Karm und Kouschold. Dividing the Farm.

A writer says that for a farm of eighty to one hundred acres, upon which the usual rotation of clover, corn, oats and wheat is followed, and stock, chiefly cows, with a small flock of sheep, is kept to conpasture of twenty acres will be found sufficient. This should be divided into at were being fed off. The alteration would

More than forty years ago when it was found that prevention for the Asiatic cholera was easier than cure, the learned doctors of both hemispheres drew up a prescription which was published (for working people) in the New York Sun, and took the name of "The Sun Cholera Mixture." Our contemporary never lent its name to a better article. We have seen it in almost constant use for nearly two score years, and found it to be the best remedy for looseness of the bowels ever yet devised. It is to be commended for several reasons. It is not to be mixed with liquor, and therefore will not be used as an alcoholic beverage. Its ingredients are well-known among all common people and it will have no predudice to combat; each of the materials is in equal proportion to the other and it may sional skill; and the dose is so very small waist-coat pocket, and be always at hand.

WHAT I KNOW ABOUT VEGE-TINE. South Boston, May 9, 1870. Dear Sir-1 have had con EGETINE. For dyspepsia, VEGETINE. For dyspequia, dobility and impure blood, the YEGETINE is superior to muything which I have ever used. I commenced taking YEGETINE about the mildle of last winter, and, after using a few bottles, it entirely cured me of dyspegnia, and my blood never was in so good a condition as at the present time. It will afford me pleas-ure to give any further particulars relative to what I know of this good medicine to any one who will call or address me at my residence, 386 & thens street. Very respectfully.
