THE CROP PROSPECT. It is curious, but the Mercantile Reporters know nore about the erops than do the men who grow them. Dun, Barlow & Co. report that the wheat crop in the West will make an average of twenty-five bushels to the acre, and that the other crops promise an equally large yield. If this be the case, and they know the yield will be simply enorcase, and they know the yield will be simply enormous, and there is no reason why the West should
not be enormously rich, this season. And it will
not be a big crop with no price to it. The granaries in this country are bare and the Crimes, the
great competitor of America in grain-producing, is,
this season, practically barred out. The Turkish
war has shut that off, and America has this year,
to feed the world. Hence there cannot be that the acre with the price the same that it would simply preposterous! Necessity knows no | West will be made rich this year, and there cannot

but be general prosperity.

THE LABOR TROUBLE Is entirely over. The demagogues who attempted to excite the tramps and thieves to a riot failed signally, and the city is as quiet as a mill-pond. The credit for this is due, entirely, to the Mayor and the police. Twenty-six hundred men thoroughly armed, were on duty all of last week as oughly armed, were on duty all of last week as policeman, and all the militia regiments of the city were at their posts. At the first intimation of a riot the mob would have had this enormous force to meet, and every rifle and revolver was loaded with ball cartridge. The instructions were definite to shoot at the rioters first, and over their heads the second volley. There was to be killing if a riot was provoked. The Communists understood this, and they were very careful to give no occasion for military interference. The Communists are very shady now, and claim that they did not intend any trouble. But it is well known that they did intend to raise a riot and sack the city. They had their preparations all made. They expected the railroad people to strike, and then all the Communists would join them, and the thieves and tramps falling in, there would be force enough the Communists would join them, and the thieves and tramps falling in, there would be force enough to take possession of the city. Then buildings would have been fired, and the city would have been plundered. But no mob dare face an organised military force, and as soon as the conspirators know that the authorities were prepared for them, it all died out. Mayor Ely is entitled to a great deal of credit for nipping it in the bud what was intended to be a very dangerous affair.

American laborers would have no right to resist the mployment of these coolies? The very best interests of society demand that they should. In fact to preserve law and order it would be absolutely necessary. In this feeble effort to defend the laborer we would not have any one to believe for a moment that we are in favor of satisfied they are right then they go ahead. If this liberal way, dictated by the age in which we live, had been followed, there would have been no strike, and after the strike was inaugurated, if a liberal course.

POLITICAL.

If you read the daily papers you will suppose that everybody is out of town during the summer months. Nominally everybody is,—practically a great many are not. You shall see in the society papers a great many names reported as at Swampsoott, the White Mountains, and all over the cool spots, who are safely ensenced in their own scott, the White Mountains, and all over the cool spots, who are safely ensonned in their own houses. To keep up the impression that they have followed the fashion and gone to a summer resort, they keep their front blinds closed, and go in and out the area door. The fact is, the moderately wealthy havn't had the money to go away for three years, and many of them have discovered that the air is about as good in a well-appointed house in the city as it is anywhere. The summer resorts are all losing money this year. The farmers down on Long Lsland who can set a fairly good table are making a great deal of money by taking summer boarders at seven dollars's week, the same people who used to live at Long Branch and Saratoga at ten dollars a day. The hard times has blighted the summer resorts.

blighted the summer resorts. The city was astonished, and delighted as well, on Thursday by the intelligence that a stock-broker named Selover had beaten Jay Gould. It appeared that Gould was carrying a great deal more of Atlantic and Pacific telegraph stock than he wanted, and he did not have as much Wes ern Union as he needed to control that gigantic concern. Selover, Keene, the Californian, and other operators were in a tight place with various stocks. operators were in a tight place with various stocks that they had, and they appealed to Gould to help them. Gould agreed to do this, for he was short of the stocks they were overloaded with, and he joined the confederacy upon an agreement that they would let him have 70,000 shares of their teck. (Just appeal to says him form) ck. (Just enough to save him from loss.) and stock. (Just enough to save him from loss,) and that they should as a matter of safety unload their Western Union. They did so,—Gould's brokers bought every share of Western Union they put upon the market. By this smart operation he got stocks enough at a low price to cover what he peint in the market would sell out his grandmother. He was not true even to his old partner, Fisk, and

THE CHARTER OAK.

The turn of the tide in Life Insurance has come The turn of the tide in Life Insurance has come. The Insurance campanies of Hartford, and the prominent citizens, determined that the old Charter Oak, with its splendid record, should not go down, and they raillied to save it. Marshall Jewell, Ex-Postmaster general, and one of the most eminent manufacturers of Hartford, has accepted the Presidency, and a board of men of similar capacity and character second him. The old company will go on, and pay dollar for dollar. It is well, for the ruin of the companies was making trouble everywhere. The unnumbered thousands who have the hopes of families based upon Life Insurance want to have some assurance that their helpless heirs will get what they contracted for. The weak companies are about all played out now, and those remaining, with perhaps one or two exceptions, may be considered sound.

We have no famine—food has been plenty dur-ing the railroad disturbances, but there has been a drouth in beer. The beer made in the city is very bad, and the better-class of people get their sup-plies entirely from the West. It comes on in repines entirely from the west. It comes on in re-frigerator cars, and there is never a large stock on hand. The railroal troubles interfered with transportation, and there has been a drouth. The beer drinkers go up and down athirst, and they mourn for their favorite beverages, and will not be mount for their favorite beverages, and will not be comforted because they are not. There are fifty car-loads of beer a day, from Toledo. Milwaukee and Cincinati, consumed in this city, and you can imagine the consternation when the thirst soul is informed that it is out. The first car-load since the strike came in yesterday, and it was made the occasion of a jubilee. The western brewers are building ice-houses here now in which to store their supplies, so that this will not occur again.

J. H. BLACK & CO., Cor. 5th & Washington Sts., HUNTINGDON, PA.

Parents in quest of a first-class school for their daughters will do well to investigate the claims of this celebrated Academy.

For thoroughness in every department of female education, Mount de Chautal ranks pre-eminently high, Drugs, Medicines, Chemicals FINE TOILET SOAPS, FANCY HAIR AND TOOTH BRUSHES, PERFU-MERY, AND FANCY TOILET acquired in this Institution have long been a subject of surprise to the native Parisian.

The renown for superiority in music is so wide spread as to have made this Academy almost a native one.

One feature in particular, that should recommend Mount de Chautal to the sensible parent, is the influence exercised to form the pupils to views and habits of economy and to render them really practical and useful women of society in after years. Simplicity of dress is enforced by rule.

These facts united to the exceedingly moderate rates for board and tuition, will, we trust, secure to this school as large and desirable a patronage in the future as it has enjoyed in the past.
