The excavations for the foundation was commenced on the 20th of May, 1875, and the building will be ready to receive the goods from the Centennial Exhibition at its close.

No investment for people of small means was ever offered equalling the Bonds of the Industrial Exhibition Co. The bonds are secured by a mortgage which makes the principal safe, and eminently secure, and in addition to which each bond-holder participates four times a year in the allotment of premiums above named.

The difference between those bonds and a lottery ticket, is, in a lottery the holder must lose his money or draw a price, while the beblee of an Industrial Exhibition Bond, cannot lose his investment, but must have returned to him, the principal and a small rate of interest added, and in addition, has an apportunity to draw a premium ranging from \$50 to \$100,000.

The Board of Directors and the Trustees of the mortgage, are among he most eminent of the business men of New York, and is of itself a guarantee that the Bonds are a safe and desirable investment. or Cass township, deceased.
