Medical.

VEGETINE

Strikes at the root of disease by purifying the blood, restoring the liver and kidneys to healthy action, invigorating the nervous system.

VEGETINE

Is not a vile nauseous compound, which simply purges the bowels, but a safe, pleasant remedy which is sure to purify the blood and thereby restore the health.

VEGETINE

Is now prescribed in cases of Scrofula and other diseases of the blood, by many of the best physicians, owing to its great success in curing all diseases of this nature.

VEGETINE

Does not deceive invalids into false hopes by purging and creating a fictitious appetite, but assists nature in clearing and purifying the whole system, leading the patient gradually to perfect health.

VEGETINE

Was looked upon as an experiment for some time by some of our best physicians, but those most incredulous in regard to its merit are now its most ardent friends and supporters.

VEGETINE

Instead of being a puffed-up medicine has worked its way up to its present astonishing success by actual merit in curing all diseases of the blood, of whatever nature.

VEGETINE

Says a Boston physician, "has no equal as a blood purifier. Hearing of its many wonderful cures, after all other remedies had failed, I visited the labratory and convinced myself of its genuine merit. It is prepared from barks, roots and herbs, each of which is highly effective, and they are compounded in such a manner as to produce astonishing results."

VEGETINE

Is acknowledged and recommended by physicians and apothecaries to be the best purifyer and cleanser of the blood yet discovered, and thousands speak in its praise who have been restored to health.

PROOF.

WHAT IS NEEDED.

BOSTON, Feb. 13, 1871.

Mr. H. R. STEVENS:—Dear Sir—About one year since I found myself in a feeble condition from general debility. VEGETINE was strongly recommended to me by a friend who had been much benefited by its use. I procured the article and after using several bottles, was restored to health and discontinued its use. I feel quite confident that there is no medicine superior to it for those complaints for which it is especially prepared, and would cheerfully recommend it to those who feel that they need something to restore them to perfect health. Respectfully yours,

U. L. PETTINGILL.

Firm of S. M. Pettingill & Co., 10 State St. Boston.

CINCINNATI, Nov. 26, 1872.

Mr. H. R. STEVENS:—Dear Sir—The two bottles of VEGETINE furnished me by your agent, my wife has used with great benefit.

For a long time she has been troubled with dizziness and costiveness; these troubles are now entirely removed by the use of VEGETINE.

She was also troubled with Dyspepsia and General Debility; and has been greatly benefited.

THOS. GILMORE, 222½ Walnut St.

FEEL MYSELF A NEW MAN.

NATICK, MASS., June 1st, 1872.

MR. H. R. STEVENS:

Dear Sir—Through the advice and earnest persuasion of Rev. E. S. Best, of this place, I have been taking VEGETINE for Dyspepsia, of which I have suffered for years.

I have used only two bottles and already feel myself a new man. Respectfully,

Dr. J. W. CARTER.

Report from a Practical Chemist and Apothecary.

BOSTON, Jan. 1, 1874.

Dear Sir—This is to certify that I have sold at retail 15½ dozen (1852 bottles) of your VEGETINE since April 12 1870, and can truly say that it has given the best satisfaction of any remedy for the complaints for which it is recommended, that I ever sold. Scarcely a day passes without some of my customers testifying to its merits on themselves or their friends. I am perfectly cognizant of several cases of Scrofulous Tumors being cured by VEGETINE alone in this vicinity.

Very respectfully yours,

A. GILMAN, 468 Broadway.

Farm and Household.

A Farmer's Wife.

Matilda Fletcher thus describes a farmer's wife who is not only beautiful and wise, but possesses several cardinal virtue in addition: "The most beautiful woman I ever knew was a farmer's wife, who attended to the household duties for a family of four, and also assisted in gardening and the light farm work; and yet I never saw her hands rough and red; I never saw even a freckle on her nose. Impossible! you say; how did she manage?" I never asked her, but she had some envious neighbors who went slouching about with scaly hands, sunburnt faces, and their hair matted with dust and oil, who let me into the dreadful secret. They informed me with an ominous shake of the head that she was the proudest minx that ever lived; that she actually wore india rubber gloves when she used the broom and scrubbing brush and always when she worked out doors; that she had a bonnet made of oil silk, completely covering the head, face and neck leaving only apertures for seeing and breathing, thus securing perfect freedom from sun, wind and dust. Did you ever hear such depravity? She also fastened her dish cloth to a stick so that she need not put her hands in the water. For the same reason she accomplished her laundry work with machine and and wringer. And then to see her in the afternoon tricked out in a fashionable white dress, with a bright colored ribbon at her throat, and a rose in her hair, entertaining in the parlor, as though she was the greatest lady in the land, was more than their patience could endure.

And her husband? He had such a satisfied expression that it was a perfect aggravation to ordinary people to look at him. He deserved to be happy because he encouraged and helped her to cultivate beauty in her self, her family, and her home; and I dont know but her success principally belonged to him, because he bought all the new inventions that could lighten her labors and all the delicate and pretty things she needed to adorn her home, and when she was sick he wouldn't let her touch work until she was well and strong."

Wheat from India.

Some of the American journals are jumping at a hasty conclusion, that the importation of wheat into England from India is fraught with trouble to American wheat growers, because the cheapness of agricultural labor and production in India enables that country to compete successfully against us in the English markets. If that were so, Indian cotton would long since have driven American cotton from Europe. But the former is inferior in quality to the latter, and hence American cotton rules the market. So it is with Indian wheat. It is inferior in quality to American, and is only used in England to mix with better grades. Samples of this Indian wheat have been seen at the New York Produce Exchange and tested, with this result, agreeing in that respect with the English reports. As to cheapness, we have our doubts. The ryots of India are subject to the most merciless taxation. Their system of taxation is primitive. They have no such implements or process as ours. And the means of transit to tide-water are sadly deficient, while ours are superabundant. If Indian wheat was as invaluable as represented, does any one suppose that the English merchants would load four hundred ships every year with wheat at San Francisco and take it eighteen thousand miles to England by sea? Of course not. We need only increase our exports of wheat and corn as fast as possible, in order to hold the ascendancy we have gained in the breadstuff markets of Europe. We have beaten Russia effectually, and her agricultural labor was cheaper than ours. But her means of transport and handling were far behind ours.

A CHEAP ICE HOUSE.—No farmer should be without an ice house, because it is absolutely necessary in every family to preserve meat and other things in the Summer season. I once knew a farmer who drew a few tons of ice in large square cakes, and packed them up upon a few rails near his house, to keep the ice from the ground with a bed of straw between and upon the rails. After the ice had reached a height of about eight feet, with a diameter of ten feet, he covered it two feet thick with straw, top and sides and then set some boards up so as to shade the ice and carry off the rains; and the ice kept till September. This shows that ice will keep well above the ground. Build a cheap house for it about 14 feet square, with the door on the north side; lay down old rails, or anything to keep the ice off the ground, packed in sawed cakes, leaving 18 inches of space between the ice and the sides of the house to be filled with straw firmly packed down. The door should be in two parts, each about five feet long, the upper one to be used till the ice gets below the top of the lower one, with movable steps to go up to it. Between now and January is the time to build your ice house. I know of no advantage in having ice houses under ground.

Maxims for Farmers.

It is worth while for all farmers, everywhere to remember that thorough culture is better than three mortgages on their farms.

That good fences always pay better than lawsuits with neighbors.

That more stock perish from famine than founder.

That a horse that lays his ears back and looks lightning when any one approaches him is vicious. Don't buy him.

That scrimping the feed of fattening hogs is a waste of grain.

That over fed fowls won't lay eggs.

That educating children properly is money lent out at one hundred per cent.

That one evening spent at home in study is more profitable than ten lounging around country taverns.

That cows should always be milked regularly and clean.

That it is the duty of every man to take a good reliable, entertaining paper, and pay for it promptly of course.

Dr. Swayne's Medicines.

TO ALL!

DR. SWAYNE,

The first owner and Compounder of the far famed

DR. SWAYNE'S

Compound Syrup of Wild Cherry

and other valuable preparations, entered upon his professional career with the important advantage of a regular Medical Education in one of the oldest and best schools in Philadelphia, and, perhaps in the world. He subsequently served a faithful term of practice in the Philadelphia Dispensary, and for many years attended also in the Hospital. In these institutions he enjoyed the most ample opportunities of obtaining an insight into diseases in all their various forms, as well as for ascertaining the best methods of their treatment. In offering, therefore, to the people of the United States the fruits of his extensive professional experience in the medical compounds as the best results of his skill and observation, he feels that he is but proffering a *boon* to every family throughout the land, resting, as he does, confidently, in the merits and efficacious virtue of the remedies he herewith commends. The vast amount of testimony from all parts of the world has proven "DOCTOR SWAYNE'S COMPOUND SYRUP OF WILD CHERRY" the most efficacious remedy known, and it is admitted by our most eminent physicians, and all who have witnessed its wonderful healing properties. The WILD CHERRY in all ages of the world, and in all countries where it is known, has been justly celebrated for its wonderful medicinal qualities; but its great power to cure some of the worst and most distressing diseases among us was never fully ascertained until the experiments of that skillful physician, Dr. Swayne, had demonstrated its high adaption, in combination with Pine Tree Tar, and in other equally valuable vegetable ingredients, which, chemically combined, renders its action tenfold more certain and beneficial in curing all diseases of the throat, breast and lungs. DR. SWAYNE'S WILD CHERRY COMPOUND strikes at the root of all diseases by purifying the blood, restoring the liver and kidneys to healthy action, invigorating the nervous and shattered constitution.

ANOTHER HOPELESS CASE

—OF—

CONSUMPTION!

CURED BY

Dr. Swayne's Compound Syrup of Wild Cherry

ADAMSTOWN, Lancaster Co., Pa.

DR. SWAYNE & SON. *Gentlemen:*—About two years ago my wife was suffering from consumption, her cough at times was very distressing, and during her sickness had the best medical attendance in this and adjoining counties. Her case was pronounced hopeless by all of them. I was induced through the recommendation of your agent, Dr. Isaac H. Miller, of West Brecknock, Berks county, Pa., and who can verify these facts, to try Dr. Swayne's Compound Syrup of Wild Cherry. After using it for some time, she was entirely cured, and is now as well as ever, and fully able to perform her usual labor. I am so fully satisfied that it is to your preparation that I am indebted for her restoration to health, that I grant you full liberty to give her case publicity, in the hope that others now suffering may derive benefit from her experience.

Yours, respectfully, HENRY G. MOHN.

ITCHING PILES

Is generally preceded by a moisture, like perspiration, distressing itching, as though pin worms were crawling in and about the rectum, particularly at night when undressing, or in bed after getting warm. It appears in summer as well as winter, and is not confined to males only, but it is quite as frequent that females are sorely afflicted, particularly in times of pregnancy, extending into the vagina, proving distressing almost beyond the powers of endurance. Casts of long standing, pronounced incurable, have been permanently cured by simply applying

"London Hair Color Restorer."

KEEP YOUR HEAD AND HAIR HEALTHY.

LONDON HAIR RESTORER

1—It will restore gray hair to its original color.
2—It will thicken thin hair; cause a new growth.
3—It will restore the natural secretions.
4—It will remove all dandruff and itchings.
5—It will make the hair soft, glossy and flexible.
6—It will preserve the original color to old age.
7—It will prevent the hair from falling off.
8—It will cure all diseases of the scalp.

It restores both the luxuriance and color of the hair, and is as harmless as water. Premature blanching or fading of the hair is greatly to be regretted, and that everybody wants to be beautiful is proof enough that it is wise and right to be so, by every proper means; but there is nothing more important to this end than beautiful hair. Now to prevent the failing of the natural coloring matter in it, or re-excite the roots of the hair to growth again, nothing has ever been introduced to the American people that equals the
