M. Synher's removal, the town has lost the standard of the road at the log and was thrown down as the standard of the road at the r precipice and killed. It appears that the Supervisor had let the road out for repairs to the lowest bidder, who had given bond to fulfil two ardent supporters and co-workers, and lowest bidder, who had given bond to fulfil two ardent supporters and co-workers, and lowest bidder, who had given bond to fulfil two ardent supporters and co-workers, and lowest bidder, who had given bond to fulfil two ardent supporters and co-workers, and lowest bidder, who had given bond to fulfil two ardent supporters and co-workers, and lowest bidder, who had given bond to fulfil two ardent supporters and co-workers are constant. society is deprived of two among its brightest ornaments. While we reluctantly part with the Supervisor from responsionity, the bond ornaments. While we remained the good having stipulated to save the township from all accidents. The court, however, decided people of Huntingdon on the fact that Mr. Sypher and family have cast their lot in that ancient village, where, we hope, their oppor-tunities for doing good, will be commensurate prevented a county road was not required to be opened its full width. But it appears that Reveille.

HOLLOWAY'S PILLS AND OINTMENT.-The Onward March of truth—Why is it?— The great doctrine announced some fifty years back by Dr. Holloway, that the stomach, the liver and blood are the founts of disease, is ow universally admitted, his greatest oppo nents having become his staunchest support ers. The reason is obvious; millions were afflicted with Dyspepsia, Liver plaint, Billiousness, Sick Headache, Debility cured by a thorough course of his famous Pills while others have been healed of scurvy, old sores, bad legs, scrofulous bumors, glandula swellings, tumors, asthma, bronchitis, &c., by tment and Pills, when all other mean had failed. Such is the progress of truth and

the triumph of reason. VERDANT GREEN'S ADVENTURES .-We have just received this irresistible funny book, by CUTHBERT BEDE, and if "every laugh pulls a nail from one's coffin," the readers of this book will have no need of the undertaker if you want one cheap. many a long year. VERDANT has the hap py faculty of meeting with more "adventures; and more amusing ones, than ever before fel to the lot of mortal man. And the story is made additionally attractive by 150 humorous engravings.

THE EIGHTY-FIRST COUNCIL .-- At the ceeting of the Town Council, on Monday last, tol. Dorris, who has so ably filled the office of thief Burgess, upon vacating that position, made

he following remarks: GENTLEMEN OF THE COUNCIL: At the close of our official relations it would be, perhaps, more fitting to have an inaugural address from my successor, to have an inaugural address from my successor announcing his policy and plans for the manage ment of the affairs of the borough for the present year, but imitating the example of my predeces sor, Senator Fisher, I desire to say a few word before the pleasant relations which have brough us together during the last three years shall terminate. The debt of the borough at the present time is

as follows: The bonded debt is \$5900, consisting of five bonds of \$1000 each to Joseph Watson, the interest on which has been paid to 1st February, 1877. Two of these bonds are over due, one on August 1875, the other 1st August 1876. A third will be due next August 18.6. A honds to David Speck, Mary Whiteside, John Carmon, Emiliene Richard and Ephraim Chilcom, amounting in the aggregate to \$3900, interest on which has been paid to the 1st of March. Outstanding orders unpaid amount to \$827.46, making total debt \$9727.46.

The last bond given for the Steam Fire Engine has since been paid on account, and the residue will be paid by the Treasurer within one month.

There is still uncollected on last year's tax duplicate about \$3000, which will be sufficient to pay the balance due Silsby Manufacturing Company, and the two over due Watson bonds.

In view of the growth of our borough, and the tope that it may become the centre of important nanufacturing interests, I would respectfully call our attention to what I consider its most pressing ant—An abundant Water Supply. We cannot ecome an important manufacturing town with the Women's, Misses', Youth's and should have the safe-guard which water works

should have the safe-guard which water works alone would give.

It is proper that I should call your attention to the fact that in a body composed of twelve members, two of our number have been removed by death during the last year—Prof. Stephens and Mr. Massey. When I first became a member of the council, three years ago, nothing impressed memore than the carnest, painstaking work accomplished by Prof. Stephens. Had he been the recipient of a large salary, if his whole time had been devoted to the interests of the borough. he ore than the carnest, painstaking work accomplished by Prof. Stephens. Debility, whether it be inherent, or caused by overtaxed strength, or protracted illness, has a most depressing influence upon the mind, breeding an abject melancholy nearly akin to despair, and enforcing the abandonment of cherished projects and high hopes. Happily, the enfeebled system, even in extreme cases, is susceptible of invigoration. It is proved by incontrovertible evidence that Hostetter's Stomach Bitters is an unfailing strengthener of the weak, and that in addition to vitalizing the physical organization, it establishes regu-larity among those organs upon whose efficient discharge of the duties imposed on them by nature, continued vigor and health depend. Thousands of instances might be cited to show the regenerating influence of this health-giving agent in cases of debility, liver disease,
