VEGETINE

Strikes at the root of disease by purifying the blood, restoring the liver and kidneys to healthy, action, invigorating the nervous system.

VEGETINE

Is not a vile, nauseous compound, which simply put the bowels, but a safe, pleasant renedy which is surpurify the blood, and thereby restore the health. VEGETINE

Is now prescribed in cases of Scrofula and other diseas of the blood, by many of the best physicians, owing to i great success in curing all diseases of this nature. VEGETINE

Does not deceive invalids into false hopes by purging an creating a fictitious appetite, but assists nature in clear ing and purifying the whole system, leading the patien gradually to perfect health. VEGETINE

Mr. H. R. Stevans:

Dear Sir—Ab-ut one year since I found myself in feeble condition from general debility. VEGUTINE was strongly recommended to me by a friend who had been much benefited by its use. I procured the article, and at crusing several bottles, was restored to health and discontinued its use. I feel confident that there is no medicine superior to it for those complaints for which it is er pecially prepared, and would cheerfully recommend it those who feel that they need something to restore their to perfect health. Respectfully yours.

Those persons who are not dismayed by a great array of figures, and do not object to making calculations, may profitably ponder over the following bill of particuars: "The cash value of the annual farm products of the United States is over \$2,-450,000, while the value of all the live stock, including horses, mules, cattle, sheep and hogs, was on the 1st day of February, 1872, \$1,659,211,935, or about A Good Family Medicine. \$30,000,000 less than the annual farm products. To protect this \$2,450,000,00 worth of growing crops from being destroyed by the \$1,659,211,935 worth of live stock, we have built 919,190,428 rods of fence, enclosing 2,050,505,614, acres of ground, with an average of 64 rods per acre, costing \$1,03 per rod, or \$6,48 per acre, making a total cost of \$1,748,529,-485, or about \$89,317,192 about the value of all the live stock. The annual decay per cent. of the original cost of the fence, or \$174,852,918; interest at 7 per cent. per anumn, \$132,397,042; total annual cost \$297,240,960. But this is not all. A fence occupies and wastes an average of one half rod wide, or one acre for every Was looked upon as an experiment for some time by some of our best physicians, but those most incredulous in regard to its merit are now its most ardent friends and supporters.

The gross profess. proceeds, per acre, for the cultivated grounds in the United States for the year 1871, amounted to \$9.78. Call it \$9 per acre, and taking two thirds as the cost of cultivation we have \$3 as the net proceeds per acre, which would show an annual loss of \$150,303,368, which added to the annual cost to settle up and develop the country, gives those who improve and culivate the land the heaviest burdens of taxes to pay, and they expend more than all the stock in the country is worth to fence in their crops, and to give free range to the stock owners, who need not own or improve, or pay taxes upon a single acre. But people are beginning to believe that, when they have bought a piece of land, and paid for it, and paid taxes upon it, they ought to own the land, and the crops SWAYNE'S OINTMENT. grown thereon, and be protected in their right to do with it as they please, providing that nothing which they do, or grow, or keep, shall interfere with the right of

It rapidly absorbs the fluid, deadens the flame, and can be rapidly gathered up and thrown out of doors when the fire is out.

PLOWING AN ACRE. - An acre is a day's work for a man and team; that is not as some plow, who make their furrows as crooked as a fence worm, and from two to six inches deep, and eighteen to twenty inches wide; but when it is done right, an acre is a day's work. Straight furrrows from seven to ten inches deep and about a foot wide will look right after it is done. A man and a team ought to be worth three and a half dollars per day; the cost of plowing an acre of ground .- Ohio Farmer.

AT SHAFFER'S NEW STORE. THE subscriber would respectfully inform his old friends and customers, that he has just received from the East a large and well referred duck of Boots and Shees, for men, women and children, which he is prepared to rell a tride lower than any other establishment in force. Being a practical shoetnaker, and having had considerable experience, he flatters himself that his stock cannot be surpassed in the county.
