During the past five years VEGETINE has been steadily working itself into public favor, and those who were at first most incredulous in regard to its merist are now its most arden if friends and supporters. There are three essential causes for those having such horror of patent medicines, changing their opinion and lending their influence toward the advancement of VEG ETINE. Lat't is an honestly prepared medicine from barks, roots and herls. 2nd-1t honestly accomplishes all that is claimed for it, without leaving any bad effect on the system. 3rd-1t presents honest vonchers in testi monials from honest, well known cliftzens, whose signa three are a sufficient guarantee of their earnestness in the atter. Taking into consideration the vast quantity of medicine brought conspicuously before the public through the faming after trisenest in the newspager columns, with no proof of merit or genuine vonchers of what it has done, we should be parloaded for manifesting a small de-gree of pride in presenting the following testimonial from to UKERPENON D. LOSTON, March 16, 1574. H. R. STRVENS, Esq.: Dear Sir-It is as inuch from a sense of duty as of grati-tude that I write to say that your VEGETINE-even if it is a patent medicine-has been of great help to me when nothing else seemed to avail which I could safely use.-Either excessive mental work or unsual care brings upon me a nervons exhaustion that desperately needs iles, but as desperately defait i. Night after night the poor, tired body sues for sleep until the day-dawn is welcomed back, and we begin our work tired out with an almost fruitess chase after rest. Now I have found that a little VEGE-TINE taken just before I retire gives me sweet and mm mediate sleep, and without any of the evil effects of the usual narcoties. I think two things would tend to make have a gratering hor of "Patent Medicine," but I have a greater horror of being afraid to tell the straight out ruths. The VEGETINE has helped mean I own it up. NATICE, Mass, Jan. 1st, 1874. MR. H. R. STEVENS: Dear Sir—We have good reason for regarding your VEG-ETINE a medicine of the greatest value. We feel assured that it has been the means of saving our son's life. He is now seventeen years of age; for the last two years be has suffered from necrosis of his leg; caused by scrolulous af-fection, and was so far reduced that nearly all who saw him thought his recovery impossible. A council of able physicians could give us but the faintest hope of his ever ralilying; two of the number declaring that he was bey not hor save him, as he had not vigor enough to endure the operation. Just then we commenced giving him VEGE-TINE, and from that time to the present be has been con-timually improving. He has lately resumed studies, thrown away his cratches and cane, and walks about cheerfully and strong. MR. H. R. STEVENS:
