

READING MATTER ON EVERY PAGE. LOCAL AND PERSONAL.

Brief Mention--Home-Made and Stolen Cherries in market. The streets are dirty. See new announcements.

On a high--The mercury. Next in order--Mad dogs. Bobbing round--Tax collectors.

Farmers are about going to grass. The bathing season has opened briskly. Driving a heavy trade--The soda water dealers.

Broad Top is prepared to move 3,000 tons of coal daily. Read new schedules of the Broad Top and B. & E. railroads.

Much admired--The work executed at the JOURNAL job rooms. The public schools close next Friday until the first of September.

The drought is becoming a very serious affair. Everything is suffering. If you want cheap envelopes, with your address printed on them, give us a call.

Senator Scott was appointed foreman of the U. S. Grand Jury, at Williamsport, last week. Visitors are wending their way to Bedford. The boarding houses are all full in a short time.

The Stonewagon bridge is to be covered with sheeting. Messrs. Buchanan & Son have the job. Maj. D. W. Mullin, of Bedford, illuminated our office with his genial countenance one day last week.

The pupils of Miss Burbank's school held a picnic, in the grove, on the south side, on Saturday last. A wicket wag--The chap who stole that half barrel of ale from an up town stable on Saturday night.

The United Brethren purpose holding a camp meeting, in "McCallan's Bottom," sometime during the summer. Will somebody tell us where "Jagged Forge" is? It is located in Huntington county. Who is a man a live here?

Whiskey is sold in town somewhere. A number of dead heats were full of it on Saturday night. Where did they get it? On Monday last we had the pleasure of taking by the hand our old-time friend, George McLeary, Esq., of Jackson township.

A fellow was sent to prison, on Friday last, charged with stealing a set of harness from George Numer, of Henderson township. Harry Fisher, of the "Gen.," will accept the thanks of the printers for a treat of cronk beer. It was the first thing this sweetening weather.

Hot, dry and dusty! Everything is sprinkled with sand. "Old Probabilities" has run out of water, and so has almost everybody else. We have 50,000 envelopes which we will sell at cost, and print the address of parties buying them at the lowest figure at which it can be done.

Mr. Union has the man "who had his back tanned" from wearing a new angled shirt. He would now prefer most any kind of a shirt to this kind of a shirt. The HUNTINGTON JOURNAL is one of the best weekly papers published in the State; it is always chock-full of interesting reading matter. --Clarion County Republican.

Within the past few months the Huntington and Broad Top railroad company has introduced the Westinghouse brake and put down 600 tons of new iron and 15,000 rails. The members of the Reformed Sabbath School held a very successful festival, last week, at the Castilian Garden, for the purpose of raising funds to purchase an organ.

Capt. Brice X. Blair has received a patent for a mail-bag clamp. It is quite a novelty, and is a decided improvement upon the old timber-jawed thing--tom-foh now in use. Huntington, according to "Observer," has a live dandy. "Why shouldn't she have?" Our barbers know how to get up city gent to order. Huntington is becoming a city, verily.

About two thousand emigrants passed through the three sections of the Way Passenger train, on last Wednesday. They represented a number of different nationalities. Henry Conroy, Esq., that good old man, has gone West. Away down to Q. We expect him to capture several of those Western "Granges." They are very common out there now.

It is getting very hot, and as usual the western are adding a large addition to their back hair. They are determined that the hot rays shall not penetrate to their craniums. Perhaps it is intended to prevent sun stroke. The Times is informed that the Doctor never objects to "Huntington Notes" when they are genuine, but when they are based on a false basis, and spurious, he cannot honor them. We still hope that somewhere, in the not far-distant future, some one will be found who will start an omnibus for the accommodation of the town. For a judicious person there are handsome profits in store.

A lady was thrown from a horse, near Stone Creek bridge, on last Wednesday, caused by the animal becoming frightened at a passing train of cars; fortunately her clothing alone suffered serious damage. Owing to the great length of the proceedings of the Sabbath School convention we have been obliged to crowd on the letter of the editor, and as it will be stale by next week we will ask him to write again.

"Oiling, Hauling, and Tom" Miller and "Buchanan" swear by that bay colt, and sometimes, we fear, if they do not swear at him, they do some handsome thinking. Colts will be cats, you know. The annual meeting of the Mercersburg Classes of the Reformed Church, embracing the counties of Franklin, Fulton, Bedford, Huntington and Blair, which assembled in Altoona, closed on Tuesday evening of last week. Street Commissioner Hight was very severely hurt, last week, while carting filling on one of the streets, by his horse becoming unmanageable. He moved about on crutches for a day or two. He will be all right in a few days. On Tuesday a week ago a child of Portuguese parents died on the Way Passenger train, between this place and McVeytown. The corpse of the dead child was left here by the mother, and by orders of Mr. Steele it was deposited in the cemetery.

The Fire Company was out practicing on Tuesday and Friday evenings of last week. Their water was not so abundant and seventy feet, through a inch nozzle, easy. They are determined to become a perfect set of squirts before the 4th prox.

Altoona is reported to be so filthy that it is confidently expected, in the event of cholera penetrating to that mountain retreat, that every man, woman and child in the place will be wiped out. We mourn for Altoona! It will be a good thing for Hollidaysburg, won't it?

Mr. Simon Cohn has erected a comfortable station house, containing warehouse, telegraph office and passenger room, at Coffee Run, for the H. & B. T. R. Co. This was much needed at this point. The people of that locality appreciate Mr. Gage's management very highly.

There was a lively time at S. E. Henry's on Sunday morning last. A swarm of bees, not having the fear of a violation of the Sabbath before their eyes, lodged on a little tree in the yard, and the way things went around there for a while was a caution. Square Port housed them eventually, but stings were numerous.

On Tuesday of last week a couple of roughs named Moser and Hollidaysburg, got into an altercation at one of the brick yards, and the police were called out and seized and bound them and then lodged them in lock-up. One of them did some talk "weeping, wailing and gnashing of teeth." Somebody furnished them with tangle-foot. The temperance men ought to look after this matter.

The JOURNAL office is not inferior to any outside of the city. Our workmen are fully as competent, and our stock is as good and as cheap, so that there is no necessity for any individual sending his work to Philadelphia to be printed. All work that is not contracted for at the JOURNAL, Monitor or Globe offices is sent to the city to the printer of the office here. We are sure to do our job, and we are sure to give you the best work, and that they can't want to know the fact to apply the remedy.

"Observer" did the Fire Company great injustice by his unguarded statements. The only drawback attributed to the "Huntington" at the Mobsus fire, resulted from placing the suction pipe, in the haste attending the getting of the engine into play, in the mud--The first thing the managers knew they were throwing mud at the fire. This was rather rough on the fire, but it was not half as bad as "Observer" throwing dirt at the machine. "Taking it all in" including "Observer's" letter--it was rather a little bit abusive.

Roman loves a good sear. In a smoke he finds the most profound enjoyment. One evening last week he stationed himself at a depot, on the arrival of the train, and, placidly enjoying a pleasant Havana. A lady seated next to him, and who was distinguished by being a tract for a while. He stooped down mechanically, picked it up and read the title in flaming characters: "Does it Pay to Smoke?" It was an awful conundrum. This disturbed his repose ever since. He has asked himself the question a thousand times since: "Does it Pay to Smoke?" And you may believe it or not, but it is never smoke, the subject always "ends in smoke."

Mr. E. L. Russ, who was for a number of years connected with the Harrisburg Telegraph Job Office, and who is experienced and thoroughly skilled in his profession, is now in charge of the JOURNAL Job Office, and is prepared to do all kinds of Job work in a manner that cannot be surpassed by any other in the city. Job done in the first time, and the history of the printing business in this country, that one who has spent much of a lifetime, exclusively devoted to Job Printing, has been engaged here. We hope this liberal enterprise will be duly appreciated by our people, and that all those who have Job work to do will give us a trial.

"HAVE YOU SEEN SAM?"--The following circumstances, which took place in a local option town, are vouched for as being correct by a reliable person. An old-fashioned gentleman, who knew nothing of local option, and who was partial to a drop of the "O of Joyful," when on a recent visit to the capital found all the fountains that furnished him his former beverage dried up. After interviewing all the places that formerly quenched his thirst, without success, he stepped into a grocery store to rest, and while there a gentleman came in and asked the proprietor, "How is Sam?" "So, so," was the reply of the urbane groceryman. The inquirer after Sam's health immediately bolted into a back room and was seen no more. Directly another man appeared, made the same inquiry, and disappeared in the same manner, and was followed at intervals by others who went through the same formulas did the first one. Our thirsty friend observed all these movements. He began to cogitate, and the more he cogitated the thirstier he became, and the more anxious was he to see "Sam." He left that grocery store, and after a circuit of four squares found himself at the door of the identical store that he had left. He felt as if he had to do or die, and putting on a bold face he entered and asked about the health of "Sam." "So, so," was the answer. "Can I see him?" asked our thirsty friend. The proprietor pointed him out in the rear of the counter. "I guess so." Our thirsty friend lost no time in entering that back room. The furniture consisted of one centre table. On that table was a pitcher of ice water. By that pitcher of ice water was a bottle of Old Bourbon. On that bottle of Old Bourbon was printed in large letters the word "Sam." A goblet was also on the table and on the goblet the magic number 10 cents was plainly visible. Our friend slaked his thirst, placed his ten cent Spinner on the water and took his departure through a back door as directed by a printed placard. Now we don't say that this took place at Hollidaysburg, and when you go there we would not recommend you to inquire after the health of "Sam."--Altoona Sun.

SUNSTROKE PREVENTIVE.--As we are passing through the heated tent the following specific against sunstroke may save from illness and death many whose occupation obliges them to be in the field or on the street: "About a year since I saw in a newspaper an account of a case of sunstroke, written by the party himself. After suffering a long time from the attack, and having to a considerable degree recovered, he experienced suffering even from the rays of the moon. This led him to the reflection that it was not altogether the heat of the sun that produced prostration. After much research, he discovered that the injury came from the chemical ray, and not from the heat ray. He was guided to this by observing the fact that a photograph could not be taken through a hollow glass. Accordingly, he lined his hat with two linings--one of orange yellow to arrest the chemical ray. This prepared, he went where the rays of the sun were most intense with perfect impunity. It is well known that the negro is seldom sun-struck. The color of his skin over the skull being of the orange yellow, may assist in accounting for the fact. I practiced upon this suggestion all last summer, lined my hat with green and orange yellow paper, and had confidence enough in the truth of the theory to neglect my umbrella, which I had never done before. I mentioned it to many who tried it also, and in many cases that came under my observation they uniformly asserted that the oppressive heat of the sun upon the head was much relieved."

COATS at a dollar a piece and Caps at twenty-five cents each, at H. Greenberg's Cheap Clothing Store.

LITERARY NOTICES.--The July number of Lippincott's Magazine, which forms the first of two volumes, contains the initial chapters of a charming narrative, titled "The New Hyperion," profusely illustrated by Gustave Doré. This record of a journey from Paris to the Rhine, gives promise of much graphic and humorous writing. The pictures which embellish it, coming as they do from Doré's pencil, cannot fail to yield a feast of art. From Philadelphia to Baltimore, by Robert Morris Copeland, is an illustrated article descriptive of the beautiful scenery along one of our most important routes of travel. "With the American Ambulance Corps in Paris," by Ralph Keeler, is an interesting paper, which no American can read without experiencing a feeling of just pride. "Our Home in the Tyrol," by Margaret Howitt, is continued in the present number of the Magazine. It well maintains the interest and attraction which it exhibited in the beginning. Will Wallace Harny's contribution entitled, "Strange Sea Industries and Adventures," is full of information of a novel kind, and abounds in anecdotes as exciting as they are truthful. "Remarkable Passages in Shelley's Early History," by January Seale, is a paper that will read with interest on account of the light which it sheds upon the youth of one of the geniuses of English poetry.

The department of fiction in the present number contains contributions to this issue are the continuation of Mr. Black's serial novel, "A Princess of Thule," and the conclusion of Mrs. Rebecca Harding Davis's story, "Berytown." The poetry of the number is notably good, particularly a charming little legend from the pen of Mrs. Margaret J. Preston, entitled, "Francesca's Worship." "Our Monthly Gospel" exhibits its characteristic features.

"Scriber's" for July--"The Great South" series of magnificent illustrated articles begins in "Scriber's" for July. In the first part, entitled "The New Route to the Gulf," Mr. Edward King gives graphic descriptions of the movement of the army of emigrants into the great South-west land, and of the romantic border life--past and present--of that strange but now rapidly modernizing country. An entertaining illustrated paper on "Low Life in Berlin," follows this. One of the most interesting magazine articles of the day is Rev. J. A. Reed's defence of Lincoln from the attacks of certain late biographers. Another noteworthy article in this number is Dr. Newell's singular autobiographic paper, entitled, "Recollections of a Restored Lunatic." There are, besides the continuation of Arthur Bonnicant's (in which is chronicled the death of Old Jenks), stories by Adeline Tarton and Miss Osgood; a bright little article on "Children's Magazines"; a remarkable paper by an "Orthodox Minister" on "The Liberty of the Press," and a poem by Mrs. Dora G. P. Lathrop, B. F. Taylor, Miss Anna, and others. The Book Reviews are more than usually full and readable, and the other departments receive their customary interest. Bret Hart's new story will begin in the August number.

The Aldine for July is a capital number, both as regards its Art and its Literature. It opens with a full-page illustration, printed in tints, and entitled "Cath Hin." It represents two children, the elder of whom, a girl, is holding her little brother up to a rosetush, on which a butterfly is about to alight. This is one of Mr. John S. Davis's studies of child life, and of a very excellent one, too. "Moonlight on the Shenandoah" is the title of the first of a series of five illustrations drawn by Mr. J. D. Woodard, whose themes are the scenery of our Dominion, which is chiefly selected in this instance from the region around Harper's Ferry and the Shenandoah. They are picturesque and beautiful. Mrs. Eliza Grestor transports us back to Old New York, in her spirited sketch of "Hell Gate Ferry," which is one of the most characteristic local drawings ever contributed to the Aldine. "A Draining Bit," after Otto Meyer, is delicious enough to provoke an epigram and a lover. Other figure-pieces are the "Morning Hat," by H. Werner, and "You Naughty Children!" by A. Gahl. The Literature of the Aldine is always as excellent as, and generally more varied than, the literature of any other American magazine. There are in the present number several interesting stories: "Sugaring Off," a study of New England life, by Mrs. H. G. Rowe, whose name is new to us; "Return in Peace," a study of old home life in the State of New York, by Lucy Ellen Guernsey; "The Comet," by Erickman Chartran; and "The Turkish Slipper," by Maurice Hartmann. The poems are "The Song in the Dark," by Mary E. Bradley; and "Sebastian at Supper," by Margaret J. Preston. Music, Art, and Literature are intelligently and independently discussed. Altogether the number is remarkably good. Subscription price \$5.00, including Chromos, James S. Stone & Co., Publishers, 55 Maiden Lane, New York.

The July Number of the Phenological Journal opens with a valuable and venerable magazine--in a most creditable manner. Readers must find the following among the special-interesting papers, which impart a high value to the number. Salmon P. Chase, with Portrait; The Problem of Government; which every politician should read carefully; Sketches from Daily Life, illustrated; Creating an Atmosphere; Genius and Talent; How to Use Phenology, illustrated; How I Gained it; The Shaker Problem, a defence; James L. Orr, with Portrait; Integrity; Where will you Summer; Compulsory Attendance, a powerful discussion of the Education Question.

Terms, \$3.00 a year, or six months on trial, for \$1.50. A dress S. R. Wells, 389 Broadway, N. Y.

PROTECTION OF CEMETERIES.--Among the acts passed by the Legislature was one conferring police power on persons entrusted with the care of cemeteries, and as this is the time when flowers and shrubbery usually suffer from the depredation of vandals we publish the law for the benefit of the despoilers: "I shall be lawful for the trustees, directors or other officers of all organized cemeteries within this State, to appoint as many day and night watchmen on their grounds as they may deem expedient; and such watchmen, and also all of their superintendents, gardeners and agents stationed on such grounds, are hereby authorized to take and subscribe before any mayor or justice of the peace in the township where such cemeteries may be situated, an oath of office similar to the oath required by law of constables; and upon the taking of such oath, such watchmen, superintendents, gardeners and agents shall have, exercise and possess all powers of police officers within and adjacent to said cemetery grounds; and they, and each of them, shall have power to arrest, on view, all persons engaged in violating the laws of the State in reference to the protection, care and preservation of cemeteries, and of the trees, shrubbery, structures and adornments therein, and to bring such persons so offending before a mayor or justice of the peace, within such township, to be dealt with according to law."

TO SUBSCRIBERS.--After the 30th our subscribers, both in and out of the county, will have to pay postage on the JOURNAL. Six months will have to pay for the first six months, which would be for the first of January, 1874. The postage for the JOURNAL for six months will be ten cents. It is altogether likely that this odious postage law, as far as concerns newspapers, will be repealed by that time.

A fine lot of Children's Carriages for sale at the sign of the Padlock. A. R. STREWART & Co.

THE UNDEVELOPED WEST, OR, FIVE YEARS IN THE TERRITORIES.--Being a complete history of that vast region between the Mississippi and the Pacific, its resources, climate, inhabitants, natural curiosities, etc., etc. Life and adventures, and prairies, mountains, and the Pacific Coast, with two hundred and fifty illustrations, from original sketches and photographs of the scenery, cities, lands, mines, people, and curiosities of the great West, by J. H. Beade, western correspondent of the Cincinnati Commercial and author of "Life in Utah," etc., etc. Published by the National Publishing Company of Philadelphia, Penna., which will soon be issued, and sold by subscription.

As a specimen of the author's frankness we quote from page 216: "This chapter is exclusively for farmers and prospective emigrants. 'No others need apply.' If any one of the latter has been visited by a rash-lured dream of an elysium, or a vision of the 'Golden West,' let him be led to feel and reflect when rightly trained. An affecting incident was related illustrative of this proposition, of a little boy, not more than ten years of age, who had been instilled into his mind the principles of piety and religion at that early age. He sure you have been with Christ yourself, and then you will be interested in the following incident. He told to Jesus, and seeking the aid of the holy spirit. This requires all the power and ability of mind and spirit. We do not often feel a conviction of the truth of the gospel, but the spirit of blessing truth to the infant mind. We can scarcely define what that mind may be capable of reasoning, but there is no child that can be brought to the Sabbath school, but he will be led to feel and reflect when rightly trained. This requires all the power and ability of mind and spirit. We do not often feel a conviction of the truth of the gospel, but the spirit of blessing truth to the infant mind. We can scarcely define what that mind may be capable of reasoning, but there is no child that can be brought to the Sabbath school, but he will be led to feel and reflect when rightly trained. An affecting incident was related illustrative of this proposition, of a little boy, not more than ten years of age, who had been instilled into his mind the principles of piety and religion at that early age. He sure you have been with Christ yourself, and then you will be interested in the following incident. He told to Jesus, and seeking the aid of the holy spirit. This requires all the power and ability of mind and spirit. We do not often feel a conviction of the truth of the gospel, but the spirit of blessing truth to the infant mind. We can scarcely define what that mind may be capable of reasoning, but there is no child that can be brought to the Sabbath school, but he will be led to feel and reflect when rightly trained.
