LET US HAVE A GOOD TICKET.

MR. EDITOR :-- Now that we have a new Constitution and some new laws regulating elections, and the conduct of candidates, it would be an excellent time to take some measures to secure a good ticket to place be-fore the people. It is too eften the case that men who would be the very last to be chosen by the party to fill its offices are the first to come out as candidates, and the less worthy they are the more urgent their solicitations. The effect of it is that worthy men are de erred from presenting themselves, and by the time a Convention assembles many of the delegates are pledged, and it comes down to a choice between two or three candidates, none of whom may be at all acceptable. This is an evil that ought to be corrected. Every delegate to a County Convention ought to go perfectly unpledged, except so far as bound by the instructions of the district that sends him. The Convention of Delegates ought to meet and choose, from the whole county at \$4.00 for Pennsylvania, Ohio and Indiana de, and large, able and reputable men as candidates.
