DR. A. B. BRUMBAUGH, Huntingdon Republican State Convention.

HEADQUARTER'S REPUBLICAN STATE COMMITTEE, HARRISBURG, July 12th, 1877. By direction of the Republican State Comm tee, the Republican State Convention heretofore called to meet at Harrisburg on the 29th day of August next, is hereby postponed, to meet in Harrisburg, at noon, on Wednesday, September 5, 1877. This postponement is made at the request of a large number of delegates elect, who have engagements to be present at a triennial conclave of Knights Templar, which assembles at Ohio, on the 29th day of August next.

HENRY M. HOYT, A. WILSON NORRIS,

WE have only space to say, before closing our forms, that the Republican Convention, which assembled in this place, on Wednesday last, was one of the ablest and most harmonious Conventions which has ever assembled in the county. The ticket, from Sheriff to Coroner, could not have been improved upon in any way .-The Convention did its work well and it now remains for the people to endorse its State it is the great rail road cormorants.

THE Democracy of Virginia have taken the privileges of "common carriers." From a Holliday-for Governor. They ought the original concession they have grasped to have a good time of it down there.

In Irvin, Harper, Wills, Booth and Brumbaugh, the Republicans of Huntingdon county have a ticket that is an honor to the party and which augurs success.

SEPTEMBER 6th is the last day on which voters can be registered in order to vote at the next election. Assessors are required to have their lists at the Commissioners' Office on Friday, September 7th.

FORT HALL AGENCY, Idaho, August 20, VIA SALT LAKE.—Captain Bainbridge, with a company of scouts enlisted from the Bannocks and Shoshones, left Fort Hall yesterday for the hostile camp at Hole-in-the-Rocks station, about 90 miles north of here. Accounts received here yesterday state that the hostiles had possession of the station, and would allow no one to pass either way. On every hand come to us the rumors of political organizations. Every handful of laborers, feeling the grinding heel of capital, stand ready to resolve themselves into voting societies for the purpose of voting against the interests of their oppressors. And this is right! The ballot is the great redressor of wrongs. But, there must be method! There must be discreet political action! An elephant is only a blind giant. It takes tact; it takes discretion; it takes wisdom to direct his efforts to produce good results. The lates of the results are redressor of the results. It takes tact; it takes discretion; it takes wisdom to direct his efforts to produce good results. The lates of the results are redressed to the city, and that without any rioting or blood-shed. One workman asked Swinton whether it would not be better to take the million, and pay it over to the unemployed workmen, to help them along till times got better? Swinton's answer was characteristic. "What is the use of feeding men in this way? Do you want to go on feeding them, or will you compel capital to pay them so that or will you compel capital to pay them so that they can feed themselves? A million of dollars is efforts to produce good results. The laborers of the country can out vote their antagonists two or three to one. THE STORM YEAR. This season has been made memorable by the number and severity of the storms that have swept over this coast. Never in the history of the city has there been so many or so violent. Last Sunday night, Coney Island, on which at the time were more than 50,000 visitors, was swept by a storm that was as severe as it was unexpected. Bathing houses taken up and carried up bodily a quarter of a mile inland, tables on the piazzas nization that will weaken them and alienate one half their strength. In this country where four men out of five labor diligently, sympathy for the laborer is almost universal. The only exception to the rule is in the case of huge corporations and isolated wealthy individuals. Under such circumstances it must be apparent to the most obtuse that a preconcerted effort, on the part of laboring men, will culminate in the triumph of what they propose. But each handful contending for a different set of measures, failure is inevitable. To succeed a platform must be framed that will be broad enough for every laborer, every mechanic, every farmer and every business and the success of these success of these success of these success of these success of the success of th is in the case of huge corporations and quarter of a mile inland, tables on the piazza man to stand upon. The Governor, through a convenient interviewer, has arisen to remark that the reason of his haste from the "far west," to the Philadelphia Depot, to see the railroad magnates, without stopping east of Pittsburgh, was all owing to the fact that the burgh, was all owing to the fact that the burgh, was all owing to the fact that the supply of coal was almost out and the opening of the railroad had become an absolute necessity. Parents in quest of a first-class school for their daughters will do well to investigate the claims of this celebrated Academy.

For thoroughness in every department of female education, Mount de Chautal ranks pre-eminently high, Great attention is given to perfect the pupils in writing and speaking French with fluency. For those sufficiently advanced it is the language of their recreation hours. The purity of accent and correctness of pronunciation acquired in this Institution have long been a subject of surprise to the native Parisian.

The renown for superiority in music is so wide spread as to have made this Academy almost a native one. One feature in particular, that should recommend Mount de Chautal to the sensible parent, is the influence exercised to form the pupils to views and habits of economy and to render them really practical and useful women of society in after years. Simplicity of dress is enforced by rule. These facts united to the exceedingly moderate rates for board and utition, will, we trust, secure to this school as large and desirable a patronage in the future as it has enjoyed in the past.

Terms per annum \$200.
