Why does the "Domestic" Sewing Machine continue to have a ready sale while other machines are a drag on the market in these times of stagnation and panic? The answer is just here: Because all experienced sewing machine in the seven as a sufficient party pears and state as a semicontent of the rank and file of the Republican party of ituntingdon county, I regret that no measures were adopted at the recent meetings of the County of 1875-6, we cannot afford to waste our political strength in local and personal quarrels. Do we want to see Hunting-don county and all the officers in: t pass into the hands of the Democratic party next fall? If so, then let us keep up this strife in the Republican ranks. Do we want to regain our ancient prestige, and redeem and retain our character as a Republican county? Then let us make an honest effort units all members of the party. Let bygones the beloaders in either wings of the party and all the officers in: the pass of the party. Let bygones and let a spirit of forbearance and conciliation prevail.

In my judgment, there is not much use in those who assume to be leaders in either wings of the maching to a range by themselves personally, or through Committees among and of the county, or of all whe chose to attend it;—by Committee appointed at this meeting, it the nominations to be made for County officers next fall to

LETTER FROM CLAY TOWNSHIP. CLAY TOWNSHIP, April 22, 1875. Ma. Rotton Dear Sir: As I seldom trouble

Guss, who has set up such a howl about the amount of costs he entailed, by his licentious dence and "Brazen Errontery" to ask the Legislature to make him an appropriation as a premium for acting the beast, but now asks the Republicans of Huntingdon county to guarantee him damages as a condition prece-dent to his coming back into the party! Great heavens! Truly we have fallen upon strange times! I think if the Legislature had responded to his request by appropriating about ten feet of rope and quietly had him suspended by it, it would have been a becom-

suspended by it, it would have been a becoming and appropriate reward for his conduct, and the Republican party would not now be disgraced by having a creature of this kind hanging around on the ragged edges.

Any other man in the county, in his situation, would have sneaked off, sheep dog like, many a day ago, and thanked his stars for the chance, instead of hanging around here disgracing the county with his smut machine.—
No other county in the United States would have tolerated one half of the outrageous mahave tolerated one half of the outrageous ma would have done the little business anywher lse for him. This, after all, is the only ren edy where the law is not equal, to the emer-gency. It would have been well for the morals and honor of Huntingdon county if this spe-cies of criminal equity had been brought into requisition twenty months ago. Please think of it. He has been constantly, for two years, slandering and abusing the best men in the slandering and abusing the best men community—men whose word has ever been better than his oath, and we have the first time to hear him utter a single word of cen-sure upon any of the meanest acts known to sure upon any of the meanest acts known to our statute books. He is the moral vulture that feeds upon the pure and the good and quietly passes the vile and wicked by. And this is the man we must agree to recognize before we can have union and harmony is the party! Pshaw! I will retire into a minority as long as the Israelites tarried in the wilder-ness, before I will consent to do anything of the kind. I am extremely anxious for a union with the Republicans who have been misled by this creature but, thank you, on no such conditions! I have too much menliness for that. And I do not anticipate that the rank

on the mass of the average votes of the respective wings for the last three years. Suppose, for in-stance, the average vote should stand as one to three, and the number of persons to be nominated in the county should be twelve, which I believe it is, then one wing would get three and the other vises of the nominated.

Cephue, but who can and does the most and best service to gain a triumphant victory for the whole Republican party of Huntingdon county, will do nore to heal the divisions of the past than conference or agreements between Committee men.

This will be the result, if the split in the Republican party is kept up. Who will dare to tent it open, when the people wish it healed up? Do you doubt this—let a public meeting be held, and hear what the people have to say about it.
