"I have threshed the wheat grown on one acre, and it made sixty-one bushels and one peck. It is the "Champion Amber variety." The seed was obtained from Mr. Heiges, of York, at \$5 per bushel. One and a half bushels were planted on the acre reported. Mr. Heiges succeeded, in raising 71 bushels of this wheat to the acre. I cultivated this wheat in the spring of the year, three times between the drill rows. The cultivated "Clawson" variety, sown by me last fall, and now threshed, yielded 361 bushels per acre. The same variety, not cultivated, yielded 25 bushels and two pounds per acre. It is my opinion that the "Champion Amber," if raised under very favorable conditions, will yield from 75 to 80 pushels per acre. Mine this year stood on ground a little too iow, and it was sowed a little too late. I have no doubt that such a yield is quite possible and probable, and if all the grains

The committee appointed to visit Mr. Greff's farm and report on the method of cultivating wheat practiced by him, reported as follows:

in my present reported crop were plump

and full, my yield would be at least 75

bushels per acre this year."

"We, the undersigned, visited the farm of Mr. Groff about harvest time, and fully concur in his report so far as we could judge at that time."

D. M. ENGLE, CALIVIN COOPER. L. S. REIST. P. S. REIST.

A vote of thanks was given to Mr. Groff by the Society for his experiment, and his care in making the results public-

Mr. Engle hoped that Mr. Groff had opened a new era in wheat culture, and that its example would be widely followed. It has now been proven that it pays to cultivate wheat. Let the farmers take up this subject and continue the experiment. Our wheat crop can be largely increased Ly cultivation.

Improving Farms.

On this subject one of our exchanges thus alludes to the profit of fixing up about the buildings and farm-an item too often neglected because it is not properly appreciated by many who claim that it "does not pay": "How few farmers improve their farms to the extent they might do if they had the requisite energy and perseverence! Let us suppose a case. Mr. A. buys a farm that is "run down," the land is poor, the farm out of repair, the house going to ruin, the barn leaky, no orchard, no garden worthy of the name, fields grown up to briars, no underdraining ever thought of, swamps in various places, land rocky, or too rough for a mowing machine-all the typical character land. Ten years pass, and we again examine this farm; and what do we behold?

The rocky and rough fields are as smooth The rocky and rough fields are as smooth as a lawn; the grass is luxuriant; marshes and swales have disappeared by ditching and underdraining; fine fences over the entire farm greet the eye; a young orchard is just coming into bearing; the dwelling is painted and blinded; shade and fruittrees adorn the yard; the barn and outhouses look comfortable, and are in good repair; a substantial picket fence surrounds the house and garden, and every. thing denotes thrift and comfort! How was the great improvement effected? Simply by persistent labor at odd times, when the crops did not need special attention, and the improved crops from year to year, obtained by a thorough system of farming, paid the entire expenses. Had Mr. B. or Mr. C. bought this farm, it is probable that it would to day be the same old forlorn and "run down' place. It is energy and brains that effect such results; and many farmers could do the same if they would wake up and bestir themselves."

If the owner wishes to sell it will always pay, and if he does not the lesson given to his children and their increased interest in the common home of the family will more than repay the expense.

Care of Harness,

Take neats foot oil and ivory blackthe latter well pulverized, or to be made so before using. Mix thoroughly-adding the black until the oil is well colored, or quite black. In cool weather the oil should be warmed somewhat before mix. ing. With a sponge apply a light coat of the mixture-only what the leather will readily absorb, unless the harness is very dry-in which case a heavy coat may be necessary. After the harness is drywhich will be in from two hours to a half or a whole day, depending upon the weather and previous condition of the leather wash thoroughly with soap suds. In making the suds use good castile soap and cold rain water. (Warm water should never be used on harness leather.) Apply the sads with a sponge. Rub off with buckskin. This will give your harness a nice glossy surface, and the leather will retain a good color and continue pliable for months. If it becomes soiled with mud or sweat, an application of soap and water, as above directed (without oiling), will be sufficient to keep harness, as ordinarily used, in good order.

WHAT IS NEEDED.

MR. H. R. STEVENS.

Dear Sir:—About one year since, I found myself in a feeble condition from general debility. Vegetine was strongly recommended to me by a friend who had been much benefited by its use. I procured the article, and after using several bottles was restored to health, and discontinued its use. I feel quite confident that there is no medicine superior to it for those complaints for which it is especially prepared, and would cheerfully recommendit to those who feel that they need something to restore hem to perfect health. Respectfully yours, because of the process of the

I HAVE FOUND THE RIGHT MED-

MR. H. R. STEVENS.

Dear Sir,—My only object in giving you this testimonial-is to spread valuable information. Having been badly stiflicted with Salt Rheum, and the whole surface of my skin being covered with pimples and eruptions, many of which caused me great pain and annoyance, and knowing it to be a blood disease, I took many of the advertised blood preparations, among which was any quantity of Sarsaparilla, without obtaining any beuefit until I commenced taking the Vegetines, and before I had completed the first bottle I saw that I had got the right medicine. Consequently I followed on with it until I had taken seven bottles, when I was pronounced a well man; and my skin is smooth, and entirely free from pimples and eruptions. I have never enjoyed so good health before, and I attribute it all to the use of Vegetine. To benefit those afflicted with Rheumatism I will make mention also of the Vegetine's wonderful power of curing me of this acute complaint, of which I have suffered so intensity.
