Not for Sale in Book or News Store

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of erdinary periodicals. It is an elegant miscellary of pure, light and graceful literature; and a collection of pictures; the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The peasessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then, there are the chromos, besides!

The Aldine will, hereafter, be obtained only ubscription. There will be no reduced or classic easier as subscriptions must be to the put of the put of

CANVASSERS WANTED.

The work originally published under the title of Ine New American Cyclop\_edia was completed a 1863, since which time the wide circulation hich it has attained in all parts of the United tates, and the signal developments which have aken place in every branch of science, literature and art, have induced the editors and publishers submit it to an exact and thorough revision, and to issue a new edition entitled The American YCLOP\_EDIA.

Within the last ten years the progress of discorry in every department of knowledge has made a
work of reference an imperative want.
The movement of political affairs has kept pace
rith the discoveries of science, and their irrutful
pplication to the industrial and useful arts and
he convenience and refinement of social lifeireat wars and consequent revolutions have ocurred, involving national changes of peculiar
noment. The civil war of our own country, which
vas at its height when the last volume of the old
work appeared, has happily been ended, and a new
ourse of commercial and industrial activity has
seen commenced.
Large accessions to our geographical knowledge-

E. C. SUMMERS.

ources for carrying it on to a successiti terminaion.

None of the original stereotype plates have been
steed, but every page has been printed on new
ype, forming in fact a new Cyclopaedia, with the
ame plan and compass as its predecessor, but
with a far greater pecuniary expenditure, and with
such improvements in its composition as have
seen suggested by longer experience and enlarged
cnowledge.

The illustrations which are introduced for the
fact time in the present edition have been added
not for the sake of pictorial effect, but to give
lacidity and force to the experience and of natutalent and depict the most famous and remarkable calcures of scenery, architecture and art,
as cell as the various processes of mechanics and GOODS FOR THE MILLION WEST HUNTINGDON BAZAR,
