Philadelphia Cattle Market.

PHILADELPHIA, April 5 .- 1 P. M .- Beef Cattle market for the past month was gain the prevail-ing feature to-day, with but little probability of any very early change for the better. The con-sumptive inquiry for beef is of a very restricted character, the effects of which are seen in the character, the effects of which are seen in the wholesale market in the large falling off in the demand from the butchers, but holders are obliged to demand high prices or be content to make no money, the recent enhancement or values throughout the West rendering this course necessary. For the medium and better grades there was some little demand this morning at form quotations, but other kinds were decidedly inactive. We quote choice at 7½@So, the latter an extreme price, and common to good at 4@74c. Receipts 2,000 head.
