THE Ohio election has proved that the quickest way to defeat the Republican party is to vote Independent, Greenback, Labor, and Temperance tickets, thus showing that the intelligent men who want reforms of all kinds are chiefly Republicans. Would it not be better to support the great party of progress, and trust to it making as brilliant a record in the future as it has in the past, rather than to turn the Government over to the Democrats, who have all ving off very nicely. to do? We can't buy paper, furnish labor, pay postage, rent, and the Lord only knows what all, without money. Must we shut up our establishment because we cannot get in Ohio. They are united and firm, and enough ready cash to keep it run-THE OBELISK.

THE OBELISK.

The English succeeded in getting permission of the Khedive of Egypt to remove to London the Alexandria Obelisk which every school-boy has read of, known as "Cleopatra's Needle." It is now on its way to England, and will be set up in Trafalgar Square. Not to be behindhand, an American Merchant, who withholds his name, persuaded the Khedive to permit another one to be brought to New York, and he donated the cost of bringing it,—\$100,000. The papers are all drawn, and as soon as steam can do it, an Obelisk that Moses and Aaron looked upon will be set up in the youngest of the great cities of the world. Who the doner is, no one knows, but time will reveal the secret. It was a noble and generous act. ANOTHER STRIKE.

This time it is the cigar makers. Five thousand of them, and doubtless justly so, have quit work, and are trying to make the strike general. The notable feature in this emeute, is the fact that a woman is one of the leaders, and a principal one.
Mary Heisler, a young Bohemian woman who has
gained a great deal of influence over the laborers
of the city by her fervid oratory and advanced
communistic ideas, was elected Vice-President of
the Central Association, and she at once took position as its real head. The cigar-makers, who
are largely foreigners, look upon her as a second
Joan of Aro, and they obey her commands without question. The majority of the cigar-makers
are the lowest grade of dermans and Poles, who
live in the filthiest tenement houses, doing their
work there. They are underpaid and overworked,
for the reason that the trade is easily learned, and
there is such a glut of workers that the employers
can get any amount of labor at their own price.
The employers are almost all foreigners, and are
merciless toward the poor of their own nationalities. The strikers now number five thousand, and
it is probable that the movement will go on till it
will embrace all the operatives in the city. a woman is one of the leaders, and a principal one will embrace all the operatives in the city.

The Last swindle.

The Last swindle is a variation of an old one, which originated in this city, and is being prosecuted from here. The modus operandi is very simple. It is a wire fence of a not very new pattern, and which is not even patentable. The smooth-tongued agent shows it to a farmer, and solicits him to become an agent for it. As an inducement he is offered fifty rods free, provided he will put it up along the road where it can be seen and severage an advertisement. It is a handsome of the popular branch of the Forty-fifth congress may be said to commence the restoration of the democrats to power in most of the states of this Union. They have the house by a majority of fourteen while the Republicans hold the Senate by a majority of four with a prospect of losing that after the 4th of March, 1879. Whate the was to have fifty rods free. Agent says, 'Certainly, but you have ordered one hundred and fifty rods, and the one hundred and fifty rods, that lay just underneath. He is frightened to carry the State in November with the adventure and he reside the and united in New York, and are determined to carry the State in November and the states an advertisement. It is a handsome fence, and the farmer bites at the offer. First he gets fifty rods of fence for nothing, and if he does take an order, he gets a liberal commission. He signs what he supposes is an order for fifty rods and immediately the wire is shipped him. Then comes another agent who demands pay for one hundred and fifty rods, and the one hundred rods you must pay for at four cents a foot." And he produces an order with the farmer's signature, to that effect. The process is very simple. The farmer saw a contract for fifty rods, but when he came to sign, that order was slipped up, and he really put his name to apother one for one hundred and fifty rods, that lay just underneath. He is frightened in New York, and are determined to carry the State in November into giving his mote for, say \$200, which he expects to resist, but he always finds that it has been discounted at the nearest bank, and he pays it. When will farmers learn that all these gifts and everything of the kind are merely swindles, and that there is always a cat under the meal.

The Democracy of the city opposed to Tammany are attempting to combine their forces, so as to make a successful fight against the hydra-headed monster. The Tribune says, "They procrastinate," and of course they procrastinate, as Anti-Tammany always did and always will, for there is nothing honest in the movement. The Anti-Tammany Democracy are just like the other Tammany many Democracy are just like the other Tammany Democracy, only they happen to be the ones left out in the cold. They organize, not to beat Tammany, but to compel a division of the spoils. If they are weak, Tammany laughs at them;—if they are strong, Tammany buys them up. This has been the practice for years, and will be to the end of time. John Kelley will look them over, buy up such as he wants, and contemptuously kick the others. "Procrastination" in this case means waiting for a bid. The Republicans are doing little or nothing. Neither in the Times or Tribune of Tuesday was there a word relating to the State ticket.

The police, guided by Anthony Comstock, are The police, guided by Anthony Comstock, are making a raid on the lotteries. Comstock succeeded in breaking up the sale of obseene Literature, but he will fail in his attack upon the lotteries. The lottery people are rich and well organised, and the business of gulling fools is too profitable to be given up without a fight. They have the best legal talent in the city behind them, and then their methods of doing business are so secret and well guarded that it is difficult to convict them. There are a large number of lotteries that have their head-quarters in the city, and all of them, with five exceptions, are bogus. They take in vast sums of money, though.
