The account of the Republican Mass Meeting will be found in another column.

It was one of the best meetings we have attended for years.

The Liquor League is moving every thing movable to secure the election of Wm. P. McNite to the Legislature.

Temperance Democrats inform yourselves and not promptly.

The JOURNAL of the 16th ult., was aimed at two badly wounded Congressmen, and they have both come down but not half as gracefully as Col. Crockett's coos.

A number of Democrats want to know where Speer and Petriken were during Stenger's meeting on last Friday night?

It is said that the Monitor clique deserted Uncle George. The fusionists must be badly demoralized.

What do you think of it, straight Democrats?

John Miller, Chairman of the Democratic State Central Committee, has issued an address to the unfortified, in which he talks glibly about corruption and other Democratic clap-trap.

John knows all about corruption. He has been there himself. He is no doubt the right man in the right place.

The Monitor intimates that we have been guilty of the nefarious offense of lying about Mr. Speer.

In fact, if we are not mistaken, it says as much in plain Anglo-Saxon, and without very much circumlocution either.

Well, we admit that we were lying under a mistake, but Lord bless you boys, as soon as we discovered our error we made haste to take it all back.

Some unscrupulous persons have started, in quarters where they suppose it will injure him, the story that Mr. Guyer, one of the Republican candidates for Assembly, will advocate the establishment of a new county out of parts of Huntingdon, Blair and Centre.

We are authorized to say that it is a pure fabrication, without the slightest foundation in fact.

Such falsehoods will injure only those who are base enough to coin and circulate them.

The Columbian and Democrat is very anxious to learn why Col. Beath is called "General," and labors hard to show that he is not entitled to the appellation.

It is only necessary to say that when he was elected Surveyor General the voters of Pennsylvania conferred the honors of the office. "Surveyor" is dropped and the more familiar "General" is used in speaking of or him. Pursue that?

There are some things that independent voters should know and bear in mind on election day.

Under the new election law when a vote is challenged, the examination of the right of the person to vote must be made publicly and closed doors, as has been the case heretofore sometimes, is unlawful.

Qualified citizens of the election district only have the right to challenge.

The Congressional Conference, of the 18th Congressional District, after protracted sessions, last week nominated Hon. S. S. Blair, of Hollidaysburg, for Congress.

Blair is well known to almost our entire population. It is unnecessary for us to say that this is the best nomination that could have been made.

Mr. Blair fills the Jeffersonian bill to a letter. He has the confidence and respect of all who know him, and he should be elected by at least 1,000 or 1,200 majority.

The Monitor, last week, in a general way, denied the genuineness of the Barre letter of the 8th of September ult., which appeared in that paper, then under the management of J. S. Corum, esq.

This is very unfair. It imputes a dishonesty to Mr. Corum that we are confident he could not be guilty of knowing the man as we do.

Since then we have seen the manuscript, over the signature of the author, whose Democracy no one will doubt who knows him.

The Globe tries to create the impression that Dr. Wm. P. McNite, Democratic candidate for Legislature, was not intoxicated while attending the Newport Congressional Conference.

We say positively that he was and challenge the Globe to refute the charge.

We are opposed to personalities in a campaign but Doctor McNite bid defiance to every sense of decency and propriety, and we are opposed to a man of this character being passed off as a temperate man.

He has but taken the consequences of his indiscretion.—There is a clear majority of 1500 or 2000 voters in favor of temperance in this county and we mean to see that temperance men are not deceived.

OUR CANDIDATE FOR SHERIFF.

As a general rule it is not safe for Republicans to make up their minds as to the character of men on their ticket from what Democrats say of them.

Unable to find a spot or a blemish upon his life from boyhood until now, he has studiously sought to get rid of the force of the fact that he was a brave soldier, and did good service for his country in the hour of her peril, by telling the people that the story about his being in the army was all moonshine.

Other equally false stories have been set afloat, originating, no doubt, with the same wicked and dishonorable motive, to the effect that Mr. Crum was not a native of this county, but that he was born in some one of the Western States, and only came into this county a few years ago.

All it could do, would be to brand every one concerned in it, as utterly unworthy of either the confidence or support of honest men.

To set these stories at rest, forever, in all unprejudiced minds, and with men who want to learn the truth, and having learned it, want to be governed by it in their voting as well as in their living, it is only necessary to say that our candidate, H. E. Crum, is a son of Nicholas Crum, a well known, intelligent, and highly respected farmer, who resides near Paradise Furnace, Tod township, in this county.

Our candidate was his second son. He remained on the farm, with his father, until he attained the age of 19 years, when, like scores of other noble-hearted young men all over the land, recognizing the superior claims which an imperiled country had upon him, he exchanged the peaceful life of a farmer for the exposed and dangerous life of a soldier.

With the facts before you, make up your minds how you will vote. As for us, we have long ago determined that, all other things being equal, our ballot shall ever be cast for the faithful soldier, rather than for the man who would rob the soldier of his well-earned laurels, and prove unfaithful to his country in her hour of need.

GEN. ROBERT B. BEATH.

In the proceedings of the mass meeting, held in the Court House, on last Wednesday evening, we publish a report of the speech of the gentleman whose name heads this article.

It was not necessary to make any denial of these slanders in this community where the author of them is known, but there are portions of the State where the animus that prompted them is not so well understood, and some of these districts might be circulated to the detriment of General Beath, while, if properly understood, they would be spurned alike by the good men of all parties.

The Grand Army made him its representative, and he shirked no responsibility. His action in this matter is indicative of the man. Earnest, conscientious and scrupulously exact, he stands out in strong contrast with the man who assails him.

Col. McGowan, our candidate for Senator, spent several days in town last week and made a very favorable impression. We think he left equally impressed with our people. He makes friends wherever he goes.

OUR CANDIDATE FOR SENATOR.

Gen. Theodore McGowan, the gentleman whom the Conference placed in nomination for State Senator of this district, is one of the most prominent and accomplished citizens of Franklin county.

After finishing his education, the necessities of his situation compelled him to engage in a pursuit that would be immediately remunerative, and he accepted a Professorship in an Institution in South Carolina, deferring, for the time, his cherished purpose of reading law.

At the close of the war he came home, and having, in the most praiseworthy manner, discharged the self-imposed obligations which hindered his acquisition of the chosen profession, he entered with zeal into the study of the law.

We accept the nomination in good faith readily, although our first choice would have been the distinguished and excellent gentleman proposed by our own county.

In conceding the candidate to Franklin, we do so in the hope that our populous and intelligent neighbor will prove himself true to her well-earned reputation, and will give a telling majority for her gallant son.

Believing that he will be an honest and honorable public servant, a credit to our district and to the Commonwealth, we call earnestly upon the voters of Huntingdon county to give General Theodore McGowan a hearty and active support.

A SIGNIFICANT QUESTION.

By what authority am I asked to support the fusion ticket?

This question was put by one Democrat to another last week, and it led to a colloquy which resulted in convincing both that there was no authority to authorize such a demand upon Democrats.

The Democratic Convention was not called to nominate a fusion ticket. It did not nominate such a ticket. It nominated one Assemblyman, and a Sheriff, and said nothing about the remaining candidates.

It certainly did not pass any resolution recommending Democrats to support the Guss ticket, and it did not authorize the County Committee to do so. The Guss Convention didn't even recommend their squad to support Democrats in return for the help they want from us.

ANOTHER SHOT FROM "AN OLD DEMOCRAT."

BARRE TOWNSHIP, Oct. 12, 1874. EDITOR OF THE JOURNAL.—Dear Sir:—While in Huntingdon attending the Fair last week, I heard a number of objections urged against the position assumed by me in the last issue of the JOURNAL, and I might say here that I was highly flattered by the numerous approvals that were uttered in my hearing.

My object though in writing now is to answer one of the principal objections I heard used against my position. It is urged that my asking the Democrats in a body to vote for members of the Legislature in favor of the re-election of Hon. John Scott to the United States Senate, will do as much toward the demoralization of the Democratic party as fusion with the Woods men.

A good Woods man heretofore said to me the other day: "Last fall I supported the Dunn ticket—it being advocated by the Huntingdon Globe as the only true, reliable and Republican ticket in the county, composed of entirely original Republicans—"

Mr. M. said Guss, Woods & Co. would never draw him into the Democratic party—that he was a Republican, and such he intended to remain—that he had stood and swallowed Guss and Woods just as long as he intended. But such only the sentiment of a very great many of those who were hitherto acting with the Woods faction.

It appears to me that the Democrats who subscribe to this fusion business have lost all manhood. They are willing to give everything to their allies because they have the assurance to ask it. They are willing to vote for a ticket in the making of which they were not consulted in the least. Who has ever heard of such a fusion before?

THE DEMOCRATIC MEETING.

A call was posted for a Democratic meeting, in the Court House, on Friday evening last. Mr. Stenger, the Democratic candidate for Congress, "and others," were announced to address it.

Now it seems to me that it matters very little, judging from the general expression of the Republican press throughout the State, whether Guyer and Robinson are elected or not—that is, so far as their votes will be needed to secure Mr. Scott's re-election.

THE REPUBLIC, the new daily paper just issued by the New York Republican Newspaper Association, has found its way to our table. It is of the same size of the New York World and contains all the telegraphic and general news of the day.

A WOODS MAN SPEAKS.

MR. EDITOR:—As you know, heretofore, I have been what is called a "Woods man," and have acted with that wing of the party.

Now these same men, Guss, Woods & Co., are getting up a fusion ticket with the Democracy. It is true, the Globe only publishes the Woods part of the fusion, but when the tickets are stricken off the game of deception will then be fully developed.

Just as the Patriot says, M'Callless and Beath both started out in Philadelphia as apprentices in machine shops, and both went into the army during the war.

THE DIFFERENCE.

Just as the Patriot says, M'Callless and Beath both started out in Philadelphia as apprentices in machine shops, and both went into the army during the war. So far, so good.

Had all the officers of the army assumed M'Callless' 'post of honor' at that time, the independence of the Southern Confederacy would have been achieved.

The Monitor borrows a sound maxim on which to base an editorial two weeks ago: "In Union there is Strength," but like all other maxims, unless it has a proper application, it becomes a laughable absurdity.
