final reason that stamps Local Option as a success, if there were no other, is that whatever amount of liquor is sold or drank it is not done by authority of law, and the stigma is removed which formerly ever pointed its skel-eton hand at the lawmakers, (we the people) with the disgraceful charge "you licensed the drunkard making trade."

That this happy state of things may no continue, if violators of the law are not brought to justice, is certain. The disgraceful scenes of Decoration Day, were brought about by a few men of such fiendish natures that the community is in constant danger while they are at large. These men had li-quor in secret places, and exhibited their satanic disposition by dealing it out to those whom they could lure into their clutches. The gentlemen, who with true patriotic spirit, labored so earnestly to perfect the arrangements for strewing with evergreen wreaths, the graves of their dear fallen comrades, the nations martyrs, should bring to speedy punishment the outlaws who would disgrace the solemn ceremonies of Decoration Day and descerate the graves of fallen soldiers. And with out delay a County organization is hould be formed, in which sould be united every good patriotic man and woman, for the purpose of prosecuting violators of the liquor law. A simple organization could be formed, that would cost very little time, money or labor and yet do effective work. A membership fee of a dollar a year would supply the finances, and a prosecuting committee would do the work. The reason liquor laws have never been enforced, is not because the majority of the people do not want them enforced, but because the enforcement of them is of general interest, and each good citizen wonders daily, why his neighbor does not manifest more patriotism, by prosecuting offenders against his countrys laws. If one man's property is stolen, or his life threatened, he becomes a prosecutor of the criminal without hesitation because he is specially interested, but the same man would positively refuse to prosecute the cause the breadfrom scores, and criminals who steal the breadfrom scores, and criminals who stead the breadfrom scores, and criminals who steal the breadfrom scores, and criminals who stead the breadfr solemn ceremonies of Desoration Day and des-ecrate the graves of fallen soldiers. And with reminals who steal the bread from scores, and endanger the life of a community; and not because he does not think it right, but simply because he thinks some one else will do it, or ought to do it. Therefore the necessity of a "Western." Western to at \$8600, and extend the many states of the set Prosesuting Committee, whose special duty and interest it will be to bring offenders to the

Among his cournedes he was held in niversal esteem on account of his slodierly courage and the kindliness of his disposition. Warm and true in his social intercourse, he never lost a lond or made as memory. Durine, his illness no
