LOCAL AND PERSONAL.

Brief Mention—Home-made and Stolen. Advertise. Rheumatism is scarce. Local matter is scarce.

Rain all day on Sunday. Rain in your local news. Subscribe for the JOURNAL.

The tramp crop is still prolific. New schedules on the railroads. The item goes "like hot cakes."

The wheat fields look promising. Court last week was a slim affair. Keep the boys off the street at night.

Train agents are stepping to the rear. Christmas is only four weeks off. Tempting fugit.

When the poor cry for bread the rich make money. Almanac for 1876, of all kinds, at the JOURNAL STORE.

Several cellars have been robbed in West Huntingdon. Capt. Wm. K. Burchell left this place for Colorado last week.

A long and cold winter is predicted by the weather prophets. The Teachers' Institute convenes in this place on Monday next.

Sunday last was a bad day for the display of cornstarch. The highest vote polled in this county was for Congress—6588.

Everybody should get a full set of Centennial stereoscopic views. A new lot of photograph albums at the JOURNAL STORE. Splendid!

Stereoscopic and Centennial stereoscopic views at the JOURNAL STORE. Now it is J. Randolph Simpson, esq., who smiles sweetly. It is a daughter.

C. Williams and Maj. Watson are the champion rabbit hunters of this bailiwick. Orbiolina has a lawyer in the person of B. J. Devor, esq., formerly of Mt. Union.

The Junius and her tributaries have been considerably swollen by the late rains. Lytle's History of Huntingdon county is for sale at the JOURNAL STORE. Price, \$2.50.

The old "Broad Top Corner" seems to be the favorite resort of all the rogues in town. The "hog committee" was forced to forego the usual Sunday inspection on account of the rain.

The ladies are tickled beyond measure at the handsome attention to be had at the JOURNAL STORE. Dr. Black, Dentist, has removed his office to Washington street, a few doors west of Mayor's store.

The chap who forged an order on us for \$20 had better not look around this way for several months to come. Stereoscopic views at the JOURNAL STORE at 10 cents each. The regular charge is 25 cents. Go and see them.

For handsome stationery go to the JOURNAL STORE. A new lot—splendid styles—cheap as dirt—just received. The first instalment of "The White Dove" of the Junius, will be found on the outside of today's JOURNAL.

The Centennial taught railroad men to lower fares if they desire much travel. Will they profit by the lesson? Benj. Elliott, esq., of Rochester, Indiana, will please accept our thanks for late files of the Chicago Inter-Ocean.

The "Pony" cigars at the JOURNAL STORE, made of pure Havana tobacco, are the favorites of all smokers. An effort is being made to revive the Young Men's Christian Association in this place. Hope it will be successful.

Trough Creek is getting to be one of the important Post Offices in the county. Send us a good list of subscribers. That beautiful stationery, at the JOURNAL STORE, is just the thing to use when writing a "hilly do" to your Angeline.

"Tommy" Montgomery, the Fifth street clubber, has had some neat and useful improvements made to his front windows. The women folks are beginning to regard the outside pages of the newspapers with something like their former interest.

The twenty-one tramps arrested on Wednesday afternoon of last week, were turned out of prison on Thursday morning. The Pacific Express eastward, on Sunday last, had only thirty-two passengers on board. The harvest is past for the railroads.

B. F. Ripple, esq., of Orbiolina, was married on the 20th ult., to Miss Florence Hancock, of Philadelphia. Success to you and yours. One of Wiley's gold pens has done the work of every school teacher in the county—For sale, very cheap, at the JOURNAL STORE.

When a female friend arrives at the mature age of four weeks it is entitled to have a polonaise on its long dress. So says fashion. Our clever Quaker City friend, A. B. Cunningham, esq., dropped in to see us on Saturday last. "Aleck" is as clever as the day is long.

The goose-bone and corn-suck weather prophet diets are beginning to appear in the papers with their usual predictions of a cold winter.

The Literary Society connected with Mr. Zack's school in West Huntingdon, meets every Saturday evening and the attendance is good.

School teachers will stand in their own light if they fail to lay in a supply of stationery when it can be had so cheap and good at the JOURNAL STORE.

The Grand Central Hotel, New York, "leads the van" among the first-class hotels, by reducing its rates from \$1.00 to \$2.50 and \$2.00 per day.

We are sorry to learn that the citizens of Clay Township are suffering from typhoid fever. Several deaths have occurred in that locality from this disease.

The road leading to and through the cemetery could be greatly improved by filling up the ruts and washes that now render it so rough and uneven.

The types made us say last week that Harry Cohen was selling his navy blue shirts at \$2.25, when we should have said one dollar and twenty-five cents.

Miss Annie, daughter of Samuel Ralston, esq., of Warriorsburg, has placed a quilt containing 5,616 pieces. Who can beat it? Trot out your scraps.

J. Frank West, esq., has fitted up his store room (late J. C. Fleming & Co.) very neatly. Mr. West is a practical man and understands his business thoroughly.

M. B. Massey, esq., of our borough, has had a patent granted him for a "crimping cart" and "Mr. Massey don't know about a gun ain't worth knowing."

The applicants in this place, for positions under Fillet, if elected, foot up several scores. It is astonishing how closely they scrutinize the Post Office and Still-houses.

Huntingdon's fair daughters are perfecting arrangements for an attack on the growing vice of intemperance in our midst. May they meet with unbounded success.

"Tommy" Nowell has one of the neatest and cleanest offices in the town. The matting is a grand improvement. Everything is in its place and "order reigns in Waraw."

Fifty years ago it was a question whether it was proper to smile or applaud a speaker in a church, but that question was settled affirmatively at least twenty-five years since.

Don't crowd a fashionably dressed young lady with a bit tighter on. It makes her look like she was crawling out under the cover of an old-fashioned country road wagon.

There is no investment that pays as good percentage as judicious advertising, and there is no better advertising medium in the Juniata Valley than the JOURNAL. Try it, if you can.

Under the administration of our friend Lew Stewart, esq., the Prothonotary's office gives entire satisfaction. The fears expressed previous to his election were entirely unfounded.

We have the finest stock of wedding stationery this side of sundown, and we are prepared to get up wedding invitations in a style unsurpassed elsewhere. Call and see specimens and hear prices.

The late fresh brought the dip-net brigade to the fore, and the river's bank has been lined for several days past with the disciples of old Frank Walton, notwithstanding the law prohibits this kind of fishing.

The flock of tramps taken from a Pennsylvania railroad car, as reported in our last edition, cost Huntingdon county in the neighborhood of \$75. The tax-payers will not relish frequent repetitions of this sort of thing.

A chap passed down Fifth street, on Saturday afternoon, with such a huge shirt collar about his neck and ears that he reminded us of one of the old Comestoga wagons that plied the turnpike before the advent of railroads.

Messrs. Jeffers, Roberts & Co., South Boston, Va., writes: "I have used Dr. Bull's Cough Syrup and pronounce it the best medicine in use. A case of consumption here was cured by its use. We cheerfully recommend it to all sufferers."

We understand that the son of Mr. John Skeese, whose death we noticed last week, had been thrown from a horse and was the immediate cause of his death. He leaves a young wife and a large circle of friends to mourn his early taking off.

There are hundreds of homeless sparrows about town. See that boxes are put up for their accommodation. They should be protected and fed, and they will recompense you by derogating the early curlew and other insects that prey upon our fruits.

Every school teacher, in attendance at the Institute next week, should call at the JOURNAL STORE, before leaving town, and supply themselves with some of the handsome and cheap stationery to be had there. The cheapest and best in the county. Come and see for yourselves.

Dr. Stockton's Electro-Therapeutic Bath is commended by every one. It has been a vast benefit to those afflicted with chronic complaints, and who have tried it. It has the sanction of the medical profession and is really everything claimed for it. See advertisement in another column.

Our mutual friend, Dr. Aubrey Crewitt, has located at Rostriville, this county, where we do not doubt, he will be well patronized. The Rock Hill Iron and Coal Company have shown their confidence in him by employing him. He is a very worthy young man and deserves success.

A Philadelphia bummer, from Philadelphia, was arrested and imprisoned, at Reading, the other day, on the charge of enticing young girls from their homes under false pretenses. A whipping-post and a coat of tar and feathers would be the proper thing for such unmitigated scoundrels.

Miss Annie Hamlin's Lectures deserved to be much better patronized than they were—Huntingdon people can't get up to lectures some how or other, but they are some on a negro show. And we suppose this will remain the case until the school-house on the Hill is replaced by a new structure.

E. Wah, one of the Chinese hundred-year-olds of Pittsburgh, was mistaken by the action of the county on Fifth avenue since election day, and expressed himself thus: "Medican man mucbe noise, blowse in Timee boxes, and holle on tin trumpet. Chineseman no make damnee foolle out himself."

Judge O'urt, of Centre county, presided at our Court this week, in the absence of Judge Dean. We heard many complaints bestowed upon the Judge, by the members of the Bar, for his uniform urbanity and courteous bearing towards the profession. His manner of dispatching business was generally commended. He makes a very popular Judge.

It would be a paying investment for our borough officers to have large quantities of limestone, loaded to this place, before the close of navigation, and have them broken, ready for the streets, by the many tramps that promise to invade this town during the coming winter. We throw out the suggestion, and hope that our borough officials will consider the matter.

Miss Elizabeth Coldstock, one of our old and most respected citizens, died at her residence, corner of Fifth and Washington streets, on Friday morning last, in the 84th year of her age. "Aunt Betsey" was well known to everybody in this place, and her death, although expected for a long time, will be deeply regretted by her friends and numerous acquaintances. Peace to her ashes.

The planet Jupiter is now a brilliant object in the west in the early part of the evening setting about 7 o'clock. It may be readily recognized not far from the horizon, as far from its superior size and brilliancy, it is the brightest star visible in the heavens. Jupiter, since its opposition with the sun on the 17th of May, has been very favorably situated for observation in American localities, though unfavorably situated for European observers.

Last evening a son of Thos. N. Colver living between Alexandria and Petersburg, was on the way home to throw down hay, he found a shot-gun sticking in the hay. What this means is yet unknown. A shot bag containing a letter from Saml. R. Fox, inquiring after money and

interest which should have been paid by William Hamer. Whether this will result anything or not will show. The gun was loaded and the bag contained ammunition—Globe of Tuesday.

This is the season when housewives pack away butter for winter use, and a recipe may therefore be in order, which is said to be an excellent method of preserving it. It is to take one teaspoonful of pulverized saltpetre and one tablespoonful of pulverized sugar to every eight pounds of butter. Add half the usual quantity of salt, and pack in a stone pot. Cover with salt, about an inch in thickness, and then place a muslin cloth over the whole. By this means butter has been kept good from September until May.

Miss Fannie Hamlin, of Lock Haven, sister of Rev. R. B. Hamlin, D. D., formerly of this place, delivered her lecture on "Advertisements" in the M. E. church, on Thursday evening of last week, followed by her lecture on "That Rib or What Aint Sally Said," on Friday night. The lectures were very entertaining, full of practical suggestions, clothed in excellent language, and remarkably well delivered. Those who failed to hear them missed a rare treat. Her recitations of a number of popular poems were excellent and were extremely well received.

The biggest fraud of the nineteenth century is the Western Union Telegraph. Every election the company demands ten, fifteen or twenty dollars and then furnishes nothing; instead of accumulating its profits, when it charges from three to five prices, with the earliest news, except a large sum of money for which it returns no equivalent. As it now stands it is of no earthly use to the community at large. It is only patronized by men of means, and as far as the general utility of the people is concerned it might just as well be abolished. The people will never have cheap telegraph facilities until the government controls it. It does the work.

His Honor, John Dean, was married to Miss Ed. at Hollidaysburg, on Thursday, the 22nd inst. The members of the Huntingdon Bar, as a mark of their respect, sent the happy couple a splendid French clock mounted upon a pyramidal shaped block of solid black marble, height 18 inches, base 10 and depth 6. It strikes the half-hours, costs \$95 and is a very handsome testimonial. On the glass front it is etched:

HON. JOHN DEAN, of the Huntingdon Bar, November 24, 1876. An exchange says: "We observe that the greatest man after a newspaper is the one who is too mean to subscribe. It is always waiting for the latest paper, and it is not two minutes on the owner's premises till the subscription papers upon it are laid out upon the last line is read and then perhaps casts aside with the remark that 'he could make a better paper himself.' It can be called the 'newspaper friend' and there are others like unto him. One of these is the chap who steals newspapers from door steps, front yards and other eligible locations, and refuses to pay for it. All such will surely reap their reward—and it won't be an eye one."

Some knave or fool, or both, printed a number of bills and stuck them up calling for the assembling of the Democracy at the headquarters of the Tilden Club to organize a "Ride Club." The individual who did it had no more appreciation of his country's peril than the worst monarchism in an insane asylum. All we have to say is that the man who will attempt to arouse the big game laws and ride with the feelings of those who are already wrought up sufficiently to commit breaches of the peace, deserves an application of tar and feathers. No one knows what an hour may bring forth, and yet, in this critical moment, some one, with no more soul than a bone, thrusts a feather into the combustible mass and thereby imparts to the whole the feelings of those who are already wrought up sufficiently to commit breaches of the peace, deserves an application of tar and feathers. No one knows what an hour may bring forth, and yet, in this critical moment, some one, with no more soul than a bone, thrusts a feather into the combustible mass and thereby imparts to the whole the feelings of those who are already wrought up sufficiently to commit breaches of the peace, deserves an application of tar and feathers.

LADIES! LADIES! LADIES! LADIES! FURS! FURS! FURS! FURS!—Mink, Seal, Lynx and Arctic Mink, from \$2.50 to \$50.00 a set, at Harry Cohen's Clothing and Hat Store.

FASHION NOTES.—Costumes made entirely of plush are worn in Paris. Solid checks in wool are considered very dainty.

"Indian" goss has taken the place of French kilts.

Fashion calls for elaborately trimmed undere.

Black cashmere dresses are more stylish than colored suits.

The new creations are all pressed flat and do not fly open like ruffles, as was the case last season.

The Louis Quatorze habits, with square, flat basques and no drapery, are liked for rich dresses.

White cashmere, trimmed with silk or satin fittings, form a rich bridal dress for winter wear.

New rinking costumes show at each corner of the collar either the date of the year or the monogram of the wearer.

Square aprons are revived, made straight in front, almost as long as the lower skirt, and merely joined by the rows of bows.

Evening dresses are of the richest brocades silk combined with plain grain. Gazarde, is more popular than ever.

Glove kilts is coming into use for bonnets. A very few have been imported, but they are preferred by Parisiennes to the finest felts or even velvet.

The long seams in the back of dresses are varied. Some being at the shoulders and some at the arm-holes; the darts in front are close together and very short.

A pretty fancy about the neck of costumes, especially of polonaises and mantles, is that of making a pleated scarf and sailor loops of the black cashmere and lining it with cardinal floss.

A complete assortment of Trunks, Valises and Umbrellas, at the lowest prices, at Harry Cohen's Clothing and Hat Store.

HOLLOWAY'S PILLS AND OINTMENT.—Success the attribute of merit. Erysipelas and other dangerous diseases. It is popularly the best of all medicines, Holloway's Pills and Ointment are as surely the greatest remedies for any or all of the following diseases: Rheumatism, Gout, Gravel, Dropsy, Swelling of the Feet, Pains in the Back, Stiffness of the Joints, Numbness of the Limbs, Headache, Neuralgia, Toothache, Stomachic Disorders, Indigestion, Constipation, Liver Complaint, Biliousness, Skin Diseases,
