In its present position it is of no more use than a fifth wheel would be to a wagon, for not one person in five hundred will ever see it, and if some unfortunate passerby should chance to see it and undertake to read it the chances are ten to one that he will dislocate his neck in his efforts to do so. If the money spent for these cards had been judiciously expended in newspaper adventising it would have yielded ten times the court House, on Wednesday night, several of our heavy men were unable to get in. This is bad, but there will be another chance this (Friday) evening. Get your roll ready. Let the Spinners spin.

Religious services were held in the open air, advocated the holding of open air meetings, believing that some good could be accomplished by them, but for some reason the proposition did not seem to meet with favor, and there was no effort made in that direction. Now, since street meetings have been inaugurated. we hope they will continue every Sunday afternoon during the Summer. Quite a large congregation was in attendance on Sunday afternoon, and every one present seemed to be deeply interested in the exercises, and many, we have no doubt, went away feeling that it was "good for them to be there."

WHO IS THE FRAIL ONE ?-The Johnstown Tribune of the 26th ult., contained a long article relating to the doings of one of "Eve's frail daughters," and calls upon the Hunting-don papers to throw some light upon the subect. As far as we are concerned we have een unable to learn anything that will lead to the identification of this fair one who has,

ruary a gentleman well on towards sixty years of age, who registered as George Brown, from Tyrone, arrived at the Mansion House, having in company with him a fair yeung woman of perhaps eighteen or twenty years of age. He stated that the lady was the wife of a gentleman named Scofield, who recently moved from Tyrone to Lincoln, Kansas, where he was engaged in farming, and that in January he sent word for his wife to come on and join him. She started on the journey, her uncle, Mr. Brown, intending to accompany her as ruary a gentleman well on towards sixty years of far as Pittsburgh, but as she was at that time, as he alleged, near her confinement, he deemed it prudent to stop off here until after her child would be born. For this reason he wished to make a contract for her board for a few weeks. Mr. Shoemaker consented to an arrangement by which she could take up lodging in the hotel, and next day Mr. Brown left, after depositing the money for two weeks board in advance. In regard to the cost he said under the improved Belgian plan it could be produced for 75 cents per foot at furthest. It is now selling at from 90 cents to \$1.20 per foot. The American works only produce six per cent. of the demand of the country, and the balance is imported principally from Belgian, England and France.

The great mistake made in America was in locating the works incovenient to the raw material, and on the whole, Huntingdon presents very many advantages for bringing these materials together, and for transportation. The note was drawn for eight months, and falling due on the lst instrand not being promptly paid, it was sent to Geo. B. Orlady, esq., of our town, for collection. Mr. Orlady had it entered in the Prothonotary's office in Bedford county, and upon Mr. Cessna being informed that such a note was in existence, pronounced it a forgery so fied the Republic and Webster commanded its

A DEAD INFANT FOUND .- On Monday week ago, while some children were playing in the woods on the farm of Mr. Martin, in Porter township, they found the remains of a dead infant secreted beneath a slight covering of leaves and brush. They immediately made the fact known, when an inquest was held by Esquire Collum, of our town, resulting in a verdict that the child had been born alive and that it died from exposure and neglect. A young woman named Mary Kyler was arrested and committed as being the guilty mother, but she stoutly denies any knowledge of the affair. As the case will undergo judicial in-vestigation we forbear making any further

The unabridged contains 3,000 illustrations, over 14,000 words in its vocabularies, and 10,000 words and meanings not in any other Dictionary: the abridged editions comprise "The Primary," which has the largest sale, and which has some capital rules for spelling. "The Common School" is similar, but larger, with tables of synonyms, &c. "The High School," still fuller with many useful tables; "The Academic" and "Counting-house" for advanced schools and for general home and business use. The latter has some specially valuable commercial and financial tables. The little "Pocket" edition, with its bright gilt edges and morrocco birding, is truly an invaluable pocket companion. It contains more than 18,000 words, rules for spelling, many abreviations, words and phrases, proverbs, etc., ordinarily met with in the Greek, Latin and Modern languages. Whether it is convenient or not to have copies of any of the tooks of the series, we certainly recommend that all should possess a copy of the Pocket, which, when not otherwise obtainable may be had by mail, by enclosing \$1.00 to the publishers, Messes.
