

Farm and Household.

"Does Farming Pay?"

Most unquestionably it does. Good systematic farming will pay from ten to fifteen per cent. on the investment.

I never knew of a single instance where the farmer, who attended to his business, did not get independent so far as this world's goods are concerned, and you scarcely say this of any other class.

His children do not grow up in idleness and ignorance, nor are they surrounded with as many evils and temptations, as those living in the cities.

His daughters have their pianos or organs, magazines, periodicals, etc. His sons no longer wear the homespun and either ride or drive their own fat horses as independently as a king, instead of paying one dollar an hour as the city chap pays for a livery rig.

Just quit your grumbling and go to work. Fix up your fences. Hang up your gates. Keep your implements dry; clean out your fence corners; take better care of your stock, and have everything intended for sale in fine condition, and then it will bring the best prices.

Turn over a new leaf and you will find no room, time or reason for grumbling. Be a model farmer, and you will find that farming pays in more ways than one.—A. E., in Columbus Gazette.

Sulphur for Fowls.

There is no remedy so assistant so easily and cheaply obtained, so harmless to the fowls, or so satisfactory in its results as sulphur. It being in the system of animals to a small degree, there is a greater affinity for it than there otherwise would be.

It can be administered to the fowls by having it in a small box, so that they can help themselves, or by mixing it with their food once a week, or as often as there are indications of vermin.

Penetrating as it does, to every part of the system, it acts in a similar manner. By purifying the blood they remove the cause, and by removing away the effects of the inflammation (the tubercular deposit) the affected parts receive health, and a permanent cure is effected.

Dr. Walker's California Vinegar Bitters act on all these cases in a similar manner. By purifying the blood they remove the cause, and by removing away the effects of the inflammation (the tubercular deposit) the affected parts receive health, and a permanent cure is effected.

Men who enjoy good health, let them use Vinegar Bitters as a medicine, and avoid the use of alcoholic stimulants in every form.

Grateful Thousands proclaim Vinegar Bitters the most wonderful invigorant that ever sustained the sinking system.

No person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Billions, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera.

In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walker's Vinegar Bitters, which will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying its fluids with Vinegar Bitters. No epidemic can hold a list thus fore-armed.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters and Miners, as they advance in life, are subject to paralysis of the bowels. To guard against this, take a dose of Walker's Vinegar Bitters occasionally.

Decomposition of Eggs. According to Mr. William Thompson, of Manchester, the decomposition of eggs may be brought about by any one of three different agents. The first, which he terms "putrid cell," is generated from the yolk, this swelling and absorbing or mixing entirely with the white, and ending with a true putrefaction.

VINEGAR BITTERS.

PURELY VEGETABLE.

FREE FROM ALCOHOL.

Dr. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol.

After repeated examinations, having been tested on all kinds of work in gauge to show its purity and its effect on the system, it is found to be a safe and reliable remedy, and is recommended by the gold-miners of the gold-mining States, and by the medical profession of the United States.
