Miscellaneous. MARK THESE FACTS

The Testimony of the Whole World. HOLLOWAY'S OINTMENT.

BAD LEGS, BAD BREASTS, SORES AND ULCERS. All descriptions of soras are remediable by the proper and diligent use of this inestimable preparation. To at-tempt to cure had legs by plastering the edges of the wound together is a folly; for should the skin unite, a bog-gy diseased condition remains underneath to break out with tenfold fury in a few days. The only rational and with tenfold fury in a few days. The only rational and successful treatment, as indicated by nature, is to reduce the inflammation in and about the wound and to soothed the neighboring parts by rubbing in plenty of the Ointment as salt is forced into meat. This will cause the malignant humors to be drained eff from the hard, swollen and discolored parts round about the wound, sore, or ulcer, and when these humors are removed, the wounds themselves will soon heal; warm bread and water poultices applied over the affected parts, after the Ointment has been well rubbed in, will soothe and soften the same, and greatly assist the cure. There is a description of ulcer, sore and swellting, which need not be named here, attendant upon the follies of youth, and for which this Ointment is urgently recommended as a sovereigr remedy. In curing such poisonous sores it nover fails to restore

DIPTHERIA, ULCERATED SORE THROAT, AND SCARLET AND OTHER FEVERS.

SCARLET AND OTHER FEVERS.

Any of the above diseases may be cured by well rub, bing the Ointment three times a day into the chest, throat, and neck of the patient, it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere is influence can be felt in any local part, whereas the Ointment will do its work at once. Whoever tries the unguent in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved as by a charm. All sufferers from these complaints should envelop the throat at bedtime in a large bread and water poultice, after the Ointment has been well rubbed in ; it will groatly assist the cure of the throat and chest. To allay the fever and lessen the inflammation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, the grand essential in all cases of fevers, sore throat, or where there might be an oppression of the chest, either from asthma or other causes.

PHES FISTULAS CERICITURE PILES, FISTULAS, STRICTURES

The above class of complaints will be removed by nightly fermenting the parts with warm water, and then by most effectually rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for a considerable time two or three times a day, that it must be he affected parts, but it must be well rubbed in for a con-iderable time two or three times a day, that it may be aken into the system, whence it will remove any hidden one or wound as effectually as though palpable to the type. There again bread and water poulties, after the aubling in of the Ointment, will do great service. This is the only sure treatment for females, cases of cancer a the stomach, or where there may be a general bearing down.

INDISCRETIONS OF YOUTH ; -SORES AND ULCERS. Blotches, as also swellings, can, with certainty, be radi-cally cured if the Ointment be used freely, and the Pills taken night and morning, as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being— It will require time with the use of the Pills to tusure a lasting cure.
