### KIDNEY COMPLAINT

Probably there is no complaint that afflicts the hum system, which is so little understood at the present tin as some of the varied forms of Kidney Complaints. There is no disease which causes such acute pain or m alarming in its results than when the kidneys fail to crete from the blood the uric acid, and other poisons substances, which the blood accumulates in its circutati substances, which the blood accumulates in its circulate, through the system.

If from any cause the kidneys fail to perform the functions devolving upon them, the cumulations are taken up the absorbents and the whole system thrown into state of disease, causing great pain and suffering, and we often immediate death. Hence the importance of keepir the kidneys and blood in a healthy condition, through which all the impurities of the body must pass.

PAIN IN THE BACK.

than the VEGETINE. It acts directly upon the sections and purifies the blood, and restores the weten to healthy action.

The following extraiordinary cure of great to the section of the tem to healthy action.

The following extraiordinary cure of great suffer who had been given up by the best physicians as hopel cases will speak for themselves, and should challenge most profound attention of the medical faculty, as well of those who are suffering from Kidney Complaint.

THE BEST MEDICINE.

East Marshfield, Aug. 22, 1870.

Mr. Stevens: Dear Sir—I am seventy-one years of ag have suffered many years with Kidney Complaint, we need in my back and stomach. I was induced by my friento try your Vecetike, and I think it the best medicine for weakness of the Kidneys I ever used. I have tried mar remedies for this complaint, and never found so much rilef as from the Vecetike. It strengthess and invigorat the whole system. Many of my acquaintances have tak it, and I believe it to be good for all the complaints f which it is recommended.

Yours truly,

JOSIAH H. SHERMAN, JOSIAH H. SHERMAN.

PRONOUNCED INCURABLE.

BOSTON, May 30, 1871.

H. R. STEVENS, Esq.; Dear Sir—I have been badly flicted with Kidney Complaint for ten years; have so great pain in my back, hips and side, with great din in passing urine, which was often, and in very small titles, frequently accompanied with blood and ex ting pain.

I have faithfully tried most of the popular ren both the same way, I would give a dollar dose, if I could not get it without. Respectfully, J. M. Gliff.

361 Third Street, South Boston.

NEARLY BLIND.

H. R. STEVENS: Deer Sir—In expressing my thanks to you for benefits derived from the use of Vegetine, and to benefit others I will state:—

When eight or nine years old I was afflicted with Scrofula, which made its appearance in my eyes, face and head, and I was very near blind for two years. All kinds of operations were performed on my eyes, and all to no good result. Finally the disease principally settled in my body, limbe and feet, andat times in an aggravated way.

Last summer I was from some cases weak in my spine and kidneys, and it was at times very hard to retain the urine. Seeing your advertisement in the Commercial, I bought a bottle of VEGETINE, and commenced using according to directions. In two or three days I obtained great relief. After using four or five bottles I noticed it had a wonderful effect on the rough, scaly blotches on my body and legs. I still used Vegetine and the humorous sores one after another disappeared until they are all gone, and nothing else.

If I am ever affected with any thing of the kind again I shall try Vegetine as the only reliable remedy.

Once more accept my thanks, and believe me to be, Very respectfully,

AUSTIN PARROTT.

## Farm and Household.

Can Sex be Procured at Will?

It has been for a long time a subject of auch disseussion among scientific men in he medical profession, to establish definmals, there could be any rule introduced whereby the production of the sexes could be regulated at will.

It appears that seience has at last, with malytical research and scrutinizing care, anlocked the door to these mysteries, and laid bare the simple means by which these nds may be accomplished.

Prof. Thury, of Geneva, has shown how nales and females may be procured in accordance with our wishes He says: "If you wish to procure females, give the male at the first signs of heat; if you wish males, give him at the end of the heat."

n practice, and Geo. H. Napheys, A. M., M. D., of Philadelphia, in one of his ecent works, says on the subject, that he has now in his possession the certificate of a Swiss stock grower, son of the President de Vaud, under the date of Febuary, 1867 which says: In the first place, on 21 suc-Miscrise of Impudence, Ancient, Ignorance and Errors,

The Author's Principles. The price of this book is only \$1.00.

This Book also contains MORE THAN FIFTY
PRESCRIPTIONS for the above named and other
diseases a case on warth more than the neige of have a new bull to supercede the one I had bought at great expense, without leaving to chance the productions of a male. So I followed accordingly, the prescription of Professor Thury, and the success has proved once more the truth of the law. I have obtained from my bull, six more bulls (Schrutz-Durham cross,) for the field work, and having chosen cows of the same color and height, I obtained perfect matches of oxen. My herd amounts to forty cows, of every age. In short, I have made in all, twenty-nine experiments after the new method, and in every one I succeeded in the production of what I was looking for-male and female. I had not one single failure. All the experiment have been made by myself, without any othert per-

> The same plan has been tried on the arm of the Emperor of France, with it is scertained, the most unvarying success, A Good Family Medicine. and we believe it has also been tested to ome extent, by parties in this country. There is a theory among agriculturists to the effect that the weather influences and determines the sex; dry and cold with northerly winds, producing among mares, ewes, and heifers, more males, while seasons of an opposite meteorological condition more females. The truth of this latter theory is difficult to prove, and is, besides based upon conditions that are beyond the control of human agencies, and therefore of little avail to mankind; but the former statement is, and being so simple in its operations, that the experiment can be tried by any one.

son's invention, and, consequently, I do

declare that I consider as real and certain-

y perfect the method of Prof. Thury."

### Saving Manure.

Probably but few farmers exist who

have not read articles in the papers advisng them to keep their stable manure under cover in a cellar under the stalls, or under a shed; but in both places dung is liable to become too dry, and the straw among it will not decompose as rapidly as it will when exposed to rains; or if much horse dung be mixed with it, or if it be all horse dung, it will "fire-fang," and will be greatly injured. A cellar under the stable stalls, into which all the manure and urine of the stock is received, is a good thing, but it would be a great deal better if the manure could be thoroughly wet once a month from a pump adjoining or near the cellar. The same can be said of manure under a shed when piled in deep; it must be kept moist, or it had better be kept in the open barnyard. Indeed, we are of the opinion that when a barn | SWAYNE'S OINTMENT. yad is made concave, with no drain to it, manure can be kept in it from fall to

DB. SWAYNE & SON. Gentlemen:—The box of Ointment
you sent me by mail cured me entirely of Itching Piles,
which I suffered with for five years. Enclosed find fifty
cents for another box for a friend of mine. think that much of the virtues of manure in open yards pass down into the soil, and in open yards pass down into the soil, and are lost; but such is not the case, as it will be found on removing it in the spring that the soil under it has not become colored by its injuges but two or three inches.

Dn. Swayne & Son:—Enclosed please find one dollar for two boxes of your Unitment for Itching Piles. These are for some of my friends who are as afflicted with this distressing complaint. The box you sent me a year ago used about one-half of it,) and I am glad, yes I am proud to say, it made a perfect cur. I think its efficacy should be published thrughout the length and breadth of the length and br ored by its juices but two or three inches deen. Now, we claim that if an abundance of litter be used upon the surface of READER: If you are suffering with this annoying cor the manure to retain moisture and to pre vent evaporation, all that a farmer makes can be as well preserved in his open barn-round as a vent evaporation. yard as under cover; and we would prefer to have our manure spread over the yard occasionally, and covered with straw, than to have it thrown into heaps by the stable door, and through windows back of the stalls, and so remain all winter, with much of its virtue washed away and lost

A GOOD WAY TO KEEP APPLES ONE YEAR.-Years ago, when we produced large quantities of fruit, we always kept apples in an excellent condition during the entire year. At a recent agricultural convention at Utica, N. Y., a quantity of HAVE YOU TRIED IT fair apples were exhibited which were plump, fresh and of good flavor, quite as good as the same kind of apples are ordinarily on the approach of spring. The apples had been put up in refuse boxes the year previous, and in the following man. ner: A layer of dry sawdust was sprinkled on the bottom of the box, and then a layer of apples placed in so that they do not touch each other. Upon this was placed a layer of sawdust, and so on until the box was filled. The boxes, after being packed in this way, were placed on the wall in the cellar, up from the ground,

Dr. Swayne's Medicines.

DR. SWAYNE, DR. SWAYNE'S

Compound Syrup of Wild Cherry and other valuable preparations, entered upon his professional career with the important advantage of a regular Medical Education in one of the oldest and best schools in Philadelphia, and, perhaps in the world. He subsequently served a faithful term of practice in the Philadelphia Dispensary, and for many years attended also in the Hospital. In these institutions he enjoyed the most ample opportunities of obtaining an insight into diseases in all their various forms, as well as for ascertaining the best methods of their treatment. In offering, therefore, to the people of the United States the fruits of his extensive professional experience in the medical compounds as the best results of his skill and observation, he feels that he is but proflering a boon to every family throughout the land, resting, as he does, confidently, in the merits and efficacions virtue of the remedies he herewith commends. The vast amount of testimony from all parts of the world has proven "DOCTOR SWAYNES COMPOUND SYRUP OF WILD CHERRY" the most efficacious remedy known, and it is admitted by our most eminent physicians, and all who have witnessed its wonderful healing properties. The WILD CHERRY in all ages of the world, and in all coun-The trath of this law has been sustained in curing all diseases of the throat, breast and DR. ANOTHER HOPELESS CASE

of Wild Cherry DR. SWAYNE & SON. Gentlemen:—About two years ago my wife was suffering from consumption, her cough at times was very distressing, and during her sickness had the best medical attendance in this and adjoining counties. Her case was pronounced hopeless by all of them. I was induced through the recommendation of your agent, Dr. Isaac H. Miller, of West Brecknock, Berks county, Pa., and who can verify these facts, to try Dr. Swayne's Compound Syrup of Wild Cherry. After using it for some time, she was entirely cured, and is now as well as ever, and fully able to perform her usual labor. I am so fully satisfied that it is to your preparation that I am indebted for her restoration to health, that I grant you full liberty to give her case publicity, in the hope that others now suffering may derive benefit from her experience.

Yours, respectfully,

HENRY G. MOHN.

# TO ALL! A Solemn Warning!

WE, B. OPENHEIMER & SONS,

tely whether in the higher order of ani- Compound Syrup of Wild Cherry in the interest of the people of Huntingdon county, see ourselves compelled to proclaim the following caution to all the trusting people of this county, and to open the eyes of the truth loving: It having come to our knowledge that a certain class of shop-keepers in this town considered themselves smart enough, as they are certainly unscrupulous enough in their means to attain a certain end, to pull the wool over the eyes of their former patrons, under a FALSE PRETENSE

of shielding them against us by warning them not to buy an inferior article than they sell, they try to get a high price for their goods. Why do they not act as men of uprightness and fairness would do, acknowledge equality of goods, and by trying to undersell us, compel people to buy of them? But they seem to have forgotten, if they ever knew it, that the straight path is the best, and instead they choose to follow the path of crookedness, with its natural consequences of falsehood, and blindness to all that common sense dictates. We are astonished to hear a man talk of shoddy trash who advertises one of the necessities of life, namely calico, one of the commonest trashes (to use his refined expression) the universe can boast of. It has been remarked to us that a man who offers the best Madder prints, an article which would be easily mistaken for a poor imitation of cob-web, must be either a knave, or a fool, or both. He either imagines he can fool his enlightened fellow-citizens with

SOFTWORDS and bland smiles, or thinks they are not able to tell the difference, which would bring him under the humbugs. Having probably been living in the city for a short time and listening to the harrangue of street peddlers, now tries to imitate their style and tricks on an enlightened public, by advertising an article, which he either never kept, or never intends to sell at the advertised price. As they have posted in the city

"BEWARE OF PICKPOCKETS!" we are to post up in front of such people's honses, BEWARE OF HUMBUGS! and would do a lasting favor to all our fellow citizens. As a wolf in disguise is difficult to detect, except by a practiced eye, but when in his true hide everybody will be forewarned and therefore forearmed. LISTEN! LISTEN!
