Republican State Convention.

Headquarter's Republican State Committee, Harrisburg, July 12th, 1877. By direction of the Republican State Committee, the Republican State Convention heretofore called to meet at Harrisburg on the 29th day of August next, is hereby postponed, to meet in Harrisburg, at noon, on Wednesday, September 5 1877. This postponement is made at the request of a large number of delegates elect, who have engagements to be present at a triennial conclave of Knights Templar, which assembles at Ohio, on the 29th day of August next.

A. WILSON NORRIS,

September 5th is the last day for registering.

THE DEMOCRATIC STATE CON-

The Convention which assembled at Harrisburg, on Wednesday of last week, has created quite a flurry in politics by the size of the canvas which it elevated to cover the multitude of questions that were presented for its consideration. They determined to cover every thing but to proprotect nothing. The thinker can read and re read the resolutions and when he is done he will ejaculate, "nothing but empis presented to view but it all ends in canvas. They determined to perform unheard of feats of equestrianism only to be laughat for their stupidity. We have heard more ridicule, from the mouths of Democrats, aimed at the Harrisburg platform than enough. What was the necessity for this kind of cowardly performance? The Democratic party of Pennsylvania need give no uncertain sound. It is no weakling. Its representatives fill two or three of the prominent places in our State government! Its chances for success are as good now as they have been for years, and yet in the face of all this, the party had to be made ridiculous by an effort to straddle every important question. Many of the leaders are repudiating the Platform and calling to their followers to stick to the candidates without any respect to it.

The nominees, as far as we know, are good men. Both Trunkey and Noyce are believed to be fully competent for the places for which they are named. With Hon. Wm. P. Schell we have been personally acquainted for a quarter of accentury, and we do not hesitate to say that he is both competent and worthy. If electel he will fill the office to the entire satisfaction of his numerous constituencies. The only thing that can be said against Mr. Schell is that he is a Democrat, and if he is defeated it will be this that will defeat him

The Democracy feel very sanguine. They expect to elect their ticket beyond a doubt, and we admit there is much to encourage them. The lethargy which pervades the Republicans, brought about by the policy of the President, cannot help but be productive of bad results. If the Republicans are defeated in Pennsylvania this fall the cause can be squarely laid at door of the President. We hope, however, that there will be no necessity for charges of this character. Let the Republicans proceed to organize and prepare for the conflict, and they will carry their banners from the field in triumph.

THE Daily Graphic, the brightest daily in America gives the following: "Wake Nicodemus to-day! The good time coming, which was almost here, seems to have bondage and the throes of expectancy, may just as well be nudged and requested to arise and look around. Not only is a black boy appointed cadet to West Point in the strongest Irish district in the Uni ted States by an ultra Democratic Congressman, but John Morrissey makes him a substantial present to attest his good will, and John Kelley's organ gushes over him in an emotional cascade, which, twenty years ago could have been found only in Garrison's abolition paper, the Liberator. Come, Nicodemus, come, old fellow quit your gum tree resting place; wake up; it is morning."

THE Chicago Inter-Ocean has ascertained the opinions of one hundred and ninetyseven members of Congress on the question of the remonetization of silver. Of these one hundred and thirty one favor repealing the law of 1873, and restoring the dollar of the fathers to its old place in the coinage; fifteen favor remonetizing with conditions attacked; eighteen oppose remonetising; twenty-one are undecided, and two decline to answer. These answers represent every State, and include forty-one Senators and one hundred and six Repre-

DEMOCRATIC PLATFORM.

In the Democratic State Convention, on Wednesday of last week, the committee on resolutions, through their Chairman, R. L. Johnston, esq., of Cambria county, made a report, which was read and adopted. as follows:

The Democratic party of Pennsylvania, by First. That the induction of Rutherford B.

Hayes into the office of President, notwithstanding the election of Samuel J. Tilden thereto, was a high crime against free government was a high crime against free government which has not been condoned and will not be forgotten. The same spirit of patriotism which forbore contest upon the first offense, will resist and punish any attempt at a second Second. That the immediate happy effect of the application by the federal administration of the Democratic policy of non-interven-tion in the internal affairs of the Southern States, amply vindicates our frequent protests power not delegated to the general government by express constitutional provision.

Third. That the purpose to reform the

civil service which has been proclaimed by the present administration, is like its adopted "Southern policy," a confession of the failure of radicalism and a just tribute to the Democracy, which has long and earnestly demanded the overthrow and punishment of corrupt Fourth. That capital combined in corpora

We oppose further enactments for its special benefit at the expense of other interests. Labor and capital should have no cause of antagonism own relations. The right to contract freely of employment of many thousands of indus trious citizens and laborers and the deep distress of themselves and their families enlist our hearty sympathies, and we declare in the language of Jefferson, the founder of our party, that a "wise and frugal government which lower. Congressman Adrian Muller, of the first district in this city, had a vacancy in West Point to fill, and to avoid the responsibility of making a selection, advertised that a competitive examination and to avoid the responsibility of making a selection, advertised that a competitive examination would be held, and the boy making the best average would be appointed. MOUNT DE CHAUTAL

ACADEMY of the VISITATION,

NEAR WHEELING, W. VA. Parents in quest of a first-class school for their daught ers will do well to investigate the claims of this celebrated Academy.

For thoroughness in every department of female education, Mount de Chautal ranks pre-eminently high, Great attention is given to perfect the pupils in writing and speaking French with fluency. For those sufficiently advanced it is the language of their recreation hours. The purity of accent and correctness of pronunciation acquired in this Institution have long been a subject of surprise to the native Parisian.

The renown for superiority in music is so wide spread as to have made this Academy almost a native one. One feature in particular, that should recommend Mount de Chautal to the sensible parent, is the influence exercised to form the pupils to views and habits of economy and to render them really practical and useful women of society in after years. Simplicity of dress is enforced by rule. These facts united to the exceedingly moderate rates for board and tuition, will, we trust, secure to this school as large and desirable a patronage in the future as it has enjoyed in the past.

Terms per annum \$200.
