

more money in trading jack-knives and fishlines on rainy days than he does in hoeing potatoes and cutting grain in fair weather, give him a chance at the yardstick, and not have him around troubling the other boys who are handling horserakes and pitchforks, and the like employments. Again, if a boy is skilled with skinning small animals and stuffing small birds; if he practiced making pills of mud when he was a child, and extracted teeth from the jaws of dead horses with pincers when he got older ; if he read physiology while his brothers are deep in Robinson Crusoe, he will far more likely succeed with a lancet than with a scythe .- Phrenological Journal.

a manure fork in his hand. If he earn

Care of Horses. The London Horse Book says: All horses must not be fed in the same proportion, without regard to their ages, their constitution and their work, because the impropriety of such a practice is self-evident. Yet this is constantly done, and is the basis of disease of every kind. Never DOWN WITH PRICES. use bad hay on account of cheapness, because it brings on inflammation of the bowels and skin diseases. Chaff is better for old has just opened up a large and varied assortment horses than . hay, because they can chew BOOTS. and digest it better. When a horse is worked hard, its food should chiefly be ment and flesh-making material than any other kind of food; hay not much. Rack I have at all times an assortment of hay-because oats supply more nourishfeeding is wasteful. The better plan is to feed with chopped hay, because the food is not then thrown out, and is more easily chewed and digested. Sprinkle the hay with motor that has salt dissolved in it because it recommend all articles in my establishment. water that has salt dissolved in it, because it is pleasing to the animal's taste and more easily digested. A tablespoonful of salt guaranteed in all orders. in a bucket of water is sufficient.
