Business men should remember that now is just the time to make a specialty of advertising.

When money is scarce or times dull, people are more on the alert for bargains, and watch the advertising columns more closely than usual.

How beautiful it is, when the silver moon shines on the sleeping earth, and the gentle breezes, rich as angels' breath, float like the incense of roses upon the peaceful night—so to see an old Norway rat dart through a mucky gutter, followed by a nimble-footed terrier in hot pursuit.

Attea, on Thursday evening, at Camp, several handsome presents were made to the young ladies who visited on the table.

At table No. 5 Miss Walker received a very handsome bible.

The presentation speech was made by Rev. M. K. Foster, and the reception acknowledged on the part of the young lady by Rev. E. E. Wilson.

It was a very pleasant surprise.

Olive Logan writes from Long Branch: A song which Madame La Mode is at present much engaged in singing:

"If your face is pretty, show it."

Dresses are growing shorter and shorter in front, to that extent that it is almost impossible to know what sort of dress what sort of nose a lady wears.

I cannot speak enthusiastically of this fashion. A woman's charms are heightened by their partial concealment, and not their full exposure, and the poet who sang of a lady, whose name I forget:

"Her face beneath her petticoat,"

Like little mice stole in and out—"

Or words there or thereabouts—would perhaps have considered the ladies feet regaled with grown rats if he had a square look at them.

WEAKLY AND SICKLY PERSONS.

Many persons who are weak and sickly at this season of the year are at a loss to know what will restore their health.

It is lately been brought to our attention by experience that the use of Speer's Port Grape Wine when taken in moderate doses is one of the best restoratives known.

Physicians, clergymen and temperance advocates should encourage the use of the Port Grape Wine, and thus aid the cause of temperance and moderation.

It is especially recommended to families for its purity, exquisite flavor and healthy properties.

Medical men certify to its valuable medicinal powers. Mr. Speer has been for years engaged in preparing and perfecting this wine, and it requires a four years' process before it is fit for market.—N. Y. Baptist.

Our druggists have procured some direct from the vineyard. It is excellent for females to use, especially for those with nursing infants.

A FACT.—That T. W. Montgomery sells goods very low. His stock consists of men and boys made up clothing, shirts (various kinds), paper collars, cuffs, shirts, frose, under clothing, overalls, neckties, bows, hats, satchels, trunks, etc.

I have a nice line of samples from which you can select and have a suit made to order.

Good fit. I sell for cash. Quick sales and small profits three doors east of the depot.

The Pittsburgh papers relate the trouble that the Auditors of school accounts in a township in Allegheny county got into by trying to be compelled to pay a fine of \$20 each, and the costs.

They had failed to comply with an act of the Legislature passed April 24, 1874, which requires the Auditors of the various townships and boroughs of the State to publish an annual statement of the Road Commissioners, Supervisors, Overseers of the Poor, and School Directors, and to designate a day on which to audit the borough and township accounts.

In case of a failure to comply, any tax-payer of the township or borough may institute proceedings against the Auditors in the name of the School Directors, and the penalty is fixed at twenty dollars and costs.

A number of township officers in Huntingdon county are running a great risk in this business by neglecting to comply with the act. A word to the wise, etc.

Hurray for hurray! Guss and the Democrats have fused, and expect to elect their ticket; and Guss, Woods, Orland and every body else is now going, and will continue to go to the clothing store three doors east of the depot, where they find the best and cheapest stock of men and boys made up clothing, hats, caps, shirts, hose, overalls, trunks, satchels, etc.

A nice line of samples, from which to select and have a suit made to order. Good fitting suits. I sell for cash and sell goods low.

THE STATE AGRICULTURAL FAIR.

The Pennsylvania State Agricultural Society has made preparation for their next exhibition at Lancaster, commencing Monday noon, September 27, and to close Friday October 1, 1875.

The display of upon this occasion is expected to be of the first character, applicants for space having already been made for several choice herds of live stock, fine horses and improved sheep.

The fair farming region around Lancaster will present the productions of its soil in great profusion, while the industrial novelties of the populous and ingenious communities may be expected to keep up the high reputation of its manufactures, and to crown all, a healthy, prosperous and cultivated throng may be expected to fill the beautiful and ample grounds, which, we may state here are within a five minutes walk of the county court house.

"Where did you get that trunk?" "I got it three doors east of the depot." "Have they any more like it?" "Yes, plenty of them. They buy from the manufacturers and they sell for cash." Just received an invoice direct from the manufacturers. Come and examine our stock before purchasing. Three doors east of the depot.

In Memory of Warren K. McCabe.

BY J. W. WELCH.

Our hearts are filled with sorrow Since his spirit took its flight, And each cheerful gloomy morn'g But agonies a drear night.

While the ocean waves of sadness Sweep away each sunny beam, Sent from heaven's land of gladness, O'er death's unbroken stream.

As fond memory brings before us Scenes forever to be dear, When a well of darkness o'er us, In our loneliness, is cast;

On the sweet consoling promise Given by the Sacred Word, Now is almost risen from us, And his voice but faintly heard.

As we sit in silent anguish In our joy-deserted home, How our aching spirits languish For the bliss that we once knew;

Oh may God, the blessed Giver, Our poor drooping souls sustain, And beyond the swelling river, We shall greet you again.

SIXTY YEARS MARRIED.—Here is the

Johnston Tribune talks about a couple in Huntingdon:

In the village of Huntingdon there is a married couple who have jugged along together in the matrimonial harness for a period of sixty years.

Last Sunday they completed three-score years of married existence; and although the husband has not been in good health for some time past, it is still possible that they may yet have several returns of this anniversary.

Their names are John and Elizabeth Whitaker, and they are highly esteemed in Huntingdon.

Sixty years is a long time for two persons to journey as man and wife, and it would only take a string of about one hundred couples enjoying that period of married life, consecutively, to run back to Adam and Eve and the Garden of Eden.

Wouldn't it be nice if our first parents at the age of sixty, had had only one married couple to tell about their experiences, etc., and how many domestic broods they indulged in; and the latter, in sixty years, had taken to another newly-mated pair all the originals had confided to them—thus carrying the story along until the generation of Mr. and Mrs. Whitaker was reached?

In that case they could now regale the Huntingdon people with a veracious narrative of the apple business, and with the details of how it all came about. There was a great deal of laughing in the fruitful Garden, at the beginning, that we would like to be better posted upon, so if this arrangement had only been made, the whole story could have easily been transmitted. For instance, Eve might have been a little glibulous at the age of sixty, and would tell the recently married Mrs. Smith—

For we presume there were Smiths in those days—what a jolly good time she and old Ad. experienced during the honeymoon; and relate how the ugly Serpent came the dodge over her by appealing to that first-worst gift of woman—curiosity; and how she put her arm around her partner and called him "hubby"; then how the poor, weak individual—the same Adam that we all pattern after today—listened to the siren voice, kissed her on the cheek, and then—

And the Scripture says that the rest, then, again, Adam would call over at Neighbor Smith's—the young man had just got into matrimonial harness—and remark that Mrs. S. was an uncommon likely gal, but—and he would shake his head in a mysterious manner and whisper—look out, Smithy, my boy; don't you swallow any apples or eat peanuts or anything of that kind, if it is forbidden you! Try to one she'll try to persuade you to do it, but—see the fix I am in by listening to Eve! And young Smithy would declare that no woman could come in over him in that way; while he knew in his heart that if Molle would ask him to eat serpent and all, he would promptly obey her.

It is a funny conceit; but how well the domestic history of the two who roamed around all alone in those first days—before the young faces came to gladden their household—could have been handed down from one generation to another by means of mutual confidences between married people! But nothing of the kind happened; and all this space has been taken up in speculating upon what might have been, but wasn't.

Contagious diseases, such as horse ail, glander, etc., may be prevented by the use of Sheridan's Catarrh Cordons Powders. Persons traveling with horses should take notice of this.

COMPLIMENTARY.—A very pleasing incident occurred on the evening of the 4th inst., at table No. 5, "Unity Valley Association."

Miss Carrie E. Walker, of Alexandria, having charge of the table, the ladies and gentlemen upon whom she waited, having received so many attentions, thought it proper that she be presented with some testimonial of their appreciation of esteem and respect.—A very handsome Turkish Morocco bound Bible was selected as the most appropriate.—While all were seated at the table Miss W. was requested by one of the boarders to give them a rest of five minutes. Presiding Elder Foster was on hand, on behalf of the donors, and presented the Bible in a few witty, well spoken remarks, when he had finished, Reverend Wilson stepped to the front on the part of Miss W. and received it for her in a very neat remark, he complimented Miss W. as well as the donors, when he stated that "Whilst she had furnished them with the bread that perisheth, they in return had given her the bread of life." The affair will be a pleasant spot in the memory of all interested.

Table of financial quotations including U.S. 1881, 1882, and other securities.

Philadelphia Money Market.

Philadelphia, September 4.—There is a slight increase in the business demand for money to-day, but still stable. The movement of currency interiorward is expanding every day, and if it continues to expand for the next six or eight weeks, it may exhaust most of the surplus capital now lying idle and enable lenders to command higher rates for accommodations, but this contingency can hardly be relied on, and lenders have no faith in an active market, and much less in a stringency, and hence are reticent about all the money they can safely at the best rates they can get.

Call loans vary from 4 1/2 per cent, and first class paper calls at 4 1/2 to 7 per cent; the latter on the street. Most of the discounting at bank is done at the legal rate.

United States of New York 114 1/2, and advanced to 114 1/2, most of the sales being made at the latter.

Government bonds are quiet, and prices without notable change.

Stocks were very dull, and prices without much change.

Reading railroad sold at 50 1/2, and Pennsylvania at 50 1/2.

The rest of the market was quiet. Central transportation sold at 47, and Insurance Company of North America at 51.

Philadelphia Produce Market.

Philadelphia, September 4.—Cotton is quiet and less firm. Small sales at 14 1/2 for middling upland and 14 1/4 for New Orleans.

Green coffee is quiet, but this commodity can hardly be relied on, and lenders have no faith in an active market, and much less in a stringency, and hence are reticent about all the money they can safely at the best rates they can get.

The Iron Trade.

New York, September 4.—For Scotch pig-iron there is no improvement in the demand, orders still being for small lots for yard, but with the tone of the market abroad considered, holders are firm at current prices. In American pig-iron there still is an unsatisfactory condition of trade.

The demand on manufacturing account is not at all general, and the market is quiet. Sales are 100 tons of Eglinton, and 100 tons Caraboo on private terms.

Wrought scrap is strong in price with a fair inquiry; sales \$22.50 for No. 1, \$21.00 for No. 2, \$20.00 for No. 3, \$19.00 for No. 4, \$18.00 for No. 5, \$17.00 for No. 6, \$16.00 for No. 7, \$15.00 for No. 8, \$14.00 for No. 9, \$13.00 for No. 10, \$12.00 for No. 11, \$11.00 for No. 12, \$10.00 for No. 13, \$9.00 for No. 14, \$8.00 for No. 15, \$7.00 for No. 16, \$6.00 for No. 17, \$5.00 for No. 18, \$4.00 for No. 19, \$3.00 for No. 20.
