its physical and social needs. Dr. B. R. Foote, author of "Medical Common Sense," of No. 120, Lexington Ave., N. Y., who entertains everybody with his pen, and cures everybody by his skill, is its author. In its thousand pages it answers a thousand questions you don't want to go to your physician about. It is as is stamped upon its cover, "a book for private and considerate reading." Price $3 25, and sent postage prepaid, everywhere. Contains table mailed free. Agents wanted. A beautiful original chromo, mounted, "Throw Physic to the Dogs," worth $10, goes with the book. No book without the chromo.
