Sheep as Enrichers. In 1865 I had a field of ten acres that had been moved some ten years in succession without a particle of dressing put upon it; the grass had completely died out, and nothing was to be seen but white weed and yellow weed, or butter-cup and ox-eyed daisy. The soil was a clayey loam canting a little to the south and west, was in the smoothest possible condition, without a stump or stone, and bordering upon a stream of water. In the spring of the same year I put upon this field of ten acres forty one-year old sheep without lambs. These sheep kept everything down as smooth as a barn floor. The next year I put on the same number and kept them on until it was time to come to the barn. They were not taken from the field at any time during the season, neither did they have any grain of any kind; but were in splendid condition. They were grade

In the spring of 1867 I noticed that the field looked green the last of April and the first of May, so much that in consulting with my neighbors I was induced to keep off from it and let it come to grass for the scythe. The field in the meantime had been sowed over with a light dressing of plaster, about one bushel to the acre, and a small quantity of grass seed, timothy and red top. Nothing else has been done to the field in any shape up to the present

Now for the result. The first year after taking the sheep off I had the greatest yield of grass that I ever had from any of my fields under other treatment, and of the best quality, a mixture of timothy, red top, white clover and some grass that I cannot name. Hardly a head of white seed was seen on the field.

But what is the most remarkable to me and my neighbors is, that the field has continued to produce bountifully up to the present time, which is eight years since the sheep were taken off; and to-day (August 2d) the field is tented thick with bunches of the very best hay, averaging over one ton to the acre. I have since sold the field to one of my friends, and I asked him if he expected to get another crop from the field without dressing it again. His reply was: "Yes, I expect to get several more yet."— H. G. Abbott in Germantown Telegraph.

THE MEDICINE THAT CURES

## VEGETINE.

nd, Vegetine may be larry ended to the content of the age.

The Scrofula in the blood, Vegetine is an infallible day, and no person need suffer from tumors, ulcers, all diseases arising from impure blood, if Vegetine sed according to directions. There is not a case of fulls in existence that Vegetines will not cure, prod, however, the vital functions have not lost their er of action, all that may be said to the contrary not-bestanding. nding.

rink is pleasant to the taste, mild in its influence
olute in its action on discase, as the following un
aable evidence will show.

#### PAID NEARLY \$400.00!!

JANUARY 2, 1875. R. Stevens, Esq.:

lear Sir—When about six months old I was vaccinated, parties who were vaccinated from the same virus died in the humor. The humor spread over me to such an ent that I was rolled in bran to prevent me from atching my person. The disease finally settled in my d. I remained in this condition about twenty years, abled all the time with sores breaking in my head and charging corruption from my car, At this time a all kernel appeared on my neck, gradually increasing size until a tumor formed of such himmense size I could it by turning my eyes downward. All this time I staking various remedies for my blocd without any stantial benefit.

was taking various remedies for my bloed without any substantial benefit.

I then went to a prominent physician in Boston, who, during his treatment of six months, lanced the tumor eight times, which cost me nearly \$400. This left me with a rough, aggravated sore, without at all diminishing the size of the tumor, and in a sickly feeble condition. I consulted another physician in Natick, who, after considerable time, succeeded in healing the sore without reducing the size. At this point I commenced to use Vgg-ring, through the earnest persussion of a friend. After I had taken this medicine about one week I experienced wonderful sensations. My whole body seemed to be undergoing a radical change, until finally, the tumor broke and discharged frightful quantities. From this time it ducreased in size until the bunch disappeared, but my neck still bears the ngly scars of the sore and lance. I am now hearthy and strong and able to work every day. I will also mention that I have been an acute sufferer from inflammatory rheumatism ever since I can remember, until commencing the use of Vgogring, when almost immediately all rheumatic pains ceased. This statement I volunteer for the purpose of benefiting other suffering humanity, and you will confer a favor by giving it as much publicity as thought proper.

Very gratefully, O. M. SAVELS, Ashland, Mass.

WHAT IS VEGETINE? t is a compound extracted from barks, roots and her for it gives them strength, quiets their nerves, and gives them nature's sweet sleep—as has been proved by many an aged person. It is the great blood purifier. It is a soothing remedy for our children. It has relieved and cured thousands. It is very pleasant to take; every child likes it. It relieves and cures all diseases originating from impure blood. Try the VEGETIME. Give it a fair trial for your complaints; then you will say to your friend, neighbor and acquaintance: "Try it; it has cured me." Timber Land on the west side of Sidering Hill, in said township.

Also, 209 acres of Timber Land on the east side of Terrace Mountain. This tract will yield about 200 cords of bark, and from 500,000 to 600,000 feet of yellow pine saw timber.

TERMS:—One-third of the purchase money on the 1st of April, 1876, and the balance in two countains and appeals as years.

REPORT FROM A PRACTICAL CHEMIST AND APOTHECARY.

DICKSON HOUSE,

(Formerly Farmer's Hotel.)

North-east corner of Fourth and Penn Streets, HUNTINGDON, PA.,

SAMUEL DICKSON, - Proprietor.

Having lately taken charge of the Dickson House, (formerly Farmer's Hotel.) I am now prepared to entertain strangers and travelers in the most satisfactory manner. The house and stable will be attended by careful hostlers. May 5, 1875-y

May 5, 1875-y

House, Generally Farmer's Hotel.) I am now proved as sure prequired and enterty of the original stereotype plates have been begune and compass as its predecessor, but with a far greater pecuniary expenditure, and with the most satisfactory manner. The house and stable will be attended by careful hostlers. May 5, 1875-y

Having lately taken charge of the Dickson House, (formerly Farmer's Hotel.) I am now proved as sure prequired and a certain cure for Chicken Cholera or Gaps.

The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming in fact a new Cyclopadia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with stable will be attended by careful hostlers.

Hunting lately taken charge of the Dickson House, (formerly Farmer's Hotel.) I am now prevails and thereby saved their Foultry Stock from the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and will a certain cure for Chicken Cholera or Gaps.

The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful terminal.

The work has been begun after long and careful on new type, forming in fact a new Cyclopadia, with the same plan and compass as its pre

rather than consequence and or natural history, and depict the most famous and remarkable features of scenery, architecture and art, as well as the various processes of mechanics and manufacturers. Although intended for instruction rather than embellishment, no pains have been spared to insure their artistic excellence; the cost of their averantion is represented by the second or their artistic excellence; the cost of their averantion is represented by their artistic excellence; the cost of their averantion is represented by their artistic excellence in the second of their artistic excellence is the cost of their averantion is represented by the second of their artistic excellence.
