OUR PRESENT DISASTER arises from the stimulus given to over-production by the war, and after its close. In fiv years preceding 1873, 28,400 miles of railroad were built, at an expense of \$1,400,000, creating a demand for railroad iron, and all other manufactures and productions, the employment of thousands of men and the use of capi-tal until finally credit was exhausted, the building of railroads ceased, and thousands of men were thrown out of employment. Prosperity will never be restored until the finan-cial credit of the Government is restored and we get gradually back again to specie payments and make the legal tenders of the Government payable in gold and silver.

THE FREE TRADE POLICY, will be brought to a purely revenue standard if the Democratic party is restored to power.

ANOTHER GREAT QUESTION has arisen and entered into the contest. The right of every one to worship God according to the dictates of his own conscience is ingrained in the human mind not only in Re-publican America, but throughout the universal world, yet we think it unkind of any po-tentate or power, ontside of the United States to interfere with our institutions, which cannot be successfully maintained unless based on the intelligence of the people. We have established a system of public education in this country by which every child, of every faith, shall be educated at the public expense. We regard this as the corner-stone on which rests our political institutions, and therefore directly at issue, the Civil and Ecclesiastical, as represented by an organization, the head of which resides in the Vatican. The governments of Europe, desirous of elevating the condition of the masses, and in compliance with the popular demand, are endeavoring to institute a system of public education, in doing which they array themselves directly in opposition to that power. This system of instruction is denounced by the Vatican as a Godless institution, but so far as the Republican party is concerned, we take our stand and some papers, the owner can have it by on that issue, and will defend the Common calling on the undersigned, proving property School System of the country to the last, and School System of the country to the last, and forward man, possessing in an eminent deat all times.
