MARK THESE FACTS

The Testimony of the Whole World. HOLLOWAY'S OINTMENT.

BAD LEGS, BAD BREASTS, SORES AND ULCERS. All descriptions of soras are remediable by the proper and diligent use of this ineutimable proparation. To at-tempt to care had legs by plastering the edges of the wound together is a folly; for should the skin unite, abog-gy diseased condition remains underneast to break out with tenfold fury in a few days. The only rational and successful treatment, as indicated by nature, is to reduce the meightoring parts by rabbing in plenty of the Oint-ment as salt is forced into meat. This will cause the malignant humors to be drained of from the hard, swol-len and discolored parts round about the wound, sore, or ulcer, and when these humors are removed, the wounds themselves will soon heal; warm bread and water pool-tices applied over the affected parts, after the Ointment has and greatly assist the cure. There is a description of ulcer, and for blies of youth, and for which this Ointment is urgently recommended as a sovereigt reme-dy. In ctring such poisonous sores it never fails to restore the system to a healthy strei if the Fills be taken accord-ing to the printed Instructions. BAD LEGS, BAD BREASTS, SORES AND ULCERS. the system to a nearby stream. ing to the printed instructions. DIPTHERIA, ULCERATED SORE THEOAT, AND SCARLET AND OTHER FEVERS.

SCARLET AND OTHER FEVERS. Any of the above diseases may be cured by well rulk bing the Ohimment three times a day into the check, throat, and neck of the patient, it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ohimment will do its work at once. Whoever tries the unguent in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves re-lieved as by a charm. All sufferers from these complaints should envelop the throat at bedtime in a large bread and water poultice, after the Ohimment has been well rubbed in ; it will greatly assist the cure of the throat and chest. To aliay the fever and lessen the inflammation, eight or ten Pills should be taken night and morning. The Ohi-ment will produce perspiration, the grand essential in all curves of there and the taken the taken selent and thest. ment will produce perspiration, the grand essential in all cases of fevers, sore throat, or where there might be an oppression of the chest, either from asthma or other

PILES, FISTULAS, STRICTURES.

PILES, FISTULAS, STRICTURES. The above class of complaints will be removed by night-ly fermenting the parts with warm water, and then by most effectually rubbing in the Ointment. Persons suffer-ing from these direful complaints should lose not a mo-ment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for a con-siderable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though saplable to the eye. There again bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing down. down.

INDISCRETIONS OF YOUTH ;-SORES AND ULCERS.

Blotches, as also swellings, can, with certainty, be radi-cally cured if the Ointmeth be used freely, and the Pills taken night and morning, as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being.— It will require time with the use of the Pills to insure a lasting cure.
