Laws Relating to Newspaper Subscriptions and Arrearages.

The following is the law relating to newspapers and subscribers.

1. Subscribers who do not give express notice to the contrary, are considered wishing to continue their subscription.
2. If subscribers order the discontinuance of their periodicals, the publishers may continue to send them until all arrearages are paid.
3. If subscribers neglect or refuse to take their periodicals from the office to which they are directed, they are held responsible until they have settled their bills, and ordered them discontinued.
4. If subscribers move to other places without informing the publishers, and the papers are sent to the former direction, they are held responsible.
5. The Courts have decided that "refusing to take periodicals from the office, or removing and leaving them uncalled for, is *prima facie* evidence of intentional fraud.
6. Any person who receives a newspaper and makes use of it, whether he has ordered it or not, is held in law to be a subscriber.
7. If subscribers pay in advance, they are bound to give notice to the publisher, at the end of their time, if they do not wish to continue taking it; otherwise the publisher is authorized to send it on, and the subscriber will be responsible until an express notice, with payment of all arrears, is sent to the publisher.

A general order has been issued prohibiting loafing in or about the station houses or platforms of the Pennsylvania railroad company. "Stewardy" is just the chap to enforce the order at the Union Depot.

Rev. A. N. Hollifield preached a trenchant sermon on Sunday morning last. The people who make much outward show and have no inward piety had an opportunity of seeing themselves as others see them.

A fishing party, consisting of five or six citizens of this place, started for "Forshey's Gap," up the Raystown Branch, on Monday morning last, where they propose to spend the week. We wish them luck and a good time generally.

About every other man and boy you meet, in the early morning, has a fishing-pole on his shoulder and is wending his way to the river to angle for bass. As a general thing the daily catch will average one bass to each fisherman.

The senior proprietor of this paper is the owner of a hen that every now and then takes a notion and lays two eggs in one day. The eggs are larger than the usual variety of hen eggs. This prolific fowl is a cross between the Brahma and the common breed.

The colored folks of this place indulged in a picnic, at Cottage Grove, on Thursday of last week, and enjoyed themselves until early evening, when a high wind and threatening rain storm caused them to leave the grounds rather precipitately and seek their homes at a double quick pace.

Policeman Skeese, during the past week, has been giving his attention to the boys and young men who make a practice of giving model artist exhibitions in the vicinity of the old toll bridge, and on two or three occasions he made them quit their ablutions rather unceremoniously and seek safety by flight.

As caning seems to be the order of the day, the senior of this paper came in for his share, on Wednesday last, at the hands of our esteemed friend, C. H. Anderson, esq. The stick is a very handsome one, and we assure the donor that we prize it highly, and with him "hope that we may never have occasion to use it in clubbing any one," but if we should we will follow his advice and do it "well." Thanks.

People, who take such delight in figuring in the newspapers, should at least learn the rules of punctuation sufficiently well, to enable them to make their productions intelligible, and not bore the printers to death with their jumbled-up compositions. Some who pride themselves upon their scholastic and literary attainments would be astonished to see their productions appear as they are handed to the printer. It is simply a bore.

In another column we publish an anecdote from the Altoona *Tribune* relating to an old citizen of this county, long since dead, but well remembered by many of our readers. In our mind's eye we see him as we saw him in the long ago, with his snowy locks, white choker and scrupulously white linen. We have no doubt "Brother Tom Cromwell" prayed just as he is reported in the article referred to, for this was his style of saying things.

T. C. Fisher, esq., of Huntingdon, and Homer Vaughn, esq, of Tyrone, having made arrangements to play a match game of billiards the first game of a series of three was played in Williams' saloon, in this place, on Saturday last, which resulted in a victory for Fisher by a score of 300 to 208. The second game will come off in Mr. Vaughn's saloon, at Tyrone, on Saturday evening next. Mr. V. is a clever young gentleman and understands the science of billiards.

BARREE IRON WORKS.—A correspondent writes us as follows:

Sometime since I had the pleasure of paying a visit to the celebrated Iron works of Barree, located some nine miles from "ye ancient borough." After partaking of a splendid dinner, accompanied by the irrepressible Col. Lowry, we took a stroll around the furnace buildings and forges, which latter were being refitted and put in order to forge blooms from the pig metal made at the furnace near by. After having satisfied myself that the lessees mean business, the Colonel invited me to witness the *modus operandi* of firing the furnace stack, which must be fired at least three or four days previous to putting on what is styled, in furnace parlance, "the Bender." We also visited the celebrated Dorsey ore banks, some five miles from the works. It has been our privilege to examine the Conawaga and also the Berks county ore banks, no where, however, have we seen such a body of ore—thousands of acres stretching in a line nearly East and West for miles, raquiring but very little stripping until the ore is reached, then for a depth of at least forty feet, there seems to be nothing comparatively but ore. The wide reputation which the Juniata charcoal iron has obtained is due to this ore bank. No where can there be found an ore whose tenacity of fibre is equal to that possessed by the iron made from it. Judging from appearances, I believe if business can be done at all, Col. Lowry and his partner are the men to do it. Both are self-made men in the fullest sense of the word; not only in theory but in the practical department of the business. Energy is stamped on the Colonel's whole physique; pleasant, communicative and obliging, there is no codfish aristocracy about him. He is approached by all his men as though he were a brother; indeed no one acquainted with him will fail to accord to him all that I have said, nor should we forget our friend, Mr. Mumper, the owner of the works and ore banks, who is engaged in sinking an artesian well at the Bank for the purpose of obtaining water to wash the ore on the ground where it is obtained.

In a conversation we learned that Robert Speer has spent nearly a lifetime at these works, whose only weapon seems to be the pen, which he wields most gracefully. After enjoying the day most delightfully and profitably, accompanied by the Colonel and the energetic Founder, Mr. William Craig, we made our way to the railroad and took our departure for home.

HOLLOWAY'S PILLS AND OINTMENT.—He only is wise who seeks safety in precaution. Life is uncertain; thousands in the vigor of health to-day will never see to-morrrw. The varying atmosphere, the raw piercing winds warn us of winter's approach, with its icy blasts and ruthless scourges: Coughs, Colds, Sore Throats, Asthma, Bronchitis, Pleurisy, Consumption, Rheumatism Chilblains, Frost Bites, &c. The wise and cautious will immediately have recourse to those powerful invigorators Holloway's Pills, which enable the lungs to resist the deleterious effects of the weather, and fortify the constitution to withstand the rigors and inclemencies of winter. The Ointment is an infallible remedy for inflamation of the throat, and all disorders of the chest produced by violent colds; it also gives speedy relief to the organs of respiration. 195

EXCURSION TO BEDFORD—ONLY $2.25 FOR THE ROUND TRIP.—An excursion party to Bedford, under the auspices of the Huntingdon Silver Cornet Band, will leave this place at 8.15 o'clock on Friday evening, of this week, and return the following day at 7.25 P. M., giving the excursionists about twenty hours in Bedford. The Huntingdon Fire Company, with their steamer, and the Independent Hook and Ladder Company will form part of the party. Every person is invited, and the fare is so low, only $2.25 for the trip, that all who can should avail themselves of the pleasure of the excursion. Tickets can be had at R. S. Westbrooks', and at Read & Sons' drug store.

S. HATFIELD & SON'S NEW ENTERPRISE AT MAPLETON—*Developements in Glass Sand.*—On Saturday morning last we stepped on the accommodation train east, at 9:29 o'clock, and in a few minutes later, left it at Mapleton Depot, and proceeded to the store of Samuel Hatfield & son who are driving a brisk trade at this point. Accompanied by the junior member of the firm we left the village and proceeded to the drift on the west side of the Ridge south of the place. On the east side of the Ridge, near the Summit, we passed the opening made by Messrs Maguire & Co., of this place. These gentlemen have made a large opening and are preparing to crush and wash sand extensively. A tram-way is being built from the quarry to the crushing and washing machinery in the defile below. The sand taken out here is of the same quality taken out north of the river as near as we were able to learn.

Passing on up over the summit of the Ridge, from the opening of Messrs. Maguire & Co., and down along the western slope, about three-fourths of a mile, brought us to the drift of Messrs. Hatfield & Son. We stated before that the drift was on the west side or the side opposite to Mapleton at a point well calculated to effect the object intended.

Early last winter Mr. Hatfield, senior, came to the conclusion that the same strata found north of Mapleton extended south of it, and that it was only cut by the river. On examining the ground he was convinced of the correctness of his views. He expressed the hope that fire clay, in which he had been extensively operating on Warriors Ridge, might be found here. He ascertained from Judge Campbell that the property could be leased for prospecting, and after repeated visits and considerable negotiating he leased all the west side of the Ridge for a mile or two south of the town. Fortified in every essential particular, in last March, some five months ago, he began to drive a drift into the side of the Ridge. This drift has been driven 225 feet. The miners first passed through a considerable quantity of slate rock and umber, after which they passed successively through the following strata the number of feet indicated, viz:

Quartz Rock	15 feet.
Umber	12 "
Magnesia Limestone	6 "
Black Cement	6 "
Gray Cement	8 "
Hard Fire Clay Rock	40 "
Soft " "	15 "
Kaolin	4½ "
Sand Rock	45 "

Two strong mineral springs empty into the drift. They are strongly impregnated with Magnesia. The drift can be extended 100 feet in direct line from the point reached at this time and is 140 feet below the summit of the sand rock. "There's millions in it."

The quality of the sand taken out is the finest we have ever seen. It is taken out in solid masses but as soon as it is subjected to the air it becomes reduced to the finest particles and is almost as white as ordinary sugar. In comparing it with the Lewistown sand, which is said to be the best in the State, we believe it to be equally as good, if not superior. The crystals appear to be clearer and finer. There are of course several grades of sand, but the bulk of it appears to be as above described.

Messrs. Hatfield deserve the thanks of that community for their enterprise. They will proceed to erect all the necessary buildings, and to procure the machinery requisite in pushing the business, and a tram-way will be located from the drift to the railway. We think it was a splendid day for Mapleton when these good gentlemen determined to locate at that point. May success continue to smile upon them.

We are under obligations to Capt. E. White and Mr. Wagner, miners, for kind attentions. They are a whole-souled team. They are assisted by John Clemens. The mining is to be continued in the future throughout the twenty-four hours. "Push" is the word.

A NOVEL PRAYER ABOUT SNAKES.—*Old-time Eccentricity.*—In old Mother Huntingdon, there resided, many years ago, a somewhat noted individual named Tommy Cromwell. Tommy was a famous Methodist in those early times of which we write, and clergymen were sown very thinly over the country. Hence, Tommy was called upon frequently to do the surplus praying in his neighborhood. There lived near him a family by the name of Drake, which was not subject to the charge of being overmuch pious. One of the younger members had unfortunately been bitten by a rattlesnake, which caused him to think about his soul's eternal interests. In this supreme moment Tommy was sent for to plead his case before the Majesty on high, and thus delivered himself:

"O, Lord, we thank Thee for snakes. Especially do we thank Thee for the rattlesnake that bit John Drake. We pray Thee, O Lord, to send snakes to bite all the Drake family. Particularly do Thou send a great big rattlesnake to bite old man Drake, for there is nothing but snakes that will bring the Drake family to repentance."

Tommy was an intense hater of tobacco, and failed not to rebuke the filthy habit in whomsoever he found it. On one occasion a church was to be dedicated in the Aughwick valley, and Rev. Aquilla Reese, then presiding elder of the Carlisle district, was selected to do the dedicatory work. Tommy met him at Mt. Union. After loading up his gospel freight and proceeding on the return trip what was his disgust to find "Quil" plying himself abundantly with the weed, and squirting the juice in all directions, supplementing his favorite quid with an occasional cigar. Tommy stood this until forbearance ceased to be a virtue, when he began recounting to "Quil" how bad a man he (Tommy) had been; "how drunk he used to get; how he profaned the name of the Lord, and run after the women; but he thanked the Lord that he was never guilty of so mean a practice as chewing and smoking tobacco!" It is scarcely neccessary to say that "Quil" saw the point and appreciated the old man's sledge-hammer blow.—*Altoona Tribune.*

A MISFORTUNE.—On Thursday evening of last week the barn of Mr. Archy C. Hutchinson, of Warriorsmark township, was struck by lightning and entirely consumed, together with several tons of old hay, about 300 bushels of old wheat, two-thirds of the present crop, a great many of his farming implements, including a new spring wagon which he had brought home from the shop a short time prior to the occurrence, and two horses. The probable estimate of Mr. H's. loss is about $3,000. No insurance. Mr. H. has the heartfelt sympathy of his neighborhood in his heavy loss.

There is something singular in regard to the manner in which this stroke came. From the form of it, it appeared to be a case of what is termed "globular lightning," as it came down in the form of a ball of fire and in an instant the black smoke fumed up and the building was in a flame. The current of electricity seemed to be a "respecter of persons," coming down into the stable killing two horses, sparing the life of the boy who was unharnessing one of them—and that of the other horses—and owing to his presence of mind he drove them from the doomed building and they escaped unhurt.

MAIL MATTER.—Postmaster M'Alarney has received, says the Harrisburg *Patriot*, a circular from Postmaster General Tyner informing him of the passage of the following:

"SEC. 15. That transient newspapers and magazines, regular publications designed primarily for advertising purposes, or for free circulation at nominal rates and all printed matter of the third class except unsealed circulars, shall be admitted to, and be transmitted in, the mails at the rate of one cent for every two ounces or fractional part thereof, and one cent for each two additional ounces or fractional part thereof; and the sender of any article of the third class of mail matter may write his or her name or address therein, or on the outside thereof, with the word 'from' above or preceding the same, or may write briefly or print on any package the number and names of the articles inclosed. Publishers of newspapers and periodicals may print on the wrappers of newspapers or magazines sent from the office of publication to regular subscribers the time to which subscription thereof has been paid, and address upon postal cards and unsealed circulars may be either written, printed, or affixed thereto, at the option of the sender.

"SEC. 16. That all acts, or parts of acts, in conflict with the provisions of this act are hereby repealed."

On unsealed circulars and all mailable matter of the third class other than that designated in the foregoing section, postage will be charged as herefore, one cent for each ounce or fraction thereof.

JUNIATA VALLEY MEDICAL ASSOCIATION.—The first annual meeting of the Juniata Valley Medical Association was held in the form of a pic-nic on the top of the Alleghany Mountain, at Loydsville, Pa. on Friday, July 7th, 1876. The Association is composed of the physicians forming the different County Medical Societies of the counties of Blair, Bedford, Huntingdon, Mifflin, Juniata and Perry. On the occasion of this meeting, the members with their ladies, accompanied by the distinguished and honored member of the profession, Dr. Washington L. Atlee of Philadelphia, and his daughter, and a number of invited guests spent the day pleasantly and profitably, enjoying alike the romantic scenery along the route of the Bells' Gap R. R. and the mountain, the delightfully cool, and invigorating mountain air, the good things provided for their use, the business of the day and each other's society.

On taking the chair, the President, Dr. Rowan Clark of Bells Mills, proceeded to deliver a very appropriate address. The minutes of the previous meeting, and also the Constitution and By-Laws were read by the Secretary, Dr. A. B. Brumbaugh of Huntingdon. Dr. W. L. Atlee of Philadelphia was elected an honorary member of the association. Drs. S. M. Ross of Altoona, and W. C. Roller of Hollidaysburg, each read interesting reports of cases, which were fully discussed.

The officers elected for the ensuing year are President, Dr. P. L. Greenleaf of Juniata; Vice Presidents, Drs. Crawford, Irwin, Sidney Thompson, T. H. Van Valzah, J. N. Richards and L. Banks. Recording Secretary, Dr. A. B. Brumbaugh, of Huntingdon; Corresponding Secretary, J. M. Brown, of McVeytown; Treasurer, W. M. Findley, of Altoona. Twelve new members were elected, making a membership now of twenty-five. The same place, Loydsville, was selected for the next meeting, the second Thursday of July, 1877. A special business meeting will be held at Mifflin the third Thursday of December 1876. The day was spent in a pleasant and profitable manner, and was a needed relief from the wear of professional toil. X

LITERATURE.

Books of a statistical and historical nature multiply rapidly, in this our centennial year; and it is well, for there are many matters connected with the origin of our Government, and the means of its perpetuation that do not enter into the store of knowledge of the great mass of our people. How many can tell, without referring, or have the means of reference, if they desired to refer the number and names of the Presidents of these United States, and infinitely small as compared with the masses is the number that could give even the epitomised account of the administration of each. W. A. Taylor of Pittsburg, Pa. has contributed his part to supplying this need, by issuing an epitome of the "Eighteen Presidents &c.," of the U. S. from Washington to Grant, (by a little prophetic prediction he might have included Gov. Hayes, as the next,) with portraits of each. It also contains much statistical matter of interest. Price 50 cents. For sale at JOURNAL Store.

A HEALTH-PROMOTING STIMULANT.—Physicians, who certainly ought to be the best judges of such matters, declare that wholesome stimulation is not only desriable but essential in many instances. When the temporary good effect of a sound stimulant is confirmed and rendered permanent, as in the case of Hostetter's Stomach Bitters, by the action of tonic and alterative principles combined with it, it becomes infinitely more efficacious as a renovant of physical energy and a corrective of those conditions of the body which invite disease. The Bitters have received the emphatic sanction of medical men who have observed the effect of that popular stimulative cordial as a remedy for weakness, nervousness, dyspepsia, constipation, inactivity of the liver, malarious fevers, and many other disorders. Its basis is sound old rye, the purest liquor known to commerce, and itself possessing tonic properties of no mean order. [jy14-1m.

Political Announcements.

Announcements will be made as follows: Congress, $10; Senate, $6; Assembly, $5; Associate Judge, $5; Director of the Poor, $4; Jury Commissioner, $3. No card will be inserted unless the cash accompanies it.

SENATE.

HUNTINGDON, Pa. July 12, 1876.

MR. EDITOR:—In reply to the communications asking me to allow my name to go before our coming Convention, I would say that I am deeply grateful to the gentlemen from different parts of our county for their favorable notices in your last issue, and desire to express here what I have said to many Republican friends during the past two months, that I am not a candidate for Senator or any other office, that I have persistently refused to be so considered, for the reason, (and I say it frankly) that it required a sacrifice, in a business point of view, that I did not see my way clear to make. Having conferred fully and freely with quite a number of Republicans, I am prepared now to say to the Republicans of Huntingdon county if our coming convention, representing the whole party deem me the most available nominee I shall accept the nomination and use my best efforts to succeed; but if there is any other Republican more available I hope to be considered as withdrawn. Respectfully yours,
HORATIO G. FISHER.

ASSEMBLY.

TO THE REPUBLICANS OF HUNTINGDON COUNTY.

FELLOW REPUBLICANS:—At the approaching General Election you are authorized to elect two members of the General Assembly, to serve for a term of two years. Having faithfully served the Republican party, in this county, in the capacity of an editor, for almost six years, I feel that I am not infringing upon the rights of any one in offering myself as a candidate for one of the two places to be filled. I therefore solicit you, one and all, to assist me, in every honorable way, to secure the nomination, and in case you confer the nomination upon me I assure you that no honorable means will be spared to secure an election. Yours, most respectfully,
J. R. DURBORROW.

ASSOCIATE JUDGE.

As a candidate for Associate Judge we would suggest the name of PERRY MOORE, Esq., of Morris township. Mr. Moore is well and favorably known to the citizens of Huntingdon county, and we do not think a man could be named for the position whom the Republicans could so cordially support. SEVERAL FRIENDS.

JURY COMMISSIONER.

We are authorized to announce J. B. WAKEFIELD, Esq., of Brady township, as a suitable candidate for Jury Commissioner, subject to the usages of the Republican party.

PROOF,--20 TO 1.

The sales of Webster's Dictionaries throughout the country in 1873 were 20 times as large as the sales of any other Dictionaries. We will send proof of this on application, and such sale still continues.

More than THIRTY THOUSAND copies of Webster's Unabridged have been placed in as many Public Schools in the United States, by State enactments or School Officers.

Can you better promote the cause of education and the good of community than by having a copy of Webster's Unabridged in your family, and trying to have a copy in each of your Schools?

Webster now is glorious,—it leaves nothing to be desired. [*Pres. Raymond, Vassar College.*
