GOVERNOR : MAJ. GEN. JOHN F. HARTRANFT. STATE TREASURER: HENRY RAWLE, of Erie.

AN INSULT.

We have two remarks to make as to the action of the State Convention in admitting the bolters delegates from this county. The first is that their admission, in the face of their open opposition last year | to Gen. Beath on the State ticket, and to Col. McGowan for State Senator, to say nothing of the county ticket, was an insult gests a plan for reuniting the party.

The Journal (Scott) after recognizing the propriety of Franklin county Republicans manifesting speak very encouragingly of our Centennala.—

The Republicans of this county will find their remedy for wrongs inside the organization, notwithstanding the example of Mackey and Don, and notwithstanding even the encouragement given to bolters by this recognition of them by the State Convertion. Even of them by the State Convertion. Even of the state of the state of them by the State Convertion. Even of the state o of them by the State Convention. Even the idea, very prevalent here, that their their state of the scotties could have named; and ble referee the Scotties could have named; and yet, feeling if called into the jury box in this case, admission was part of the consideration we could testify that we are entirely unbiassed i they got for their opposition last fall, is not enough to induce Huntingdon County Republicans to magnify the personal and local wrongs above the interests of the whole party.

They want good Northern men and their capital all over the South, and we believe that all over the South, and we believe that the south and their capital all over the South, and we believe that the south and the south better opportunities present themselves for investment in that section than any other portion of the States or Territories East of the Rocky Mountains.

The effect in many cases of debility, loss of appetite, and general prostration, of an efficient Salt of Iron combined with our valuable Nerve, is most happy. It augments the appetite, raises the pulse, takes of muscular flabbiness, removes the pallor of debility, and gives a florid vigor to the Rocky Mountains.

I suspect there is only too much truth in this. They say that they could work in entire harmony with the negroes if it were not for the Scal-awags and carpet-baggers. They complain bitterly of the mis-representations which are circulated in the North. They say they have a tendency to irritate their people very much; but it is only at the idea of the injustice done them. They deny that there is any disposition to resort to violence, whatever. They contend that the Southern man has enough to do now to get bread, and in fact has enough to do now to get bread, and in fact they only want to be left alone. They insist that it would be a thousand times better for them if they could dispense with politics and be permitted to give their entire attention to producing food. Bread is what the Southern men wants now more than political rights. They admit that our conplaint against their sending their army leaders would be to talk of another rebellion; and they feel that that they could not trust the politicians who brought all their troubles upon them. They say if the North doubts their loyalty to the ol-

travel on every train. This takes money and money can only be procared, in this region, by hard labor. It seems to me that negresses are, on an average, more intelligent than the masculines. At Goldsboro we took on a number of very large fine looking men—the flower, I should think of this region—who had been in attendance upon the Charlottsville Centennial. The result of this celebration will be very healthy. The parties with whom I conversed complained bitterly that the Northern people did not attend this celebration.—
