#### Medical. Three Points For Consideration.

During the past five years VEGETINE has been steadily working itself into public favor, and those who were at first most incredulous in regard to its merits are now its most ardent friends and supporters.

There are three essential causes for those having such a horror of patent medicines, changing their opinion and lending their influence toward the advancement of VEG, ETINE. 1st—1t is an honestly prepared medicine from barks, roots and herbs. 2nd—It honestly accomplishes all that is claimed for it, without leaving any bad effect on the system. 3rd—It presents honest vouchers in testimonials from honest, well known citizens, whose signatures are a sufficient guarantee of their carnestness in the matter. Taking into consideration the vast quantity of medicine brought conspicuously before the public through the flaming advertisements in the newspaper columns, with no proof of merit or genuine vouchers of what it has done, we should be pardoned for manifesting a small degree of pride in presenting the following testimonial from Rev. J. S. DICKERSON, D. D., the popular and ever genial pastor of the South Baptist Church, Boston. books select some treatise which will give the needed knowledge; and as the subject shall be mastered, follow up the course of study by other books, on subjects connected with, and bearing upon, his life's labor No man ever succeeded, who did not have an enthusiasm for his work. The love of habit of reading has once been formed, if

Dear Sir—It is as much from a sense of duty as of gratitude that I write to say that your VEGETINE—ven if it is a patent medicine—has been of great help to me when nothing else seemed to avail which I could safely use.—Either excessive mental work or unusual care brings upon me a nervous exhaustion that desperately needs sleep, but as desperately defies it. Night after night the poor, tired body sues for sleep until the day-dawn is welcomed back, and we begin our work tired out with an almost fruitless chase after rest. Now I have found that a little VEGE-TINE taken just before I retire gives me sweet and immediate sleep, and without any of the evil effects of the usual narcotics. I think two things would tend to make brain-workers sleep. 1st—A little less work. 2nd—A Mittle more VEGETINE. This prescription has helped meand Now I have a greater horror of being afraid to tell the straight out truth. The VEGETINE has helped me and I own it up.

VALUABLE EVIDENCE.

The following unsolicited testimonial from Rev. O. T Walker, D. D., formerly pastor of Bowdoin Square Church, Boston, and at present settled in Providence, R. I., must be deemed as reliable evidence. No one should fail to ob-serve that this testimonial is the result of ftwo years ex-perience in the use of VEGETINE in the Rev. Mr. Walker's perience in the use of VEGETINE in the Rev. Mr. Walker's family, who now pronounce it invaluable:

PROVIDENCE, R. I., 164 Transit Street.

H. R. STEVENS, Esq.:

I feel bound to express with my signature the high value I place upon your VEGETINE. My family have used it for the last two years. In nervous debility it is invaluable and I recommend it to all who may need an invigorating, reinvating tonic.

Formerly Pastor of Bewdoin Square Church, Boston.

THE BEST EVIDENCE.

The following letter from Rev. E. S. Best, Pastor of the M. E. Church, Natick, Mass., will be read with interest by many physicians: also those suffering from the same disease as afflicted the son of the Rev. E. S. Best. No person can doubt this testimony, as there is no doubt about the curative power of VECHTINE.

NATICE, Mass., Jan. 1st, 1874.

MR. H. B. STEVENS: MR. H. R. STEVENS:

MR. H. R. STEVENS:

Dear Sir.—We have good reason for regarding your VEGETINE a medicine of the greatest value. We feel assured that it has been the means of saving our son's life. He is now neverteen years of age; for the last two years he has suffered from secrosis of his leg, caused by scrotulous affection, and was so far reduced that nearly all who saw him thought his recovery impossible. A council of able physicians could give us but the faintest hope of his ever rallying; two of the number declaring that he was beyond the reach of human remedies, that even amputation could not save him, as he had not vigor enough to endure the operation. Just then we commenced giving him VEGETINE, and from that time to the present he has been continually improving. He has lately resumed studies, thrown away his crutches and cane, and walks about cheerfully and strong.

Though there is still some discharge from the opening Though there is still some discharge from the opening where his limb was lanced, we have the fullest confidence that in a little time he will be perfectly cured.

He has taken about three dozen bottles of VEGETINE, but lately uses but little, as he declares he is too well to be taking medicine.

Bespectfully yours,
