not that labor is less expensive in those States, but it is that for a quarter of a cen- tury they have had no cause to apply ma- nure. Again, their land is smooth, clear of stones, etc., and easily tilled. The whole of your question is answered in a few words, viz :"No business will prosper that is not cared for by the owner of it." "He who by the plow would thrive him- self must either hold or drive." In other words, no machine, even down to a labor- ing man void of brains, can be operated successfully without a capable engineer <i>Moore's Rural New Yorker.</i> It is well to put off canning tomatoes as long as you can; certainly till the heat of the summer is passed. Anything will do to put them up in, glass, tin, or stone They should be first scalded so as to peal easily, then cut or drained in a sieve or colander and allowed to boil a very few minutes, 4 or 5 at most, if they are per- fectly ripe, then canned and scaled up tight. If they remain too long over the fire the seeds will impart a bitter taste to the vegetable. Of course all hard or de- cayed portions should be removed. As soon as the can is scaled, stand it on its head till cold and give the screw a last turn be- fore putting it away. MARNESS CHAFING Harness that are much used generally become rough on the inside surface, particularly at the edges, with a collection of moisture, pers- piration, dust and dandruff, which, if nor removed, may very soon roughen up and wear off the hair and chafe the skin, making it very soon roughen up and wear off the hair and chafe the skin, making it very soon roughen up and wear off the hair and chafe the skin, making it very soon roughen up and wear off the hair and chafe the skin, making it very soon coughen the skin and wear off the hair and chafe the skin and wear off a freeh weard and scale and and wea	 these Bitters have no equal. Such diseases are caused by Vitiated Blood. Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Goldbeaters and Miners, as they advance in life, are subject to paralysis of the bowels. To guard against this, take a dose of Walker's Vinegar Bitters cecasionally. For Skin Diseases, Eruptions, Tetter, Salt-Rheum Blotches, Spots, Pimples, Pustules, Boils, Carbunelse, Ring worms, Scald-head, sore Eyes, Erysipe-Itch, Scrufs, Discolorations of the skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. Fin, Tape, and other Worms, lurking in the system of se many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelminitics will free the system from worms like these Bitters. For Female Complaints, in young or old, married or infuence that improvement is soon perceptible. Cleanse the Vitiated Blood whenever you findits mpurities bursting through the skin in Pimples, Eruptions, er Sores; cleanse it when you findit obstrated and sluggish in the veins; cleanse it when it follow.
