LIFE INSURANCE.

Another Life Insurance Company has gone up. The "American Popular," a company organized for taking graded risks, passed into the hands of the State Committee, and a most frightful degree of rottenness was shown. False entries, false of rottenness was shown. False entries, false swearing, false everything was developed, and the officers are to be prosecuted. It is to be hoped that the law can reach these swindlers, and that a life insurance President may be added to the State's collection of criminal curiosities. The good companies are suffering from these exposes, but they are nevertheless glad. It will be the better for the interest for a time, but it will be the better for the really good ones when confidence is furthy treature.

really good ones when confidence is finally restor-ed, as all the frauds will be out of the way. They will not be exposed to the unhealthy competition of the frauds, who never expect to pay, and who therefore can do business for nothing.

## HOW THEY LIVE.

There are at the present time one hundred thousand men in the city of New York who live, without labor. They are nuisances in the worst sense of the term, for every mouthful that goes down their throats is paid for by some one cise. They make no pretence of work, but, filth and impudent, they stand on the streets and beg for charity, when they lack an opportunity to steal safely. You see them everywhere on the streets, the offices and stores are infested with them, each with his story of a "family to support, and no work sor," and a curse if you refuse them. And there are as many women as men and more chil-dren than either, engaged in the same calling. Women will sit by the hour on curb stones, with a Express.
