The campaign which closed with the election on the first Tuesday of November, election on the first Tuesday of November, demonstrated clearly that the Republican party in this county was in a most deplo-rable state of demoralization. The decress of the county Convention were not re-speeted, and men who claimed openly to be in favor of the ticket, secretly and treacherously struck it. through the blackest and basest of trickery,getting others, whom they misled and deceived, to do what they themselves disowned and to this moment disclaim. This conduct we have suffi ciently condemned, and we only refer to it now to show the honest Republicans. it now to show the honest Republicans that their only salvation, for the future, lies in establishing a thorough organization four hundred on a state ticket, yet it is extremely doubtful whether any local Re-publican candidate could carry the county ithent the avistance of the Demograt without the assistance of the Democrats. We are sorry to make this admission but so it is. The miserable factional strife which has existed for almost a decade has estimated will not exceed say \$80,000. Is this not enough of this tomfoolery? not to charac-terise it more harshly. Must this sort of thing still continue to go og? For the sake of Republicanism, and for the sake of sake of Republicanism, and for the sake of the reputation of our people abroad, we hope this matter will end here, and that all will resolve most heartily to support the Republican nominations placed before the the commissioners of the board of audits, and the board of health of the District of Columbia, to all of which I invite your attention.
