THE MONEY ORDER SYSTEM.—It is not generally known that the domestic Money Order branch of the Post Office Department has heretofore been conducted at a loss of a hundred thousand dollars a year, and that a new law increasing the rates was passed by Congress at its last session to go into effect on the 1st of July. Full seven-eighths of the money orders issued are for sums under ten dollars, which at present costs only five cents, while it costs the Government seven cents and a half to issue them. Under the new law the rates will be ten cents for any sum up to fifteen dollars; over fifteen dollars and not exceeding thirty dollars, fifteen cents; over thirty dollars and not exceeding fifty dollars, twenty cents; over fifty dollars and not exceeding one hundred dollars, twenty-five cents. This increase of rates, it is estimated, will increase the revenue in the same ratio as it has heretofore decreased, without inflicting hardship on those using this branch of the service.—Arrangements are also nearly completed for the establishment of a money order system between the United States and Canada, the necessary inspection having been made by the postal authorities. The movement will supply a want which has long felt in both countries.

WHARTON & CHANEY have a large lot of WOODEN PUMPS, which they are selling at greatly reduced prices. [21]

FOURTH OF JULY CELEBRATION.—At last Huntington is making arrangements for a grand celebration of the Fourth of July. All the various civic organizations, the Fire Department, and we presume, the religious societies will unite and we will have one of the grandest old celebrations ever dreamed of in the quiet old town. Next week we expect to be able to give an outline of the principal features that will enter into the programme.

If you are troubled with Dyspepsia, pain in the region of the Heart, Liver or Kidneys, or any other painful symptoms, do not wait to confirm the disease, but break it up at once by using Dr. Bull's Vegetable Pills. You will be cured, however—if he wishes to keep on the safe side of the ledger, consult his charge on the same principal as the head of any business establishment. People who are getting up a ball would feel very much of a present of a pair of gloves from any merchant on that account, yet asking and getting a pair of gloves from any merchant is a similar demand. The editor of the Marlboro (Mass.) Journal states the case very plainly when he informs his reader that, "we now adopt the plan of charging our regular reading notice for the all editorial announcements of entertainments to which an admission fee is affixed. We make no exception to this rule. In the case of a ball, we are freely and gladly invited to all entertainments after they have become matters of fact. It is only the preliminary work, looking to the drawing of an increased patronage from the public, for which we expect compensation."

SPONGING ON NEWSPAPERS.—The "Voice and Echo" puts the case very truthfully when it says: Every man thinks a newspaper fair game. If a society or anybody of men get up a concert or a ball, or other form of entertainment, the object of which is to put money in their pockets, or if the proceeds are to be devoted to charitable purposes, or to their own glorification, they become very indignant if the proprietors of a newspaper do not assist them by a series of gratuitous advertisements for several weeks before the event takes place. These gentlemen should remember that literary men, in this practical age, work for money as well as for fame—principally the former, however—if he wishes to keep on the safe side of the ledger, consult his charge on the same principal as the head of any business establishment. People who are getting up a ball would feel very much of a present of a pair of gloves from any merchant on that account, yet asking and getting a pair of gloves from any merchant is a similar demand.
