It had enlisted again to the plane of count and homest under its banners an influential class of representation. I nevise that you main under its banners an influential class of native born citizens of old whig antecedents, who, to their honor be it said, still remain faithful to the principles they espoused and the government they supported. THE PRESIDENT'S COMMISSION.

I telegraphed this fact to President Hayes, asking him if this was a violation of the statu quo, and if not whether a release of these men by force, all civil remedies having been exhausted, would be so considered. The President replied :-"Your dispatch of the 24 is received. The Secretary of War has telegraphed to General Augur. A commission will shortly visit Louisiana. In the meantime the President desires that the situation remain

unchanged." The Commission came. In the mean time the Nicholls government had crystal-ized into shape. So far from permitting will tell you the end of ambition. The the situation to remain unchanged, it had broken into the tax collectors office of the city, had taken forcible control of State institutions, and had strengthened itself on all sides. Notwithstanding this, however, the Commission found the legal Legisla-ture still in session at the State House, and my title unassailed and unassailable. except by force The result of their labors during the two weeks they remained here is known of all men. They induced a number of members of the legal House of Representatives to take seats in the Nicholls house, thus giving it a Returning Board quorum.

Prior to the meeting of the Legislature the democrats claimed to have elected only sixty members of the House-one less than a quorum. One, at least of the members so claimed by them was absent on the 1st of January last. No republican or independent leader would consent to act with the Nicholls House, and consequentof organization, they had been compelled to call to their aid three men defeated at the polls, whose election had not previous-

Had the General Assembly continued in session at the State House I should have deemed it my duty to have asserted and defended my government to the last, not-withstanding the withdrawal of the troops; but with the Legislature disintegrated. and no prospect of present success.
