1 recommend the following:

1 st. Compel every man, woman and child to be vaccinated, whether done before or not, try it again.

2 d. Place every infected residence under rigid quarantine.

3 Burn the bed-clothes and clothing of the patient.

These measures will soon banish the disease, restore public tranquility, improve business and save valuable lives.

"ITCHING PILES"—Is one of the most annoying diseases in the world, and all can find prompt and certain relief by the use of "Swayne's olintment." The symptoms are moisture, like personant." The symptoms are moisture, like personant. Wm. P. Grove, U. S. Marshal's office, Harrison-this terrible disease, consulted many physicians, but found no permanent relief until I used Swayne's olintment. It also cures tetter, pimples, all crastative, scally, itchy skin diseases, leaving the skin clear and smooth without a blemish. Sent by mail to any address, on receipt of price, 50 cents a box. Address letters to Dr. Swayne & Son, Philadelphia, or to the Huntingdon agent, J. H. Black & Co.

Pulse of the Throat or Lungs, its success is simple with the success of the many physicians, which is the above more illustrated than in the course many pursue in certain kinds of disease. EVERYBODY PLEASED

The steadily increasing sales, and letters received daily from different parts of the country praising the curative properties of the great Jamaica Remediens, show beyond a doubt, that these medicines have taken a firm hold upon the people. Everybody is pleased with them. Why, if you have a cough, a bottle of Jamaica Cough Syrup is sure entrying the same relation to one another. He had, he said occupied the office of Superintendent nearly six years, and left glad in some respects, as the had been subjected to harder and more wearing labor during that time than ever before. It was a mistaken idea that the office was a sineoure. There were duties and labors connected with it that are were hard and wearing. While in some respects he felt glad to know that he was about to take leave of the office, he could not but feel sorry in the between himself and those who were specially in terested in the cause of education in the county. He had not expected, when he entered on the discharge of his duties, to render general satisfaction; but had acceeded beyond his expectations. In the matter of teachers' examinations he had not been able to pleare all; but had labored to else the standard of qualifications, as rapidly as it could be done. The old teachers are aware that it is higher than it was twelve or fifteen years ago, and, in the face of low and ungraded salaries, and the materist out of which he had to work, it was not as high as it should be; persons were licensed to teach who would not have been, if sufficient wages had been given to secure teachers with first wages had been given to secure teachers with first.

A FINE HEAD OF HAIR is such an in dispensable adjunct to beauty that no one wh cannot kelp but feel that the whole trouble lies at the door of the physicians. If they had taken the usual precautions it would have died out in a few weeks, and the town would have been rid of it, and business would not have been interferred with, but as it is, cold weather may set in, and then there is no telling where it will stop.

Vaccination alone is a remedy. There is no other. And this is only a partial remedy. It only modifies the disease. But in its modified state it seldom proves fatal. Occasionally a case will die, but only occassionally. Then tle, or six bottles for \$1. Sold by J. H. Black &
