## THE SCIENCE OF LIFE;

Or. SELF-PRESERVATION. MORE THAN ONE MILLION COPIES SOLD. Gold Medal Awarded to the Author by the "National Medical Association," March 31st, 1876.

JUST published by the PEABODY MEDICAL INSTI-TUTE, a new edition of the colebrated medical work entitled the "THE SCIENCE OF LIFE; or, SELF PRES-ERVATION." It treat upon MANBOD, how lost, how regained and how perpetuated; cause and cure of Exhaus-ted Vitality, Impotentry, Premature Decline in Man, Spermatorthesa, or Seminal Losses (nocturnal and diur-nal), Nervous and Physical Beblity Hypochondria, Gloomy Forebodings, Mental Depressions, Loss of Energy, Hag-gard Countenance, Confusion of Mind and Loss of Memo ry, Impure State of the blood, and all diseasee arising from the Errors of Youth or the indiscretions or excess of mature years.

### VEGETINE

VEGETINE

VEGETINE

Is now prescribed in cases of Scrofula and other diseases of the blood, by many of the best physicians, owing to its great success in curing all diseases of this nature. VEGETINE Does not deceive invalids into false hopes by purging and creating a fictitious appetite, but assists nature in clear-ing and purnying the whole system, icading the patient gradually to perfect health.

VEGETINE

gard to its merit are now its most ardent friends and sup VEGETINE

VEGETINE

PROOF

WHAT IS NEEDED.

Boston, Feb. 13, 1871. Mr. H. R. Strukes:

Dest Sir-Alvatione year since I found myself in a feeble condition from general debility. VEGETINE was strongly recommended to me by a friend who had been much benefited by its use. I procured the article, and after using several bottles, was restored to health and discontinued its use. I feel confident that there is no medicine superior to it for those complaints for which it is especially prepared, and would cheerfully recommend it to those who feel that they need something to restore them to perfect health.

Bespectfully yours.

I. PETRINGILL

Firm of S. M. Pettingill & Co., 10 State st., Beston Mr. H. R. STEVENS

CINCINNATI, Nov. 26, 1872. Mr. H. E.STEVENS: Dear Sir—The two bottles of VEGETINE furnished me

Dear Sir—The two bottes of VEADELING turnshed me by your agent, my wife has used with great benefit. For a long time she has been troubled with dizzines and contiveness? these troubles are now entirely removed by the use of VEGETINE. She was also troubled with Dys-pepsis, and General Debility, and has been greatly benefit-ed. THOS. GILMORE, 229½ Walnut ttreet.

FEEL MYSELF A NEW MAN.

Mr. H. R. Stevens:
Dear Sir—Through the advice and carnest persuasion of Rev. E. S. Best, of this place, I have been taking VEC E-TINE for Dyspepsis, of which I have suffered for years.
I have used only two bottles and already feel myself a new man.

Respectfully,
BE. J. W. CARTEE. NATIC, Mass., June 1, 1:72.

REPORT FROM A PRACTICAL CHEMIST AND APOTHECARY.

Boston, Jan. 1, 1874.

Dear Sir.—This is to certify that 1 mave such at retail 1511/2 dozan (1882 bottles) of your VEGETINE since April 12, 1870, and can truly say that it has given the best satisfaction of any remedy for the complaints for which it is recommended that I ever sold. Scarcely a day passes without some of my customers testifying to its merits on themselves or their friends. I am perfectly cognizant of several cases of Scorfolous Tumors being cured by VEGETINE alone in this vicinity. Very respectfully yours, AL. GILMAN, 408 Broadway. TO H. R. STEVENS, Esc.

Prepared by H. R. Stevens. Boston, Mass.

VEGETINE IS SOLD BY ALL DRUGGISTS. COME TO THE JOURNAL OFFICE

Such farmers are poor, and will remain so to the end of their day. and will remain so to the end of their day.

# Farm and Household

Moths in Clothing.

The moth is a decidedly formidable en-

emy in a house; for, tiny mite though it is, it will prove ruinous to all woolen stuffs. such as blankets, flannels, curtains, carpets and clothing, as well as furs and feathers. These are the suitable materials for its nest, and in them it deposits its eggs; whence in due season issue the larvæ which will feed upon them. Then small circular holes are eaten by them, which destroy the beauty of the material and render it worthless. It is often believed that moths generate in clothes that are laid by simply by their being shat up in dark, close places; and, therefore, in the spring, when the moth millers are plenty, the clothing is taken out to be aired, and thus good opportunity given to them to deposit their eggs upon the gar-

aired, and thus good opportunity given to them to deposit their eggs upon the garments, etc. If they were entirely kept from their approach, no caterpillar, or larvæ of the moth, which does the mischief, could touch the articles.

Some of the worst and most distressing deservating and the speciments of that was never fally ascertained until the experiments of that skillful physician, Dr. Swayne, had demonstrated its high adaption, in combination with Pine Tree Tar, and in other than the worst and skillful physician, Dr. Swayne, had demonstrated its high adaption, in combination that the representation to the description of the properties and fairness would do, activation to the properties of the properties and fairness would do, activation to the properties of the properties and fairness would do, activation to the properties of the properties and fairness would do, activation to the properties of the properties and fairness would do, activation to the properties of the properties and fairness would do, activation to the properties of the properties of the properties of the properties and fairness would do, activation to the properties of the pro

dusting them over with red pepper or putting camphor gum among them.—S. O. J. in Country Gentleman.

Broken Legs in Animals, one of the hind legs, and was treated as confering as Swarner for and Sarsmarilla Dila. Price follows, with complete success. The cow street, Philadelphia. For sale by all Druggists. was laid down upon its side, with the in. jured leg extended. The broken bones were properly placed, and a piece of canton flannel cut to fit the limb, was wetted and applied. A bandage 21 inches wide, (this should be previously made into a roll, with the ends of the strips sown together) soaked with water, was then wrapped smoothly from the foot upwards upon the leg, some distance above the fracture. This was coated with freshly mixed Plaster of Paris (calcined plaster) and water, and six other bandages and alternate coatings were applied, until the leg was en-

closed in an immovable envelope as the plaster became set. The cow was kept down until the plaster was hard, when she arose and required no further attention until the bone was properly united.—
This method of curing fractured limbs has long been in use in hospitals, and the has been permanently cured by singly applying she arose and required no further attensurgeon who applied it in this case does not probably claim it as his discovery, as is attributed to him. We have mended broken legs of fowls, sheep, and calves in a similar way, using common paper saturated in ordinary starch as prepared for the laundry, over the cloth bandage, and covering it with strips as above. Sufficient for two boxes of your oliment for Itching Piles. These are for some of my friends who are afflicted with this discressive some of my friends who are afflicted with this discressive some of my friends who are afflicted with this discressive some of my friends who are afflicted with this discressive some of my friends who are afflicted with this discressive some of my friends who are afflicted with this discressive some of my friends who are afflicted with this discressive some of my friends who are afflicted with this discressive section.

Newspapers will answer as well as brown paper. When the paper is dry it is as paper. When the paper is dry it is as firm as a board. If small animals may be thus treated, larger ones may be also, if careful precautions are used .- American

### Why Some Farmers are Poor.

The greatest agent to produce poverty among farmers or any other class, is debt. Many farmers will get a deed of a small piece of land, enough to support themselves and families, and lay by a small anqual income. But this is not sufficient They run in debt for more land, and be come a slave to debt. They pay interest on money borrowed, which will soon consume the little property they possess. They often pay higher than ten per cent. Such proceedings engender a spirit of discontent, and they lose faith in farming, and try to sell their farms in order to get to town and enter other business. In nine cases out of ten, every farmer who is doing well, but goes to town, fails outright. Having no faith in farming, or breath of understanding, they buy the poorest tools and meanest stock, and drive poor teams before poorer wagons and agricultural machinery. In the fall and and winter they feed po orly, just enough to get their live stock through the winter into spring. Then it takes all the summer to put on that flesh that was lost in the winter by poor shelter and bad food. They never put out fruit or shade trees on their farms. They always sell their best lambs and cat tle to the drovers, and keep the poorest at home. They send their children to school but little, as too much learning is a dan gerous thing. They do not take agricultural papers, or believe in book-farming. They never give their children a cent of spending money, as it makes them extravagant, and they may become spendthrifts. In short, they are the most miserable peo-
