The workmen in our mines and mills and furnaces are the chief ionsumers of domestic goods, and it is be-cause they are unemployed and unable to buy that our woolen and cotton factories have re-luced time of work, cut down wages, and itopped production. So with more inmates, and as well cared for. So their business education, continues year by much for Woods and Gussite rule. Tax-pay-ers, watch it. And again, for Guss, who has had more experience in libel suits than any other man in the State, to state that the truth nized as the most thorough and complete of annot be given in evidence by any officer or any in existence, has recently been so devel-
