growth. Daily life should add to the daily growth in the knowledge of everything about us that ministers to our comfort or profit. Too much practical, technical and critical knowledge of the habits, growth, natural history and functions of plants cannot be obtained by the man whose prosperity is dependent upon successful production. These objects should be as well known as the alphabet—as easily read as the different stages of growth and their condition as surely interpreted.—Moore's Rural New Yorker. Wash for Fences, &c. The following is a most excellent, cheap and durable wash for wooden fences and buildings. It owes its durability chiefly to the white vitrol which hardens and fixes the wash : Take a barrel and slack a bushel of fresh- ly burned lime in it, by covering the lime with boiling water. After it is slacked, add cold water enough to bring it to the consistency of good white wash. Then dissolve in water, and add one pound of white vitrol (sulphate of zine), and one quart of fine salt. To give this wash a cream color, add one-half pound of ochre (in powder). To give it a fawn color, add a pound of yellow ochre, and one-fourth of a pound of Indian red. To make the wash a handsome gray stone color, add one-half a pound of French bue, and one-fourth pound of Indian red; a frab will be made by adding one-half a pound of burnt sienna, and one fourth pound of Venetian red. For brick or stone, instead of one bushel	where most needed, and in this respect all other piances faik. The construction of the WREST PLANK, into which the tuning Pins are inserted, is such that it is impossible for the pins to come lossened, or the Wrest Plank itself to split, as is too often the cases in other Piano-Portes. The Extraordinary Evenness throughout the scale, the excellent Singing Quali- ity, the LENGTH AND PURITY OF VIBRATION, all go to prove what we claim, vis : that the ARION PLANO-FORTE Is the Best Instrument Manufactured. ALSO ESTEYS COTTAGE ORGANS,	receive a liberal compensation. These periodicals constitute a wonderful mis- cellany of modern thought, research, and criticism. The cream of all European books worth review- ing is found here, and they treat of the leading wene who have special knowledge of the matters treated. The American Publishers urge apon all intelligent readers in this country a liberal sup- port of the Reprints which they have so long and so cheaply furnished, feeling sure that no expen- diture for literary matter will yield so rich a re- turn as that required for a subscription to these the LEADING PERIODICALS OF GREAT BRITAIN. growth. Daily life should add to the daily growth in the knowledge of everything about us that ministers to our comfort or profit. Too much practical, technical and critical knowledge of the habits, growth, natural history and functions of plants cannot be obtained by the man whose prosperity is dependent upon successful production. These objects should be as well known as the alphabet—as easily read as the different stages of growth and their condition as surely interpreted.—Moore's Rural New Yorker. Wash for Fences, &c. The following is a most excellent, cheap and durable wash for wooden fences and buildings. It owes its durability chiefly to the white vitrol which hardens and fixes the wash : Take a barrel and slack a bushel of fresh- ly burned lime in it, by covering the lime with boiling water. To give this wash a cream color, add one-half pound of ochre (in powder). To give it is slacked, add cold water enough to bring it to the consistency of good white wash. Then dissolve in water, and add one pound of white vitrol (sulphate of zine), and one quart of fine salt. To give this wash a cream color, add one-half pound of ochre (in powder). To give it a fawn color, add a pound of yellow ochre, and one-fourth of a pound of Indian red. To make the wash a handsome gray stone color, add one-half a pound of French biae, and one-fourth pound of Indian red; a trab will be made by adding one-half a pound of burnt sienna, and one fourth pound of Venetian red. Tor brick or stone, instead of one bushel of lime, use half a bushel of hydraulic ce- ment.— <i>Practical Farmer</i> . A neighbor of mine, says a correspond- ent, has an inclosure of about six feet quare in the clear, and six feet high.— The walls are formed of old refuss timbers thrown closely together, with no regard to form or comeliness. The roof is made of hemlock boards. The entire cost of this building did not exceed five dollars, and practically considered, it is a success ; not ambitious of containing thirty-five loads of ice, but simply five loads. Ten years t	whore most needed, and in this respect all other isances fail. The construction of the WREST PLANK, into which the tuning Pins are inserted, is such that it is impossible for the pins to come loosened, or the wrest Plank itself to split, as is too often the case in other Plano-Portes. The Extraordinary Evenness throughout the scale, the excellent Singing Quali- ity, the LENGTH AND PURITY OF VIBRATION, all go to prove what we claim, vis : that the ARION PLANO-FORTE Is the Best Instrument Manufactured. ALSO ESTEXS COTTAGE ORGANS, WITH THE VOX JUBILANT AND VOX JUBILANT AND	receive a liberal compensation. These objects should be as well known as the alphabet—as easily read as the different stages of growth and their condition as surely interpreted.— <i>Moore's Rural New Yorker</i> . Wash for Fences, 400. The following is a most excellent, cheap and durable wash for wooden fences and buildings. It owes its durability chiefly to the white vitrol which hardens and fixes the wash : Take a barrel and slack a bushel of fresh-ty burned lime in it, by covering the lime with boiling water. After it is slacked, add cold water enough to bring it to the consistency of good white wiss. Then dissolve in water, and add one-half pound of chere (in powder). To give this wash a cream color, add one-half pound of fundian red; a fawn color, add a pound of French Sice, and one-fourth of a pound of Indian red; a faw will be made by adding one-half a found of French Sice, and one-fourth pound of Indian red; a faw will be made by adding one-half a found of Venetian red. To make the wash a handsome gray store color, add one-half a pound of function to for the sound of while will be made by adding one-half a found of Venetian red. To brick or stone, instead of one bushel of lime, us half a bushel of hydraulic coment. <i>A neighbor</i> of mine, says a correspondent of lime, us half a bushel of nod any sing to the object or store in smale of homored a draft will be made by adding one-half a found of Venetian red. A neighbor of mine, says a corresponder of lime, use half a bushel of nod a subter of how a sing to the object or store in smale of homored boards. The notic cost of this building did not exceed five dollars, and portacically considered, it is a succes ; not anabitious of containing thirty-five loads of ice, and t	where most needed, and in this respect all other piances fail. The construction of the WREST PLANE, into which the taming Pins are inserted, is such that it is impossible for the pins are inserted, is such that it is impossible for the pins are inserted. Is such that it is three Plano-Portes. The Extraordinary Evenness throughout the scale, the excellent Singing Quali- ity, the LENGTH AND PURITY OF VIBRATION, all go to prove what we alaim, vis : that the ARION PIANO-FORTE Is the Best Instrument Manufactured. ALSO EXAMPLES COTTAGE ORGANS, WITH THE VOX JUBILANT AND VOX JUBILANT AND VOX HUMANA. THE NE PLUS ULTRA OF R E E D O R G A N S, universally scknowledged to be the BEBT Organ made for Sunday Schoola, Churches, Parlors and Lodges. Having more power, with a sweeter tone, than any other Organs is the arket netwithstanding to riber organ in the market netwith a the market Sunday Schoola, Churches, Parlors and Lodges. The see periodicells constitute a wonderful min- cellary of modern thought, research, and criticium. The cream of all European books worth review- ing is found here, and they treat of the leading wenn who have special knowledge of the matters treated. The American Publishers urge upon all intelligent readters in this country a liberal sup- port of the Reprints which they have so long and so cheaply furnished, feoling sure that no expen- diture for literary matter will yield so rick a re- turn as that required for a subscription to those the LEADING PERIODICALS OF GREAT BRITAIN. TERMS. About one-third the price of the originals. For any one Review	Committee.—Prof. Charles F. Horn, Prof. Wm. Moran, and H. D. Herdy, D. D., Hon. Z. Long, President. St. Gair, Fu, Dec. 6, 1873. Massas. Barry & Plotts—Gents: I have received the Optan sent by your firm to me, and lad it examined. It gives anyle settification. JOHN SINET. Mahaney City, Pat., Oct. 16, 1873. The Barry & Plotts celebrated Golden Tongue Par- lor Organ is by far the bar Parlor Organ in two. I have carefully examined it, and find its tone, workmanhly and durability to be the bast I ever saw, and I can with port organ. PROP. O. U. UNGEL: The Barry & Plotts celebrated Golden Tongue Par- lor Organ is by far the bar Parlo Organ in the I. Marce and durability to be the bast I ever saw, and I can with port organ. PROP. O. U. UNGEL: The Barry & Plotts Corgan, for six months past, I thought before recommending it, to give it a fair, square trial, and an happy to testify that it surpassed all that has been aid or advertised about the severet and hest tone the dura around here. I an perforely askeded with it. You may public this if you see sit, a any yorgan can be tried by any one whaing to do so, is proof of what I say. Late of the Tumaqua Churter, now al New Beithklern, 74: . The transmist that are winning for themselves a good reput- tion far and view. The actors goale can be releved and best toned the dura around here. I an perforely askeded with it. You may public this if you any one whating to the measure and best to far and the.
