Miscellaneous.

The Testimony of the Whole World. HOLLOWAY'S OINTMENT.

MARK THESE FACTS

BAD LEGS, BAD BREASTS, SORES AND ULCERS. All descriptions of sores are remediable by the proper and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges of the wound together is a folly; for should the skin unite, a boggy diseased condition remains underneath to break out with tenfold fury in a few days. The only rational and successful treatment, as indicated by nature, is to reduce the inflammation in and about the wound and to soothe the neighboring parts by rubbing in plenty of the 0intment as salt is forced into meat. This will cause the malignant humors to be drained eff from the hard, swollen and discolored parts round about the wound, sore, or ulcer, and when these humors are removed, the wounds themselves will soon heal; warm bread and water poul-tices applied over the affected parts, after the Ointmont has been well rubbed in, will soothe and soften the same, and greatly assist the cure. There is a description of ulcer, sore and swelling, which need not be named here, attendant upos the follies of youth, and for which this Ointment is urgently recommended as a sovereign remedy. In curing such poisonous sores it never fails to restore the system to a healthy streif it the Pilis be taken according to the printed distructions.

DIPTHERIA. ULCERATED SORE THEOAT AND All descriptions of sores are remediable by the proper

DIPTHERIA, ULCERATED SORE THROAT, AND SCARLET AND OTHER FEVERS. Any of the above diseases may be cured by well rub Any of the above diseases may be cured by well rub bing the Ointment three timess day into the chest, throat, and neck of the patient, it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at ouc. Whoever tries the unguent in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved as by a charm. All sufferers from these complaints should envelop the throat at beddime in a large bread and water poultice, after the Ointment has been well rubbed in; it will greatly assist the cure of the throat and chest. To allay the fover and lessen the inflammation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, the grand essential in all cases of fevers, sore throat, or where there might be an oppression of the chest, either from asthma or other causes. PILES, FISTULAS, STRICTURES.

PILES, FISTULAS, STRICTURES.

The above class of complaints will be removed by nightly fermenting the parts with warm water, and then by most effectually rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for a considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the rubbing in of the Ointment, will do great service. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing down.

INDISCRETIONS OF YOUTH; -SORES AND ULCERS Blotches, as also swellings, can, with certainty, be radi-cally sured if the Ointment be used freely, and the Pills taken night and merning, as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being.— It will require time with the use of the Pills to insure a lasting cure. DROPSICAL SWELLINGS, PARALYSIS, AND STIFF

Although the above complaints differ widely in their origin and nature, yet they all require local treatment.— Many of the worst cases, of such diseases, will yield in a comparatively short space of time when this Ointment is diligently rubbed into the parts affected, even after every other means have failled. In all serious maladies the Pills should be taken according to the printed directions accompanying each box. hould be taken accord ompanying each box.

Both the Ointment and Pills should be used in the follow Bad legs,

Send along your work, and see what we can do.

- COLOR PRINTING A SPECIALTY. -

All business letters should be ad J. R. DURBORROW & CO.

The Muses' Bower.

The Two Mesteries. "In the middle of the room, in its white coffir "In the middle of the room, in its white colan, lay the dead child, a nenhew of the poet. Near it, in a great chair, sat Walt Whitman, surrounded by little ones, and holding a beautiful little girl on his lap. The child looked curiously at the spectacle of death, and then inquiringly into the old man's face. 'You don't know what it is, do you, my dear?' said he, adding, 'We don't either.'"

"I will not. Why should I? It is

better than your own life?"

"Aye! who was she?"
