NEGOTIABLE PAPER .- An Important Opinion by the Supreme Court.—Foliowing is the opinion of the supreme court (Judge Sharswood) in the case of Woods vs. North error to the court of common pleas of Hun-tingdon county:

This, in reason, and the usuage of the legal profession, depends upon the amount of the note. Five per cent. would probably be considered by a jury as a reasonable compensa-tion upon the collection of a note of three hundred and seventy-seven dollars. But if it were three thousand dollars they would probably think otherwise, and certainly so if it were thirty thousand dollars. Now, then, can this note be said to be certain as to its amount, or that amount unaffected by any contingency?

Interest and costs of protest, after non-pay-

ment at maturity, are necessarily legal inci-dents of the contract, and the insertion of them in the body of the note would not affect its negotiability. Neither does a clause waiv-ing exemption, for that in no way touches the simplicity and certainty of the paper. But a collateral agreement as here, depending, too, as it does, upon its reasonableness, to be determined by the verdict of a jury, is entirely different. It may be well characterized, like an agreement to confess a judgment was by Chief Justice Gibson, as "luggage," which negotiable paper, riding as it does, on the wings of the wind, is not a courier able to

carry.

If this collateral agreement may be introduced with impunity, what may not be? It is the first step in the wrong direction which

up with all sorts of stipulations, and all sorts of difficulties, contentions and litigation results. It is the best rule obsta principies. supreme court will be to relieve endorsers of notes on which there is the printed stipulation that five per cent. collection fee shall be allowed. The supreme court holds that this clause destroys the negotiability of the paper so far as the endorser is concerned. The incoporation of that clause in mortgages and bonds has been held to be legal, and in view of this fact it has been supposed by bankers and others that negotiable notes would not be impaired by having it introduced into them. Thousands of these notes have been given the past few months and the decision of the supreme court (reversing the judgment of the Huntingdon county court in a case raising the coursion of the huntingdon the court in a case raising the court of the prograinability of such paper. the question of the negotiability of such paper) will, in numerous instances, seriously affect the interest of those who have loaned money on these notes. It is said that several millions of this kind of paper are held by bankers and

THE CAUSE OF COAL OIL ACCIDENTS. -In concluding an account of a fatal kerosene accident the Philadelphia Times deals as fol-lows with the cause of them: The greater number of accidents are due to the ignorant or careless use of the article. In the present season the oil is subjected to great heat dur-ing the day, and if the lamp is half full, as is usually the case after an evening's consumption, an explosion or at least an ignition is likely to occur. Many who use oil, being unable on account of poverty to meet the expenses of using gas, place the half-filled lamp behind a hot stove where it is suffered to remain during the day, the unfilled portion becoming packed with gas. Besides, many of the burners in use are unsafe. They contain hollows which become filled with gas, and the little holes that are usually made to permit it. little holes that are usually made to permit it to escape are allowed to clog with dirt. Some careless persons fill the lamp while the burner is hot and the wick still lighted, which is decreased to the least even if the flows is Call at the chean store, corner 8th a is hot and the wick still lighted, which is dangerous to say the least, even if the flame is held a considerable distance from the lamp. The Shade Gap Tragedy. CONVICTION OF THE PRISONER. Murder in the Second Degree.

> der of Dr. J. A. Shade, reached a final termination on Saturday evening last, the conviction of the prisoner of murder in the second degree. From its commencement to its close, just twelve days were occupied in the trial of the case and some 164 witnesses were exam-ined. In regard to the length of the trial, the amount of testimony on both sides and the pe-

case was fully, fairly and vigorously tried, no amount of industry, research or oratory being spared, and the verdict as rendered seems to meet with popular approval. The undisputed facts, as elicited by the evidence, seem to be about as follows:

Cresswell A. Reese the prisoner and perpetrator of the murder, is a young man, in the prime of life, of fine physique and prepossessible note may be made payable with interest from its date, and if more than lawful prime of life, of fine physique and prepossessing appearance, now in the 30th year of his age. He was born and reared at or near the
