The Huntingdon Journal.

Farm and Household.

Boarding Farm Help.

The Bucks County (Penn.) Agricultural Society recently considered the question whether it is better to board hired hands or to pay extra for their board. It was generally conceded that when a farmer boards several hands, his wife works harder than any body else, but, at the same time, it costs about $150 a year more to have a man boarded out. The plan of having tenant houses was recommended, for no time is lost in this way. help is more to be depended upon, and the laborer can take better care of his children.—One farmer, however, said he had quit the business on account of the difficulties.—A large Illinois farmer has had experience in this matter worthy of attention. For several years his wife and family had been overtaxed with the cares of hired men, and a couple of snug tenant houses were built, with garden ground attached, and for a time every thing seemed to work well.—Now a good deal of fruit of various kinds was grown on the place, and it was accidentally discovered that the families of the tenant houses had put up a large number of cans of raspberries, peaches, strawberries, and other fruit. They were discharged, but strange to say, their successors did the same thing, so that now this large farmer has come to the conclusion that he has too much land, that he needs only what he and his boys can work, for the profit on hired help no more than balances the variovs annoyances. The great trouble with most hired help lies in the consideration that if a man is worth high wages paid him, he will not work long for others, for he will seek land for himself.

Errors in Stock Breeding.

Every stock-breeder knows, or ought to know, how hard it is to keep on hand carefully bred stock to supply himself and others with such as alone should be bred from. The ordinary farmer, aiming to improve his stock and make a start in the right direction, must look to those who spend time and money to obtain and keep the very best, from which to select for breeding purposes. It is certainly a great error in any one to attempt to rear stock for breeding purposes unless he has all the necessary arrangements to breed with great care, to obtain such crosses as will meet the demands and ends aimed at. It is the indiscriminate breeding that has ruined the common stock of the country, and it will also ruin the improved breeds if not guarded against. Indiscriminate breeding gives you the same choice fruit in a nursery for seedlings, and many of you have seen the results of orchards selected from just such collections of trees. You have also witnessed the utter failures of farmers who select the stock from which to breed without the good sense and judgment necessary to get what they need. Get the best breeds, and you will always have the best.—*Rural Sun.*

Changing of Seed.

The *American Agriculturist* answers a correspondent by saying: "With all other grains than corn, a change of seed now and then is considered advisable. Potatoes are especially improved by a change procured from a different locality and soil. But corn has not generally been found to deteriorate by long planting, on the other hand, there are many farmers who are now planting seed produced from the corn their fathers planted a generation ago.—Running out of the corn is more likely to be the result of impoverished soil, and the best method of improvement would probably be a crop of clover upon the land, to be plowed under, or some other substantial fertilizer.

ENOCH MORGAN'S SONS'

SAPOLIO

Is a substitute for Soap for all Household purposes, except washing clothes.

SAPOLIO

For Cleaning your House will save the labor of one cleaner. Give it a trial.

SAPOLIO

For Windows is better than Whiting or Water. No removing curtains and carpets.

SAPOLIO

Cleans Paint and Wood, in fact the entire house, better than Soap. No slopping. Saves labor. You can't afford to be without it.

SAPOLIO

For Scouring Knives is better and cleaner than Bath Brick. Will not scrath.

SAPOLIO

Is better than Soap and Sand for polishing Tinware. Brightens without scratching.

SAPOLIO

Polishes Brass and Copper utensils better than Acid or Oil and Rotten Stone.

SAPOLIO

For Washing Dishes and Glassware is invaluable. Cheaper than Soap.

SAPOLIO

Removes Stains from Maple Mantels, Tables and Statuary, from Hard-finished Walls, and from China and Porcelain

SAPOLIO

Removes Stains and Grease from Carpets and other woven fabrics.

There is no one article known that will do so many kinds of work and do it as well as Sapolio. Try it.

HAND SAPOLIO

A new and wonderful effective Toilet Soap, having no equal in this country or abroad.

HAND SAPOLIO

As an article for the Bath, "reaches the foundation" of all dirt, opens the pores and gives a healthy action and brilliant tint to the skin.

HAND SAPOLIO

Cleanses and Beautifies the Skin, instantly removing any stain or blemish from both hands and face.

HAND SAPOLIO

Is without a rival in the world for curing or preventing roughness and chapping of either hands or face.

HAND SAPOLIO

Removes Tar, Pitch, Iron or Ink Stains and Grease; for workers in Machine Shops, Mines, &c., is invaluable. For making the Skin White and Soft, and giving to it a "bloom of beauty," it is unsurpassed by by any Cosmetic known.

HAND SAPOLIO

Costs 10 to 15 cents per cake, and everybody should have it. You will like it.

DON'T FAIL TO TRY THESE GOODS.

Buy it of your merchant if he has it or will procure it for you. If not, then write for our pamphlet, "All about Sapolio," and it will be mailed free.

TO THE PUBLIC.

The members of the A. M. E. Zion Church, of this place, have concluded to build a new church on the site now occupied by the old one, on the South east corner of Sixth and Moore streets, and in order to be successful they prayerfully ask the public to assist them in their undertaking. Their present building is unfit for occupancy, and it is absolutely necessary that they have a new house of worship.

VINEGAR BITTERS.

PURELY VEGETABE.

FREE FROM ALCOHOL.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Vinegar Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinegar Bitters in healing the sick of every disease man is heir to. They are a gentle Purgative as well as Tonic, relieving Congestion or Inflamation of the Liver and Visceral Organs, in Bilious Diseases.

Dr. Walker's California Vinegar Bitters act on all these cases in a similar manner. By purifying the Blood they remove the cause, and by resolving away the effects of the inflammation (the tubacular deposits) the affected parts receive health, and a permanent cure is affected.

If men will enjoy good health, let them use Vinegar Bittrrs as a medicine, and avoid the use of alcoholic stimulants in every form.

PATENT

ARION

PIANO

COMBINES MANNER'S FOUR

SIMPLIFYING PATENTS,

THE MOST VALUABLE PATENTS EVER USED IN PIANO-FORTES.

PATENT ARION.

REVERSED WOODEN AGRAFFE.

THE COMPOUND REST PLANK.

THE FULL IRON FRAME.

AND THE SUSTAINING IRON BAR.

A FEW REASONS

WHY THE

ARION PIANO

IS SUPERIOR TO ALL OTHERS:

The ARION PIANO-FORTE has greater power than any other Piano-Forte manufactured.

It will Stand in Tune Longer,

and in its mechanical construction it is more perfect, and, therefore, more durable, than any instrument constructed in the usual modern style.

The arrangement of the Agraffe, the manner of stringing, the peculiar form and arrangement of the Iron Frame

SUPERCEDES ALL OTHERS.

The use of a bar (which is a part of the Iron Frame on a line with the heavy steel stringing,) gives

GREAT STRENGTH

where most needed, and in this respect all other pianoes fail.

The construction of the WREST PLANK, into which the tuning Pins are inserted, is such that it is impossible for the pins to come loosened, or the Wrest Plank itself to split, as is too often the case in other Piano-Fortes.

The Extraordinary Evenness

throughout the scale, the excellent Singing Quality, the

LENGTH AND PURITY OF VIBRATION,

all go to prove what we claim, viz: that the

ARION PIANO-FORTE

Is the Best Instrument Manufactured.

ALSO

ESTEYS COTTAGE ORGANS,

WITH THE

VOX JUBILANT

AND

VOX HUMANA.

THE NE PLUS ULTRA OF

REED ORGANS,

universally acknowledged to be the BEST Organ made for Sunday Schools, Churches, Parlors and Lodges.

Having more power, with a sweeter tone, than any other Organ in the market notwithstanding the representations of agents interested in the sale of other Organs, *we do fully warrant every Organ for the period of five years, (at our own expense.)* We have no agent in Huntingdon at present, therefore all who may want one of the best Organs extant may receive, by corresponding with us, a price and descriptive list from which a selection may be made, to which we will give our personal attention, and guarantee satisfaction,

APPLETONS'

AMERICAN CYCLOPÆDIA.

NEW REVISED EDITION.

Entirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with Several Thousand Engravings and Maps.

The work originally published under the title of THE NEW AMERICAN CYCLOPÆDIA was completed in 1863, since which time the wide circulation which it has attained in all parts of the United States, and the original developments which have taken place in every branch of science, literature and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue a new edition entitled THE AMERICAN CYCLOPÆDIA.

Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts and the convenience and refinement of social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their place in permanent and authentic history.

In preparing the present edition for the press, it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the newest inventions in the practical arts, as well as to give a succinct and original record of the progress of political and historical events.

The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming in fact a new Cyclopædia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge.

The illustrations which are introduced for the first time in the present edition have been added not for the sake of pictorial effect, but to give lucidity and force to the explanations in the text. They embrace all branches of science and of natural history, and depict the most famous and remarkable features of scenery, architecture and art, as well as the various processes of mechanics and manufacturers. Although intended for instruction rather than embellishment, no pains have been spared to insure their artistic excellence; the cost of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopædia, and worthy of its high character.

This work is sold to Subscribers only, payable on delivery of each volume. It will be completed in sixteen large octavo volumes, each containing about 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous colored Lithographic Maps.

PRICE AND STYLE OF BINDING.

In extra Cloth, per vol.	$5.00
In Library Leather, per vol.	6.00
In Half Turkey Morocco, per vol.	7.00
In Half Russia, extra gilt, per vol.	8.00
