Art in Our Schools.—We call the attention of the Boards of Education, School Directors, Trustees and Teachers throughout the land to the report of the proceedings and the remarks of Dr. H. D. The introduction of well-conceived and appropriate pictures, engravings and paintings, in our introduction of well-conceived and appropri ate pictures, engravings and paintings, in our schools, is a good idea, and carries with it many strong and conclusive arguments in its favor. Art in this shape makes impressions upon the youthful mind that time cannot efface. The picture in question is eminently appropriate for such a purpose, and we trust no parsimonious policy will deter the introduction of this work of art and instruction in our schools generally.—N. Mr. Editors:—Some one writing for the Globe, from Oneida, does great injustice to the citizens of this borough as well as to his own township, and to the county in general. He assumes the style of the "weeping prophet," which is far too lofty.for his "brains," and the mantle of the meralist, which he has long since worn threadbare and in tatters, so that it will no longer hide the hypocrite within it. He sets himself about moralizing upon the result of the late election, which has evidently disappointed his hope and expectation. He wishes it to be understood that the subject "deserves to be treated with sincerity and candeserves to be treated with sincerity and can nd intimates recklessly facts and far and intimates recklessly facts and fancies—falsehoods manufactured out of the whole cloth—and piles slanders and libels upon his neighbors and fellow-citizens with a zest that is astounding. He is particularly hard upon the borough of Huntingdon; but his own township and the county in general feels the sharp point of his censorious pen.

"In your town," says he, "I am credibly informed that the scene was most disgraceful, liquor having been furnished in such abundance that every alley was a drinking saloon.
