Pumpkin Seeds Kill Chickens.

Those feeding pumpkins in the fall or winter to stock, will be careful not to let the chickens eat the seed, as it will make them sick, and generally kill them.

Curiosities of Grafting.

There are many curious facts about vegetable life, says the Massachusetts Ploughman. We can, for example, graft the apricot on the plum, and the peach on the apricot, and thus we may produce a tree with plum roots and almond leaves.

STUMBLING.—When a horse stumbles never raise your voice—the creature dreads its master's chiding; never jog the reins—the mouth of the horse is far more sensitive than the human lips; never use the lash, the horse is so timid that the slightest correction overpowers its reasoning faculties.

Mahoning City, Pa., Oct. 16, 1873.

The BEATTY & PLOTTS celebrated Golden Tongue Parlor Organ is by far the best Parlor Organ in use. I have carefully examined it, and find its tone, workmanship and durability to be of the first quality, and I can be tried by any one wishing to do so, in proof of what I say.
