There being NO HOLES to thread either above in the Should and the should be above to be should be above in the Should be above to be a markable ences including froman limbs chronic then The following is a partial programme of the ... 416,722 gent, in that village, who came to church Same date last year ... exercises : with boiled cabbage in his pocket and who ate reacce. Inere peng NO HOLES to thread either above or in the Shuttle. The Shuttle requires no threading, being ready to work as soon as the Bobbin is placed in it. If the Machine accidently turns backward, it does no harm and breaks no threads or needle. It runs lightly and easily, requiring very little eutlay of atrongth, and sewing with great speed on any material thereby admitting of its use by many in delicate health, who have heretofore been nable to use Sewing Machines. The tensions are easily, sevenly and perfectly adjusted, the under tension being self-regulating, and no threading to required in the shuttle. The under thread is drawn from a short deep hobbin, giving a perfectly even tension, never breaking the thread, making the Lock-Stitck the strongest and best. BUNS THE LIGHTEST OF ANY SHUTTLE MA.
