EDITOR:--The new depot at Williams-burg is about completed. A few nights ago Mr. McRac, the engineer, gave the citizens the privilege to have a hop in it. There were about thirty-five ladies. The greater part of them came in from different places. The whole number of persons did not exceed one hundred. The ladies were all rather hand-to some; a few very pretty; most of them dressed in black, which always makes a lady look interesting. All did their best in dan-cing, and smiled their sweetest and best. Will Kennedy and Wilson Greenland, of your place, were four musicians and one caller. The mosic was very good, if they had left the outpandish noise away. Of course there was no person drunk. Williamsburg is a very tem-perate place. A short time ago the ladies time there is none in tow. Any person com-ing to this place will be obliged to bring his drink along or have a severe dry spel. At 20'clock the party retired to the Widow Paterson's for supper, where everything passed off splendidly. While at supper, Mr. David Fay took care of the depot and the fire. Some of the carpenters were not invited to the hop, and while he company was at supper they nailed up the doors; and when the party returned they tried to get in, but Mr. Fay in-formed them that ithey were milled out. nose badly broken, on Saturday last, by a piece of timber. Some parties were in the act of handling the timber and threw it upon something which caused one end to fly up and strike him in the face. It made our friend Jacob look as if he had been in a regular pitched battle. We expect him to be all right in a few days.

Some wretched editor, without the fear of everlasting brimstone before his eyes, has gotten off the following: "Lives there a man with soul so dead, who never to himself has seid, 'I'll pay before I ro to bed, the debt I owe the printer ? Yes, there are some who know full well, who never such a tale could ell, but they, I fear, will go to-well, the place where there's no winter.'

Persons who hold lots, in West Huntingdon on mere speculation; waiting for their neigh-bors to make them valuable, ought to be compelled, by the borough authorities, to keep up good sidewalks. It they will do nothing t improve the town they ought not to be allow ed to reap all the advantages of their neigh provements, without doing something bors' im wards giving these kind neighbors decent walks to and from their homes.

We publish the Alms House statement this week. It is one of the most intelligible state-ments that we have ever examined. No one can read it without seeing exactly where the money has gone. We must accord George W. Whittaker, esq., the intelligent clerk, credit for having met the demands of the public with an exhibit that cannot fail to be satisfactory in point of information. We have no doubt that many of our readers will object to the in her line. totals, but they are quite another thing.
