Twenty Thousand Leaven's under the Seas. By JULES VERNE.

This wonderful book is descriptive of a coyage of 20 000 leagues UNDER, the incluse of THE SEA! No one committed with Verma's possible and dramatic style need he hold that this his greatest book) is most intensely interesting. It have bare the mysteries of the mighty deep—its control of the mighty deep—its co hidrons and awful creatures who dwell therei hidome and awful creatures who dwell therein; the beautiful creat curve; its treasures of gold, silver and joveds lost in Spanish ships of ables days. Yet so quaintly, and with such an air of candor, is the stery told, that you can hardly believe that you are not reading a transcript from a ship's log-book.
